Brief Description: Regulating clinical laboratory science practitioners.

HB 2137 - DIGEST

Provides that no person may practice clinical laboratory science in this state unless licensed in accordance with the provisions of the act.

Creates a clinical laboratory board within the department of health.

Specifies the duties and powers of the board.

Establishes a schedule of fees for licensure.

Designates the standards for issuance of the license.

Establishes disciplinary procedures.

Makes laboratory testing without a license a misdemeanor offense.
