6 "three"

7 EFFECT: The original 1971 definition of "substantial development"
8 was \$1000. If this \$1000 had increased at the same rate as the rate of
9 inflation measured by the Seattle Metropolitan Consumer Price Index, it
10 would be \$3610 in 1993. If the \$1000 had increased at the same rate as
11 all U.S. Cities Average Consumer Price Index, it would be \$3460 in
12 1993. \$3500 is closer than \$8500 to the actual value of projects
13 exempt under the original Shorelines Management Act.
