Brief Description: Requiring collection of ballast discharge data.

HB 1042 - DIGEST

Requires the development of a ballast water control report form by January 1, 1994, to obtain information on ballast discharge procedures.

Authorizes the collection of ballast sediment and water samples from vessels in state waters.

Requires a report of findings to the legislature by July 1, 1995.

Makes an appropriation of two hundred fifty-six thousand five hundred eleven dollars to carry out the purposes of the act.
