
ENGROSSED SECOND SUBSTITUTE SENATE BILL 5730

State of Washington

56th Legislature

1999 Regular Session

By Senate Committee on Ways & Means (originally sponsored by Senators Rasmussen and Swecker)

Read first time 03/08/1999.

1 AN ACT Relating to financial responsibility requirements for
2 operators of solid waste landfills; amending RCW 70.95.215; and
3 declaring an emergency.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 70.95.215 and 1985 c 436 s 1 are each amended to read
6 as follows:

7 (1) (~~By July 1, 1987,~~) Each holder or applicant of a permit for
8 a landfill disposal facility issued under this chapter shall establish
9 a reserve account to cover the costs of closing the facility in
10 accordance with state and federal regulations. The account shall be
11 designed to ensure that there will be adequate revenue available by the
12 projected date of closure. Landfill disposal facilities maintained on
13 private property for the sole use of the entity owning the site shall
14 not be required to establish a reserve account if, to the satisfaction
15 of the department, they provide another form of financial assurance
16 adequate to comply with the requirements of this section.

17 (2) (~~By July 1, 1986,~~) The department shall adopt rules (~~under~~
18 ~~chapter 34.05 RCW~~) to implement subsection (1) of this section. The
19 rules shall include but not be limited to:

1 (a) Methods to estimate closure costs, including postclosure
2 monitoring, pollution prevention measures, and any other procedures
3 required under state and federal regulations;

4 (b) Methods to ensure that reserve accounts receive adequate funds,
5 including:

6 (i) Requirements that the reserve account be generated by user
7 fees. However, the department may waive this requirement for existing
8 landfills if user fees would be prohibitively high;

9 (ii) Requirements that moneys be placed in the reserve account on
10 a regular basis and that the reserve account be kept separate from all
11 other accounts; and

12 (iii) Procedures for the department to verify that adequate sums
13 are deposited in the reserve account; and

14 (c) Methods to ensure that other types of financial assurance
15 provided in accordance with subsection (1) of this section are adequate
16 to cover the costs of closing the facility.

17 (3) In addition to the reserve account required under subsections
18 (1) and (2) of this section, each holder or applicant for a new, above-
19 ground landfill disposal facility shall demonstrate sufficient
20 financial capability in the form of a surety bond to provide for any
21 temporary or permanent facility clean up and closure due to any
22 unforeseen emergency event including, but not limited to, a geologic or
23 weather-related event or fire, that results in a breach of integrity of
24 the landfill. This financial assurance requirement shall be
25 incorporated as a condition of the permit issued for the facility by
26 the jurisdictional health department. The condition shall be jointly
27 reviewed and approved by the department of ecology and the
28 jurisdictional health department.

29 For purposes of this subsection, new, above-ground landfill
30 disposal facilities are those: (a) That as designed and when completed
31 will exceed one hundred acres; (b) whose horizontal height at design
32 capacity averages one hundred feet or more above existing site
33 elevations; and (c) no part or unit of which has had construction
34 commence before the effective date of this section.

35 NEW SECTION. Sec. 2. This act is necessary for the immediate
36 preservation of the public peace, health, or safety, or support of the

1 state government and its existing public institutions, and takes effect
2 immediately.

--- END ---
