10 (uncodified); providing effective dates; providing an expiration date;
11 and declaring an emergency.

12 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

13 NEW SECTION. **Sec. 1.** The legislature finds that while
14 Washington's economy is currently prospering, economic growth continues
15 to be uneven, particularly as between metropolitan and rural areas.
16 This has created in effect two Washingtons. One afflicted by
17 inadequate infrastructure to support and attract investment, another
18 suffering from congestion and soaring housing prices. In order to
19 address these problems, the legislature intends to use resources

1 strategically to build on our state's strengths while addressing
2 threats to our prosperity.

3 **PART I**

4 **RURAL ECONOMIC DEVELOPMENT**

5 **Enhanced Flexibility for Use of Community Economic**
6 **Revitalization Board Funds**

7 **Sec. 101.** RCW 43.160.010 and 1996 c 51 s 1 are each amended to
8 read as follows:

9 (1) The legislature finds that it is the public policy of the state
10 of Washington to direct financial resources toward the fostering of
11 economic development through the stimulation of investment and job
12 opportunities and the retention of sustainable existing employment for
13 the general welfare of the inhabitants of the state. Reducing
14 unemployment and reducing the time citizens remain jobless is important
15 for the economic welfare of the state. A valuable means of fostering
16 economic development is the construction of public facilities which
17 contribute to the stability and growth of the state's economic base.
18 Strengthening the economic base through issuance of industrial
19 development bonds, whether single or umbrella, further serves to reduce
20 unemployment. Consolidating issues of industrial development bonds
21 when feasible to reduce costs additionally advances the state's purpose
22 to improve economic vitality. Expenditures made for these purposes as
23 authorized in this chapter are declared to be in the public interest,
24 and constitute a proper use of public funds. A community economic
25 revitalization board is needed which shall aid the development of
26 economic opportunities. The general objectives of the board should
27 include:

28 (a) Strengthening the economies of areas of the state which have
29 experienced or are expected to experience chronically high unemployment
30 rates or below average growth in their economies;

31 (b) Encouraging the diversification of the economies of the state
32 and regions within the state in order to provide greater seasonal and
33 cyclical stability of income and employment;

34 (c) Encouraging wider access to financial resources for both large
35 and small industrial development projects;

1 (d) Encouraging new economic development or expansions to maximize
2 employment;

3 (e) Encouraging the retention of viable existing firms and
4 employment; and

5 (f) Providing incentives for expansion of employment opportunities
6 for groups of state residents that have been less successful relative
7 to other groups in efforts to gain permanent employment.

8 (2) The legislature also finds that the state's economic
9 development efforts can be enhanced by, in certain instances, providing
10 funds to improve state highways (~~(in the vicinity of new)~~), county
11 roads, or city streets for industries considering locating or expanding
12 in this state ((or existing industries that are considering significant
13 expansion)).

14 (a) The legislature finds it desirable to provide a process whereby
15 the need for diverse public works improvements necessitated by planned
16 economic development can be addressed in a timely fashion and with
17 coordination among all responsible governmental entities.

18 (~~(It is the intent of the legislature to create an economic~~
19 ~~development account within the motor vehicle fund from which~~
20 ~~expenditures can be made by the department of transportation for state~~
21 ~~highway improvements necessitated by planned economic development.))~~
22 All (~~(such)~~) transportation improvements on state highways must first
23 be approved by the state transportation commission and the community
24 economic revitalization board in accordance with the procedures
25 established by RCW 43.160.074 and 47.01.280. (~~(It is further the~~
26 ~~intent of the legislature that such improvements not jeopardize any~~
27 ~~other planned highway construction projects. The improvements are~~
28 ~~intended to be of limited size and cost, and to include such items as~~
29 ~~additional turn lanes, signalization, illumination, and safety~~
30 ~~improvements.))~~)

31 (3) The legislature also finds that the state's economic
32 development efforts can be enhanced by, in certain instances, providing
33 funds to assist development of telecommunications infrastructure that
34 supports business development, retention, and expansion in rural
35 natural resources impact areas and distressed counties of the state.

36 (4) The legislature also finds that the state's economic
37 development efforts can be enhanced by providing funds to improve
38 markets for those recyclable materials representing a large fraction of
39 the waste stream. The legislature finds that public facilities which

1 result in private construction of processing or remanufacturing
2 facilities for recyclable materials are eligible for consideration from
3 the board.

4 ~~((4))~~ (5) The legislature finds that sharing economic growth
5 state-wide is important to the welfare of the state. Distressed
6 counties and rural natural resources impact areas do not share in the
7 economic vitality of the Puget Sound region. The ability of these
8 communities to pursue business and job retention, expansion, and
9 development opportunities depends on their capacity to ready necessary
10 economic development project plans, sites, permits, and infrastructure
11 for private investments. Project-specific planning, predevelopment,
12 and infrastructure ~~((is one of several))~~ are critical ingredients
13 ~~((that are critical))~~ for economic development. Distressed counties
14 and rural natural resources impact areas generally lack ~~((the~~
15 ~~infrastructure))~~ these necessary tools and resources to diversify and
16 revitalize their economies. It is, therefore, the intent of the
17 legislature to increase the ~~((availability of funds to help provide~~
18 ~~infrastructure to rural natural resource impact areas))~~ amount of
19 funding available through the community economic revitalization board
20 for distressed counties and rural natural resources impact areas, and
21 to authorize flexibility for available resources in these areas to help
22 fund planning, predevelopment, and construction costs of infrastructure
23 and facilities and sites that foster economic vitality and
24 diversification.

25 **Sec. 102.** RCW 43.160.020 and 1997 c 367 s 8 are each amended to

20 data is available. For the purposes of administration of programs
21 under this chapter, the United States post office five-digit zip code
22 delivery areas will be used to determine residence status for
23 eligibility purposes. For the purpose of this definition, a zip code
24 delivery area of which any part is ten miles or more from an urbanized
25 area is considered nonurbanized. A zip code totally surrounded by zip
26 codes qualifying as nonurbanized under this definition is also
27 considered nonurbanized. The office of financial management shall make
28 available a zip code listing of the areas to all agencies and
29 organizations providing services under this chapter.

30 **Sec. 103.** RCW 43.160.060 and 1996 c 51 s 5 are each amended to
31 read as follows:

32 The board is authorized to make direct loans to political
33 subdivisions of the state for the purposes of assisting the political
34 subdivisions in financing the cost of public facilities, including
35 development of land and improvements for public facilities, project-
36 specific environmental, capital facilities, land use, permitting,
37 feasibility and marketing studies and plans; project design, site
38 planning, and analysis; project debt and revenue impact analysis; as

1 well as the construction, rehabilitation, alteration, expansion, or
2 improvement of the facilities. A grant may also be authorized for
3 purposes designated in this chapter, but only when, and to the extent
4 that, a loan is not reasonably possible, given the limited resources of
5 the political subdivision and the finding by the board that (~~(unique)~~)
6 financial circumstances (~~(exist. The board shall not obligate more~~
7 ~~than twenty percent of its biennial appropriation as grants)) require
8 grant assistance to enable the project to move forward.~~

9 Application for funds shall be made in the form and manner as the
10 board may prescribe. In making grants or loans the board shall conform
11 to the following requirements:

12 (1) The board shall not provide financial assistance:

13 (a) For a project the primary purpose of which is to facilitate or
14 promote a retail shopping development or expansion.

15 (b) For any project that evidence exists would result in a
16 development or expansion that would displace existing jobs in any other
17 community in the state, except a project that would relocate a business
18 from a nondistressed urban area to a distressed county or rural natural
19 resources impact area.

20 (c) For the acquisition of real property, including buildings and
21 other fixtures which are a part of real property.

22 (d) For a construction project to any local government applicant
23 that is not, at the time of application for financial assistance, in
24 compliance with the provisions of chapter 36.70A RCW.

25 (2) The board shall only provide financial assistance:

26 (a) For those projects which would result in specific private
27 developments or expansions (i) in manufacturing, production, food
28 processing, assembly, warehousing, advanced technology, research and
29 development, and industrial distribution; (ii) for processing
30 recyclable materials or for facilities that support recycling,
31 including processes not currently provided in the state, including but
32 not limited to, de-inking facilities, mixed waste paper, plastics, yard
33 waste, and problem-waste processing; (iii) for manufacturing facilities
34 that rely significantly on recyclable materials, including but not
35 limited to waste tires and mixed waste paper; (iv) which support the
36 relocation of businesses from nondistressed urban areas to distressed
37 counties or rural natural resources impact areas; or (v) which
38 substantially support the trading of goods or services outside of the
39 state's borders.

1 (b) For projects which it finds will improve the opportunities for
2 the successful maintenance, establishment, or expansion of industrial
3 or commercial plants or will otherwise assist in the creation or
4 retention of long-term economic opportunities.

5 (c) When the application includes convincing evidence that a
6 specific private development or expansion is ready to occur and will
7 occur only if the public facility improvement is made.

8 (3) The board shall prioritize each proposed project according to
9 the relative benefits provided to the community by the jobs the project
10 would create, not just the total number of jobs it would create after
11 the project is completed and according to the unemployment rate in the
12 area in which the jobs would be located. As long as there is more
13 demand for financial assistance than there are funds available, the
14 board is instructed to fund projects in order of their priority.

15 (4) A responsible official of the political subdivision shall be
16 present during board deliberations and provide information that the
17 board requests.

18 Before any financial assistance application is approved, the
19 political subdivision seeking the assistance must demonstrate to the
20 community economic revitalization board that no other timely source of
21 funding is available to it at costs reasonably similar to financing
22 available from the community economic revitalization board.

23 **Sec. 104.** RCW 43.160.076 and 1998 c 321 s 28 (Referendum Bill No.
24 49) and 1998 c 55 s 4 are each reenacted and amended to read as
25 follows:

26 (1) Except as authorized to the contrary under subsection (2) of
27 this section, from all funds available to the board for financial
28 assistance in a biennium under this chapter without reference to
29 financial assistance provided under RCW 43.160.220, the board shall
30 spend at least seventy-five percent for financial assistance for
31 projects in distressed counties or rural natural resources impact
32 areas. For purposes of this section, the term "distressed counties"
33 includes any county, in which the average level of unemployment for the
34 three years before the year in which an application for financial
35 assistance is filed, exceeds the average state unemployment for those
36 years by twenty percent.

37 (2) If at any time during the last six months of a biennium the
38 board finds that the actual and anticipated applications for qualified

1 projects in distressed counties or rural natural resources impact areas
2 are clearly insufficient to use up the seventy-five percent allocation
3 under subsection (1) of this section, then the board shall estimate the
4 amount of the insufficiency and during the remainder of the biennium
5 may use that amount of the allocation for financial assistance to
6 projects not located in distressed counties or rural natural resources
7 impact areas.

8 (~~((3) This section expires June 30, 2000.))~~)

9 **Sec. 105.** RCW 43.160.200 and 1996 c 51 s 9 are each amended to
10 read as follows:

11 (1) The economic development account is created within the public
12 facilities construction loan revolving fund under RCW 43.160.080.
13 Moneys in the account may be spent only after appropriation.
14 Expenditures from the account may be used only for the purposes of RCW
15 43.160.010(~~((3))~~) (5) and this section. The account is subject to
16 allotment procedures under chapter 43.88 RCW.

17 (2) Applications under this section for assistance from the
18 economic development account are subject to all of the applicable
19 criteria set forth under this chapter, as well as procedures and
20 criteria established by the board, except as otherwise provided.

21 (3) Eligible applicants under this section are limited to political
22 subdivisions of the state in rural natural resources impact areas
23 (~~((that demonstrate, to the satisfaction of the board, the local
24 economy's dependence on the forest products and salmon fishing
25 industries))~~) and distressed counties.

26 (4) Applicants must demonstrate that their request is part of an
27 economic development plan consistent with applicable state planning
28 requirements. Applicants must demonstrate that tourism projects have
29 been approved by the local government. Industrial projects must be
30 approved by the local government and the associate development
31 organization.

32 (5) Publicly owned projects may be financed under this section upon
33 proof by the applicant that the public project is a necessary component
34 of, or constitutes in whole, a tourism project.

35 (6) Applications must demonstrate local match and participation.
36 Such match may include: Land donation, other public or private funds
37 or both, or other means of local commitment to the project.

1 (7) Board financing for project-specific environmental, capital
2 facilities, land use, permitting, feasibility and marketing studies and
3 plans; project engineering, design, and site planning and analysis; and
4 project debt and revenue impact analysis shall not exceed ~~((twenty-~~
5 ~~five))~~ fifty thousand dollars per study. Board funds for ~~((feasibility~~
6 ~~studies))~~ these purposes may be provided as a grant and require a
7 ~~((dollar for dollar))~~ match ~~((with up to one half in-kind match~~
8 ~~allowed))~~.

9 (8) Board financing for tourism projects shall not exceed two
10 hundred fifty thousand dollars. Other public facility construction
11 projects under this section shall not exceed ~~((five hundred thousand))~~
12 one million dollars. Loans with flexible terms and conditions to meet
13 the needs of the applicants shall be provided. Grants may also be
14 authorized, but only when, and to the extent that, a loan is not
15 reasonably possible, given the limited resources of the political
16 subdivision.

17 (9) The board shall develop guidelines for allowable local match
18 and ~~((feasibility studies))~~ planning and predevelopment activities.

19 (10) The board may allow de minimis general system improvements to
20 be funded if they are critically linked to the viability of the
21 economic development project assisted under this section.

22 ~~(11)~~ Applications under this section need not demonstrate evidence
23 that specific private development or expansion is ready to occur or
24 will occur if funds are provided.

25 ~~((11))~~ ~~(11)~~ (12) The board shall establish guidelines for providing
26 financial assistance under this section to ensure that the requirements
27 of this chapter are complied with. The guidelines shall include:

28 (a) A process to equitably compare and evaluate applications from
29 competing communities.

30 (b) Criteria to ensure that approved projects will have a high
31 probability of success and are likely to provide long-term economic
32 benefits to the community. The criteria shall include: (i) A minimum
33 amount of local participation, determined by the board per application,
34 to verify community support for the project; (ii) an analysis that
35 establishes the project is feasible using standard economic principles;
36 and (iii) an explanation from the applicant regarding how the project
37 is consistent with the communities' economic strategy and goals.

1 (c) A method of evaluating the impact of the financial assistance
2 on the economy of the community and whether the financial assistance
3 achieved its purpose.

4 **Transportation to Support Economic Development**
5 **in Distressed Counties and in Community Empowerment Zones**

6 NEW SECTION. **Sec. 106.** A new section is added to chapter 43.160
7 RCW to read as follows:

8 In accordance with RCW 43.160.060 and 43.160.200, the community
9 economic revitalization board is authorized to provide grants, but not
10 loans, for transportation improvements in distressed counties as
11 defined in RCW 43.160.020, in rural natural resources impact areas as
12 defined in RCW 43.160.020(13), and in designated community empowerment
13 zones approved under RCW 43.63A.700. Funding for these improvements
14 are from the transportation equity act for the 21st century, surface
15 transportation program and are subject to surface transportation
16 program federal fund eligibility and planning requirements detailed in
17 23 U.S.C. Sec. 133(b) and Sec. 134. Up to twenty-two percent of
18 available surface transportation funds are made available for these
19 purposes, however beginning in 2000 in the event that such funds are
20 not obligated by June 1st of each year, they will revert in equal
21 amount to the other designated surface transportation program purposes.
22 In accordance with federal law, the department of transportation is
23 responsible for administering grants awarded by the board under this
24 section.

25 **Sec. 107.** RCW 47.01.280 and 1985 c 433 s 6 are each amended to
26 read as follows:

27 (1) Upon receiving an application for improvements to an existing
28 state highway or highways pursuant to RCW 43.160.074 from the community
29 economic revitalization board, the transportation commission shall, in
30 a timely manner, determine whether or not the proposed state highway
31 improvements:

32 (a) Meet the safety and design criteria of the department of
33 transportation;

34 (b) Will impair the operational integrity of the existing highway
35 system;

1 (c) Will affect any other improvements planned by the department;
2 and

3 (d) Will be consistent with its policies developed pursuant to RCW
4 47.01.071.

5 (2) Upon completion of its determination of the factors contained
6 in subsection (1) of this section and any other factors it deems
7 pertinent, the transportation commission shall forward its approval, as
8 submitted or amended or disapproval of the proposed improvements to the
9 board, along with any recommendation it may wish to make concerning the
10 desirability and feasibility of the proposed development. If the
11 transportation commission disapproves any proposed improvements, it
12 shall specify its reasons for disapproval.

13 (3) Upon notification from the board of an application's approval
14 pursuant to RCW 43.160.074, the transportation commission shall direct
15 the department of transportation to carry out the improvements in
16 coordination with the applicant.

17 (4) The transportation commission shall notify the legislative
18 transportation committee of all state highway improvements to be
19 carried out pursuant to RCW 43.160.074 and this section.

20 ~~((5) All state highway improvements that are approved pursuant to
