HOUSE BILL 1612

State of Washington 53rd Legislature 1993 Regular Session

By Representatives Morton, King, Basich, Kremen, Sheldon, Foreman, Fuhrman, Chandler and Padden

Read first time 02/03/93. Referred to Committee on Fisheries & Wildlife.

- 1 AN ACT Relating to the enhancement of salmon with remote site
- 2 incubators; adding new sections to chapter 75.50 RCW; and creating a
- 3 new section.
- 4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:
- 5 <u>NEW SECTION.</u> **Sec. 1.** The legislature finds that the use of salmon
- 6 enhancement tools such as remote site incubators may present
- 7 alternatives for salmon enhancement that could reduce disease, be
- 8 compatible with wild stock goals, and allow for enhancement in small
- 9 stream systems for which current enhancement techniques are infeasible.
- 10 The legislature further finds that although remote site incubators have
- 11 been developed, their success has not been monitored. It is the intent
- 12 of the legislature to gauge the feasibility of this technique for
- 13 salmon enhancement in the state.
- 14 <u>NEW SECTION.</u> **Sec. 2.** A new section is added to chapter 75.50 RCW
- 15 to read as follows:
- 16 The department shall develop and implement a pilot project in one
- 17 or more watersheds to test the feasibility of remote site incubators
- 18 for salmon enhancement. The department shall evaluate, at a minimum,

p. 1 HB 1612

- 1 salmon egg survival, fry survival, and adult returns. The department
- 2 shall use volunteers to implement the pilot project.
- NEW SECTION. Sec. 3. A new section is added to chapter 75.50 RCW 4 to read as follows:
- 5 By December 31, 1993, and each year for the following four years,
- 6 the department shall report to the appropriate committees of the
- 7 legislature on the progress and final success of the remote site
- 8 incubators in the pilot project established in section 2 of this act.

--- END ---
