Read first time 01/20/93. Referred to Committee on Fisheries & Wildlife.

- 1 AN ACT Relating to surplus salmon eggs; adding a new section to
- 2 chapter 75.08 RCW; and creating a new section.

State of Washington

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 Sec. 1. The legislature finds the department of NEW SECTION. 5 fisheries produces surplus salmon eggs every year as part of the state hatchery salmon production cycle. The legislature has authorized the 6 7 department to sell surplus salmon eggs to any person, at any cost, for use in cultivation of salmon in any location. The legislature finds 8 the implementation of this law has had an adverse impact on private 9 10 aquatic farmers in the state. Private aquatic farmers have attempted to develop improved commercial salmon broodstock for commercial egg 11 12 production and have been unsuccessful because the price of state eggs 13 has degraded the market price so dramatically that development of a 14 captive broodstock is not economically feasible. The legislature 15 further finds the majority of subsidized state eggs also are sold to foreign private aquatic farmers who use them to produce pen-reared 16 17 salmon that are sold in the United States markets to compete with Washington-raised farmed salmon and salmon harvested by commercial 18 19 It is the intent of the legislature that the average sale

- 11 the previous year for salmon eggs sold by private aquatic farmers in
