2 By Representative Casada

3 On page 3, after line 6 insert:

4 "(11) "Distribution" means the conveyance of thermal energy to
5 two or more buildings through a network of pipes.

6 (12) "Thermal energy" means heat or cold in the form of steam,
7 heated or chilled water, or any other heated or chilled medium."

8
9 Renumber the remaining subsection consecutively and correct
10 internal references accordingly.

EFFECT: Clarifies that the term "distribution" is limited in
meaning to an external system.
