**PART II**  
**HUMAN SERVICES**

**Sec. 201.** 1999 c 309 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1)  
Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified herein. However, after May 1, 2000, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2000 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for

1 a specified purpose except as expressly provided in subsection (3)(b)  
2 of this section.

3 (b) To the extent that transfers under subsection (3)(a) of this  
4 section are insufficient to fund actual expenditures in excess of  
5 fiscal year 2000 caseload forecasts and utilization assumptions in the  
6 medical assistance, long-term care, foster care, adoption support,  
7 voluntary placement, and child support programs, the department may  
8 transfer state moneys that are provided solely for a specified purpose  
9 after approval by the director of financial management.

10 (c) For the sole purpose of ensuring adequate state matching funds  
11 for the federal welfare-to-work grant, the department may transfer  
12 sufficient amounts of general fund--federal appropriations and general  
13 fund--state appropriations between sections 202 and 208 of this act.

14 (d) The director of financial management shall notify the  
15 appropriate fiscal committees of the senate and house of  
16 representatives in writing prior to approving any allotment  
17 modifications.

3 conditions and limitations:

4 (a) Regional support networks shall use portions of the general  
5 fund--state appropriation for implementation of working agreements with  
6 the vocational rehabilitation program which will maximize the use of  
7 federal funding for vocational programs.

8 (b) From the general fund--state appropriations in this subsection,  
9 the secretary of social and health services shall assure that regional  
10 support networks reimburse the aging and adult services program for the  
11 general fund--state cost of medicaid personal care services that  
12 enrolled regional support network consumers use because of their  
13 psychiatric disability.

14 (c) (~~(\$600,000)~~) \$711,000 of the general fund--state appropriation  
15 for fiscal year 2000 and (~~(\$616,000)~~) \$757,000 of the general fund--

19 medicare.

20 (d) \$64,000 of the general fund--state appropriation for fiscal  
21 year 2000 and \$150,000 of the general fund--state appropriation for  
22 fiscal year 2001 are provided solely for regional support networks to  
23 participate in prerelease treatment planning and to conduct involuntary  
24 commitment evaluations, as required by Substitute Senate Bill No. 5011  
25 (mentally ill offenders). If the bill is not enacted by June 30, 1999,  
26 these amounts shall lapse.

27 (e) \$5,000 of the general fund--state appropriation for fiscal year  
28 2000 and \$466,000 of the general fund--state appropriation for fiscal  
29 year 2001 are provided solely for case management and other community  
30 support services, as authorized by Substitute Senate Bill No. 5011  
31 (mentally ill offenders). If the bill is not enacted by June 30, 1999,  
32 these amounts shall lapse.

33 (f) Within funds appropriated in this subsection, the department  
34 shall contract with the Clark county regional support network for  
35 development and operation of a pilot project demonstrating new and  
36 collaborative methods for providing intensive mental health services in  
37 the school setting for severely emotionally disturbed children who are  
38 medicaid eligible. Project services are to be delivered by teachers  
39 and teaching assistants who qualify as, or who are under the

1 supervision of, mental health professionals meeting the requirements of  
2 WAC 275-57. The department shall increase medicaid payments to the  
3 regional support network by the amount necessary to cover the necessary  
4 and allowable costs of the demonstration, not to exceed the upper  
5 payment limit specified for the regional support network in the  
6 department's medicaid waiver agreement with the federal government.  
7 The regional support network shall provide the department with (i)  
8 periodic reports on project service levels, methods, and outcomes; (ii)  
9 protocols, guidelines, and handbooks suitable for use by other school  
10 districts and regional support networks seeking to replicate the pilot  
11 project's approach; and (iii) intergovernmental transfer equal to the  
12 state share of the increased medicaid payment provided for operation of  
13 this project.

14 (g) \$47,000 of the general fund--state appropriation for fiscal  
15 year 2000 and \$47,000 of the general fund--state appropriation for

19 (h) The general fund--state appropriation for fiscal year 2001  
20 includes \$1,891,000 to replace federal funding for outpatient services  
21 which is no longer available due to the reduction in the federal  
22 medical assistance percentage. The department shall distribute these  
23 additional state funds among the regional support networks according to  
24 each regional support network's capitation rate by eligibility  
25 category.

26 (i) The appropriations in this subsection include an increase in  
27 funding for medicaid outpatient services as a result of the forecasted  
28 increase in the number of persons eligible for medicaid over the number  
29 previously budgeted. The department shall distribute these additional  
30 appropriations among the regional support networks according to each  
31 regional support network's capitation rate by eligibility category.

32 (j) The health services account appropriation is provided solely

37 to, emergency contracts for continued operation of inpatient facilities  
38 otherwise at risk of closure because of demonstrated, disproportionate  
39 uncompensated care; start-up grants for development of evaluation and

1 treatment facilities; and increases in the rate paid for inpatient  
2 psychiatric services for medically indigent and/or general assistance  
3 for the unemployed patients. The funds provided in this subsection  
4 must be (i) prioritized for use in those areas of the state which are  
5 at greatest risk of lacking sufficient inpatient psychiatric treatment  
6 capacity; (ii) matched on a one-quarter local, three-quarters state  
7 basis by funding from the regional support network or networks in the  
8 area in which the funds are expended; and (iii) used to support  
9 strategies which can be sustained during the 2001-03 biennium at a  
10 state cost no more than 100 percent greater than the amount provided in  
11 this subsection. Except for prospective rate increases, payments from  
12 the amount provided in this subsection shall not be made to any  
13 provider that has not agreed that the payment shall offset, on a  
14 dollar-for-dollar basis, any liability that may be established against  
15 the state for the rate of state reimbursement for inpatient psychiatric  
16 care.

17 (k) \$1,000,000 of the general fund--state appropriation for fiscal  
18 year 2001 is provided solely for implementation of Substitute House  
19 Bill No. 2663 (atypical antipsychotic medications). If Substitute

21 provided in this subsection shall lapse. Prior to implementing the  
22 projects established in the bill, the department shall report to the  
23 appropriate policy and fiscal committees of the legislature on proposed  
24 medication delivery and monitoring systems and arrangements for  
25 obtaining manufacturer discounts or rebates. No more than \$175,000 of  
26 the funds provided in this subsection may be used for state and  
27 contractor start-up and administration of the projects, and no more  
28 than \$100,000 of that amount may be for ongoing costs which continue in  
29 fiscal year 2001. The department may transfer and allot the state  
30 component of such administrative costs to its mental health program  
31 support subprogram. The funds provided in this subsection shall not be  
32 considered "available resources" as defined in RCW 71.24.025 and are  
33 not subject to the distribution formula established pursuant to RCW  
34 71.24.035.

30 The appropriations in this subsection are subject to the following  
31 conditions and limitations:

32 (a) The health services account appropriation and \$127,000 of the  
33 general fund--federal appropriation are provided solely for health care  
34 benefits for home care workers with family incomes below 200 percent of

8 people with developmental disabilities. These funds shall be expended  
9 in accordance with priorities established by the stakeholder advisory  
10 group established in accordance with chapter 216, Laws of 1998  
11 (developmental disabilities), except that (i) at least 60 percent of  
12 these amounts must be used to increase the number of people receiving  
13 residential, employment, family support, or other direct services; (ii)  
14 the services and supports must be designed and implemented such that  
15 the cost of continuing them in the 2001-03 biennium does not exceed

17 and (iii) strong consideration shall be given to the need for increased

1 fund--state appropriation for fiscal year 2001, and \$7,361,000 of the  
2 general fund--federal appropriation are provided solely to improve  
3 services for persons with developmental disabilities who would  
4 otherwise be at risk of needing involuntary commitment to or prolonged  
5 treatment at state psychiatric hospitals. The department shall use  
6 these funds to enhance the community crisis response system managed by  
7 regional support networks, improve crisis prevention and stabilization  
8 services through the developmental disabilities community services  
9 system, and expand community residential capacity for persons with  
10 developmental disabilities who are ready for discharge from state  
11 psychiatric hospitals. Funding for community residential capacity is

13 hospitals at a reasonable pace by June 30, 2001. The department shall  
14 manage the intensity of services provided so that the average cost per  
15 day does not exceed \$300 per person placed in this expanded community

21 to the custody of the secretary under chapter 71.05 RCW, it is  
22 necessary to study long-term treatment alternatives and their legal,  
23 fiscal, and policy implications. Therefore, the department shall  
24 provide a report to the ways and means committee of the senate and the  
25 appropriations committee of the house of representatives by December 1,  
26 2000, containing options and recommendations for secure treatment  
27 programs. The report shall identify various treatment models that  
28 could be implemented and various types and locations of secure  
29 facilities, both state-owned and leased, in which programs could be  
30 sited, together with the department's recommendations. The report  
31 shall evaluate the potential for siting such programs on the grounds of  
32 existing state residential habilitation centers. The report shall also  
33 include analysis of advantages and disadvantages associated with  
34 contracting for some or all of the new program options identified. The  
35 report shall evaluate the options based on short-term and long-term  
36 costs, client and community security, efficiency of coordination with  
37 other service delivery systems, and how they address specific legal  
38 issues. In developing this report, the department shall invite  
39 participation by representatives of the Washington protection and

1 advocacy system (WPAS), and shall include in the report WPAS' position  
2 on options and recommendations submitted by the department and any  
3 additional recommendations made by WPAS. The legislature recognizes a  
4 need to improve long-term services provided to individuals with  
5 developmental disabilities who are undergoing involuntary treatment  
6 under chapter 71.05 RCW. The legislature is committed to providing  
7 resources necessary to address issues in the U.S. District Court case  
8 of Allen v. Western State Hospital.

10 year 2000, \$1,421,000 of the general fund--state appropriation for  
11 fiscal year 2001, and \$2,033,000 of the general fund--federal  
12 appropriation are provided to develop and operate secure residential  
13 and day program placements for persons who seem likely to pose a  
14 significant risk to the public safety if their current residential  
15 arrangement were to continue.

16 (f) \$209,000 of the general fund--state appropriation for fiscal  
17 year 2000, \$664,000 of the general fund--state appropriation for fiscal  
18 year 2001, and \$939,000 of the general fund--federal appropriation are  
19 provided to increase wages as required by Initiative No. 688 (state  
20 minimum wage) for contracted adult family homes, adult residential care  
21 facilities, hourly and daily family support providers, and hourly  
22 attendant care providers.

23 (g) \$1,978,000 of the general fund--state appropriation for fiscal  
24 year 2000, \$4,475,000 of the general fund--state appropriation for  
25 fiscal year 2001, and \$6,989,000 of the general fund--federal  
26 appropriation are provided solely to increase compensation for  
27 individual and agency home care workers. Payments to individual  
28 providers are to be increased from \$6.18 per hour to \$6.68 per hour on  
29 July 1, 1999, and to \$7.18 per hour on July 1, 2000. Payments to  
30 agency providers are to be increased to \$11.97 per hour on July 1,  
31 1999, and to \$12.62 per hour on July 1, 2000. All but 14 cents per  
32 hour of the July 1, 1999, increase to agency providers, and all but 15  
33 cents per hour of the additional July 1, 2000, increase is to be used  
34 to increase wages for direct care workers. The appropriations in this  
35 subsection also include the funds needed for the employer share of  
36 unemployment and social security taxes on the amount of the increase.

37 (h) Within amounts appropriated in this subsection, the  
38 developmental disabilities program shall contract for a pilot program  
39 to test an alternative service delivery model for persons with autism.

1 The department must use a competitive process to determine the site of  
 2 the pilot. The pilot program must be time-limited and subject to an  
 3 evaluation of client outcomes to determine the effectiveness and  
 4 efficiency of the pilot program compared to the standard service model  
 5 for persons with autism.

6 (i) \$500,000 of the general fund--state appropriation for fiscal  
 7 year 2001 and \$160,000 of the general fund--federal appropriation are

22 progression shall be developed and reported quarterly to appropriate  
23 fiscal and policy committees of the legislature ((~~for families who~~  
24 ~~leave assistance, measured after 12 months, 24 months, and 36 months~~)).  
25 An increased attention to job retention and wage progression is

29 shall be tracked for all WorkFirst clients who obtain unsubsidized

31 leaving assistance. The job retention measure shall report quarterly

9 child care plans through subsidized child care or other arrangements.

11 legislature by December 1, 2000, how agency functions, interagency  
12 agreements, and contracts have been evaluated against the outcome  
13 measures in (a) of this subsection. The report shall itemize each  
14 WorkFirst interagency agreement and contract related to education,  
15 training, employment services, or other job readiness services. The  
16 report shall identify expenditure levels by year since fiscal year 1998  
17 and the outcome measures included in each interagency agreement and  
18 contract. The report shall also itemize agency functions, interagency  
19 agreements, and contracts that have been halted or that have been  
20 expanded since fiscal year 1998 based on a determination that the  
21 function, interagency agreement, or contract was not contributing to

27 committee.

28 ((+e)) (d) Report to the appropriate committees of the  
29 legislature, by December 1, ((1999)) 2000, how the new federal child  
30 support incentive system can be used to maximize federal incentive  
31 payments and to support the greatest achievement of WorkFirst program  
32 goals. In the event that the department earns federal child support  
33 incentive payments in excess of amounts budgeted, the department shall  
34 use one-half of those additional funds to offset general fund--state  
35 allotments and one-half of those additional funds to improve child  
36 support services. The department shall also work with the Washington  
37 state association of county clerks to identify ways to protect the  
38 confidentiality of social security numbers on court documents needed by  
39 the child support enforcement system while ensuring the reliability of

1 this information without significantly increasing the cost to  
2 administer the child support system. The department shall report its

4 numbers to appropriate committees of the legislature by December 1,  
5 2000.

13 compare and contrast eligibility and access to these programs and  
14 identify ways to coordinate or consolidate these programs to reduce  
15 administrative costs and improve access.

16 (f) Integrate information about apprenticeship and  
17 preapprenticeship opportunities into caseworker training materials; and  
18 provide information about apprenticeship and preapprenticeship  
19 opportunities to WorkFirst clients through written materials, during  
20 initial client orientation, and during subsequent client contact.

21 (g) Collect and compile information about customer satisfaction  
22 from samples of WorkFirst recipients and prior recipients.

23 (h) Use existing flexibility in federal and state welfare laws and  
24 regulations to support, on a limited basis, longer education and  
25 training plans that have a strong likelihood to lead to long-term  
26 economic independence for recipient. If revisions to state laws are  
27 required to support such longer educational plans, the department shall  
28 identify those necessary revisions.

29 (i) Implement the provisions of Substitute Senate Bill No. 6296  
30 (ICAN). If Substitute Senate Bill No. 6296 is not enacted by June 30,  
31 2000, \$2,136,000 of the general fund--federal amount provided in this  
32 subsection shall lapse.

33 (j) Ensure that funds provided in this subsection to implement

38 discriminate based on who the specific employer is.

1 (2) ((~~\$50,860,000~~)) \$43,138,000 of the general fund--state

 6 department may expend funds for services that assist recipients to  
 7 reduce their dependence on public assistance, provided that  
 8 expenditures for these services and cash assistance do not exceed funds  
 9 provided. The department shall, by July 1, 2000, begin using federal  
 10 funds provided in subsection (1) of this section, as allowed by federal  
 11 rules, for the costs of providing income assistance to children with  
 12 court-appointed guardians and court-appointed custodians.

13 (3) ((~~\$8,752,000~~)) \$5,444,000 of the general fund--state

11 the medicare upper payment limit, are provided solely for supplemental  
12 payments to nursing homes operated by rural public hospital districts.  
13 Such payments shall be distributed among the participating rural public  
14 hospital districts proportional to the number of days of medicaid-  
15 funded nursing home care provided by each district during the preceding  
16 calendar year, relative to the total number of such days of care  
17 provided by all participating rural public hospital districts. Prior  
18 to making any supplemental payments, the department shall first obtain  
19 federal approval for such payments under the medicaid state plan. The  
20 payments shall further be conditioned upon (a) a contractual commitment  
21 by the association of public hospital districts and participating rural  
22 public hospital districts to make an intergovernmental transfer to the  
23 state treasurer, for deposit into the health services account, equal to  
24 at least 82 percent of the initial supplemental payment amount, and 88  
25 percent of subsequent supplemental payment amounts; and (b) a

30 services, the department is authorized to disregard recoveries by  
31 Holocaust survivors of insurance proceeds or other assets, as defined

38 Allenmore et al. vs. DSHS.

1       (14) From funds provided in this section, the department shall  
2 develop disease state management and therapeutic substitution programs  
3 which will substantially maintain or enhance the quality of the drug  
4 benefit for medical assistance recipients, while controlling overall  
5 health care costs. In designing the disease state management programs,  
6 the department shall research programs which have proven effective with  
7 similar populations in other states, and shall then work with concerned  
8 provider and consumer groups to adapt those strategies to Washington's  
9 service delivery system. The department shall work with its drug  
10 utilization and education council to develop a therapeutic substitution  
11 program for at least two classes of drugs. Under the therapeutic  
12 substitution program, the council shall analyze pharmacoeconomic  
13 research on the costs and benefits of all drugs within the class, and  
14 identify the most cost-effective drug or drugs within the class for  
15 placement on the formulary. Other drugs within the class shall be  
16 preauthorized when clinically indicated under criteria established by  
17 the council. The department shall report to appropriate committees of  
18 the legislature by December 1, 2000, prior to implementing its proposed  
19 strategies.

20       (15) \$14,848,000 of the health services account appropriation for  
21 fiscal year 2001 and \$15,269,000 of the general fund--federal  
22 appropriation are provided solely for additional disproportionate share  
23 hospital payments to public hospital districts. Such additional  
24 payments shall not be made prior to federal approval of a revision in  
25 the medicaid payment methodology for state teaching hospitals, and  
26 shall not exceed the increase in medicaid payments which results from  
27 that change. The payments shall further be conditioned upon a  
28 contractual commitment by the participating public hospital districts  
29 to make an intergovernmental transfer to the health services account  
30 equal to at least 83 percent of the additional disproportionate share  
31 payment.

32       (16)(a) \$49,000 of the general fund--state appropriation for fiscal  
33 year 2001 and \$49,000 of the general fund--federal appropriation for  
34 fiscal year 2001 are provided solely for the medical assistance  
35 administration and the health care authority to jointly conduct a  
36 state-wide study to:

37       (i) Determine payment sources and rates paid for primary health  
38 care providers performing outpatient primary care services and primary  
39 care in hospital emergency rooms for the state's medical assistance

1 programs, including healthy options, and the basic health plan. To  
2 determine payment sources and rates paid, the agencies may seek  
3 information in relation to such factors as:

4 (A) The rates paid to primary care providers for their medical  
5 assistance programs, including healthy options, and basic health plan  
6 contracts; and

7 (B) How these rates compare with nonpublic pay clients for the same  
8 services.

9 The agencies are authorized to attain this information from health  
10 plans or providers. The agencies shall maintain the confidentiality of  
11 data collected for the purpose of the study;

12 (ii) Determine which primary care providers serve a relatively high  
13 number of low-income clients, and how that affects their medical  
14 practice. For purposes of the study, "primary care providers" includes  
15 pediatricians, family practitioners, general practitioners, internists,  
16 physician assistants, and advanced registered nurse practitioners; and

17 (iii) Develop proposals to support these providers' medical  
18 practices. The agencies must determine what constitutes a relatively  
19 high percentage of low-income clients for individual primary care  
20 providers who contract for medical assistance administration programs,  
21 including healthy options, and the basic health plan, and recommend  
22 whether and at what point this disproportionately high percentage  
23 should result in additional compensation to the primary care provider.  
24 The agencies shall recommend a method to calculate a payment adjustment  
25 designed to help support medical practices, according to the study's  
26 findings.

27 (b) In conducting the study, the agencies shall determine which  
28 regions of the state to include in the study, based on factors the  
29 agencies determine will provide the most representative data state-  
30 wide. The agencies shall also consult with interested parties,  
31 including any organization or agency affected by this subsection,  
32 throughout the course of the study.

33 (c) The agencies shall report to the legislature by December 1,  
34 2000, with the results of the primary health care provider study. The  
35 report shall include recommendations on: (i) What constitutes a  
36 disproportionately high percentage of low-income clients; (ii) possible  
37 payment adjustments for these providers; (iii) methods to implement  
38 such a rate adjustment; and (iv) what such a payment adjusted program  
39 will cost.

1       (17) From funds appropriated in this section, the medical  
2 assistance program shall assist the Washington state institute for  
3 public policy with the assessment of options for expanding medicaid  
4 eligibility required in section 607 of this 2000 act. Such assistance  
5 shall include analysis of medicaid enrollment and expenditure data  
6 needed for enrollment and cost projections; information and advice on  
7 state and federal medicaid requirements; and liaison with state and  
8 federal officials in other states undertaking similar expansions.

9       (18) \$290,000 of the general fund--state appropriation for fiscal  
10 year 2001 is provided solely for implementation of the asset exemption  
11 provisions of House Bill No. 2686. If these provisions are not enacted  
12 by June 30, 2000, the amount provided in this subsection shall lapse.

32 considered as basic education funding;

33 (A) Funds provided under this subsection (2)(a)(iii) in excess of  
34 the amount required to maintain the statutory minimum ratio established  
35 under RCW 28A.150.260(2)(b) shall be allocated only if the district  
36 documents an actual ratio equal to or greater than 53.2 certificated  
37 instructional staff per thousand full-time equivalent students in  
38 grades K-4. For any school district documenting a lower certificated  
39 instructional staff ratio, the allocation shall be based on the

1 district's actual grades K-4 certificated instructional staff ratio  
2 achieved in that school year, or the statutory minimum ratio  
3 established under RCW 28A.150.260(2)(b), if greater;

4 (B) Districts at or above 51.0 certificated instructional staff per  
5 one thousand full-time equivalent students in grades K-4 may dedicate  
6 up to 1.3 of the 53.2 funding ratio to employ additional classified  
7 instructional assistants assigned to basic education classrooms in  
8 grades K-4. For purposes of documenting a district's staff ratio under  
9 this section, funds used by the district to employ additional  
10 classified instructional assistants shall be converted to a  
11 certificated staff equivalent and added to the district's actual  
12 certificated instructional staff ratio. Additional classified  
13 instructional assistants, for the purposes of this subsection, shall be  
14 determined using the 1989-90 school year as the base year;

15 (C) Any district maintaining a ratio equal to or greater than 53.2  
16 certificated instructional staff per thousand full-time equivalent  
17 students in grades K-4 may use allocations generated under this  
18 subsection (2)(a)(iii) in excess of that required to maintain the  
19 minimum ratio established under RCW 28A.150.260(2)(b) to employ  
20 additional basic education certificated instructional staff or  
21 classified instructional assistants in grades 5-6. Funds allocated  
22 under this subsection (2)(a)(iii) shall only be expended to reduce  
23 class size in grades K-6. No more than 1.3 of the certificated  
24 instructional funding ratio amount may be expended for provision of  
25 classified instructional assistants; ((and))

26 (iv) For school year 2000-01, an additional 5.4 certificated  
27 instructional staff units for grades K-3 and an additional 8.4  
28 certificated instructional staff units for grade 4. Any funds  
29 allocated for these additional certificated units shall not be  
30 considered as basic education funding.

31 (A) Funds provided under this subsection (2)(a)(iv) in excess of  
32 the amount required to maintain the statutory minimum ratio established  
33 under RCW 28A.150.260(2)(b) shall be allocated only if the district  
34 documents an actual ratio equal to or greater than 54.4 certificated  
35 instructional staff per thousand full-time equivalent students in  
36 grades K-4. For any school district documenting a lower certificated  
37 instructional staff ratio, the allocation shall be based on the  
38 district's actual grades K-4 certificated instructional staff ratio

1 achieved in that school year, or the statutory minimum ratio  
2 established under RCW 28A.150.260(2)(b), if greater;

3 (B) Districts at or above 51.0 certificated instructional staff per  
4 one thousand full-time equivalent students in grades K-4 may dedicate  
5 up to 1.3 of the 54.4 funding ratio to employ additional classified  
6 instructional assistants assigned to basic education classrooms in  
7 grades K-4. For purposes of documenting a district's staff ratio under  
8 this section, funds used by the district to employ additional  
9 classified instructional assistants shall be converted to a  
10 certificated staff equivalent and added to the district's actual  
11 certificated instructional staff ratio. Additional classified  
12 instructional assistants, for the purposes of this subsection, shall be  
13 determined using the 1989-90 school year as the base year;

14 (C) Districts above 53.2 certificated instructional staff per one  
15 thousand full-time equivalent students in grades K-4 may dedicate up to  
16 1.2 of the 54.4 funding ratio to provide additional classroom contact  
17 hours before-school, after-school, weekends, and other times when  
18 school is not in session, beyond the normal school day of an elementary  
19 school to assist students in meeting the standards set for the  
20 Washington assessment of student learning. For purposes of this  
21 section, additional classroom contact hours provided by teachers beyond  
22 the normal school day under a supplemental contract shall be converted  
23 to a certificated full-time equivalent by dividing the classroom  
24 contact hours by 900;

25 (D) Any district maintaining a ratio equal to or greater than 54.4  
26 certificated instructional staff per thousand full-time equivalent  
27 students in grades K-4 may use allocations generated under this  
28 subsection (2)(a)(iii) in excess of that required to maintain the  
29 minimum ratio established under RCW 28A.150.260(2)(b) to employ  
30 additional basic education certificated instructional staff or  
31 classified instructional assistants in grades 5-6. Funds allocated  
32 under this subsection (2)(a)(iii) shall only be expended to reduce  
33 class size in grades K-6. No more than 1.3 of the certificated  
34 instructional funding ratio amount may be expended for provision of  
35 classified instructional assistants; and

36 (v) Forty-six certificated instructional staff units per thousand  
37 full-time equivalent students in grades 4-12;

38 (b) For school districts with a minimum enrollment of 250 full-time  
39 equivalent students whose full-time equivalent student enrollment count

1 in a given month exceeds the first of the month full-time equivalent  
2 enrollment count by 5 percent, an additional state allocation of 110  
3 percent of the share that such increased enrollment would have  
4 generated had such additional full-time equivalent students been  
5 included in the normal enrollment count for that particular month;

6 (c)(i) On the basis of full-time equivalent enrollment in:

7 (A) Vocational education programs approved by the superintendent of  
8 public instruction, a maximum of 0.92 certificated instructional staff  
9 units and 0.08 certificated administrative staff units for each 19.5  
10 full-time equivalent vocational students for the 1999-00 school year  
11 and the 2000-01 school year. Districts documenting staffing ratios of  
12 less than 1 certificated staff per 19.5 students shall be allocated the  
13 greater of the total ratio in subsections (2)(a)(i) and (iv) of this  
14 section or the actual documented ratio; and

15 (B) Skills center programs meeting the standards for skill center  
16 funding recommended by the superintendent of public instruction,  
17 January 1999, 0.92 certificated instructional staff units and 0.08  
18 certificated administrative units for each 16.67 full-time equivalent  
19 vocational students;

20 (ii) Indirect cost charges, as defined by the superintendent of  
21 public instruction, to vocational-secondary programs shall not exceed  
22 10 percent; and

23 (iii) Vocational full-time equivalent enrollment shall be reported  
24 on the same monthly basis as the enrollment for students eligible for  
25 basic support, and payments shall be adjusted for reported vocational  
26 enrollments on the same monthly basis as those adjustments for  
27 enrollment for students eligible for basic support.

28 (d) For districts enrolling not more than twenty-five average  
29 annual full-time equivalent students in grades K-8, and for small  
30 school plants within any school district which have been judged to be  
31 remote and necessary by the state board of education and enroll not  
32 more than twenty-five average annual full-time equivalent students in  
33 grades K-8:

34 (i) For those enrolling no students in grades 7 and 8, 1.76  
35 certificated instructional staff units and 0.24 certificated  
36 administrative staff units for enrollment of not more than five  
37 students, plus one-twentieth of a certificated instructional staff unit  
38 for each additional student enrolled; and

1 (ii) For those enrolling students in grades 7 or 8, 1.68  
2 certificated instructional staff units and 0.32 certificated  
3 administrative staff units for enrollment of not more than five  
4 students, plus one-tenth of a certificated instructional staff unit for  
5 each additional student enrolled;

6 (e) For specified enrollments in districts enrolling more than  
7 twenty-five but not more than one hundred average annual full-time  
8 equivalent students in grades K-8, and for small school plants within  
9 any school district which enroll more than twenty-five average annual  
10 full-time equivalent students in grades K-8 and have been judged to be  
11 remote and necessary by the state board of education:

12 (i) For enrollment of up to sixty annual average full-time  
13 equivalent students in grades K-6, 2.76 certificated instructional  
14 staff units and 0.24 certificated administrative staff units; and

15 (ii) For enrollment of up to twenty annual average full-time  
16 equivalent students in grades 7 and 8, 0.92 certificated instructional  
17 staff units and 0.08 certificated administrative staff units;

18 (f) For districts operating no more than two high schools with  
19 enrollments of less than three hundred average annual full-time  
20 equivalent students, for enrollment in grades 9-12 in each such school,  
21 other than alternative schools:

22 (i) For remote and necessary schools enrolling students in any  
23 grades 9-12 but no more than twenty-five average annual full-time  
24 equivalent students in grades K-12, four and one-half certificated  
25 instructional staff units and one-quarter of a certificated  
26 administrative staff unit;

27 (ii) For all other small high schools under this subsection, nine  
28 certificated instructional staff units and one-half of a certificated  
29 administrative staff unit for the first sixty average annual full time  
30 equivalent students, and additional staff units based on a ratio of  
31 0.8732 certificated instructional staff units and 0.1268 certificated  
32 administrative staff units per each additional forty-three and one-half  
33 average annual full time equivalent students.

34 Units calculated under (f)(ii) of this subsection shall be reduced  
35 by certificated staff units at the rate of forty-six certificated  
36 instructional staff units and four certificated administrative staff  
37 units per thousand vocational full-time equivalent students.

38 (g) For each nonhigh school district having an enrollment of more  
39 than seventy annual average full-time equivalent students and less than

1 one hundred eighty students, operating a grades K-8 program or a grades  
2 1-8 program, an additional one-half of a certificated instructional  
3 staff unit; and

4 (h) For each nonhigh school district having an enrollment of more  
5 than fifty annual average full-time equivalent students and less than  
6 one hundred eighty students, operating a grades K-6 program or a grades  
7 1-6 program, an additional one-half of a certificated instructional  
8 staff unit.

9 (3) Allocations for classified salaries for the 1999-00 and 2000-01  
10 school years shall be calculated using formula-generated classified  
11 staff units determined as follows:

12 (a) For enrollments generating certificated staff unit allocations  
13 under subsection (2)(d) through (h) of this section, one classified  
14 staff unit for each three certificated staff units allocated under such  
15 subsections;

16 (b) For all other enrollment in grades K-12, including vocational  
17 full-time equivalent enrollments, one classified staff unit for each  
18 sixty average annual full-time equivalent students; and

19 (c) For each nonhigh school district with an enrollment of more  
20 than fifty annual average full-time equivalent students and less than  
21 one hundred eighty students, an additional one-half of a classified  
22 staff unit.

23 (4) Fringe benefit allocations shall be calculated at a rate of  
24 (~~16.97~~) 16.49 percent in the 1999-00 school year and 15.62 percent in  
25 the 2000-01 school year(~~s~~) for certificated salary allocations  
26 provided under subsection (2) of this section, and a rate of (~~15.75~~)  
27 15.56 percent in the 1999-00 school year and 15.82 percent in the 2000-  
28 01 school year(~~s~~) for classified salary allocations provided under  
29 subsection (3) of this section.

30 (5) Insurance benefit allocations shall be calculated at the  
31 maintenance rate specified in section 504(2) of this act, based on the  
32 number of benefit units determined as follows:

33 (a) The number of certificated staff units determined in subsection  
34 (2) of this section; and

35 (b) The number of classified staff units determined in subsection  
36 (3) of this section multiplied by 1.152. This factor is intended to  
37 adjust allocations so that, for the purposes of distributing insurance  
38 benefits, full-time equivalent classified employees may be calculated

1 on the basis of 1440 hours of work per year, with no individual  
2 employee counted as more than one full-time equivalent.

3 (6)(a) For nonemployee-related costs associated with each  
4 certificated staff unit allocated under subsection (2)(a), (b), and (d)  
5 through (h) of this section, there shall be provided a maximum of  
6 \$8,117 per certificated staff unit in the 1999-00 school year and a

10 certificated staff unit allocated under subsection (2)(c)(i)(A) of this  
11 section, there shall be provided a maximum of \$19,933 per certificated  
12 staff unit in the 1999-00 school year and a maximum of (~~(\$20,312)~~)

20 be distributed at a maintenance rate of \$365.28 for the 1999-00 school  
21 year and \$479.94 for the 2000-01 school year per allocated classroom  
22 teachers exclusive of salary increase amounts provided in section 504  
23 of this act. Solely for the purposes of this subsection, allocated  
24 classroom teachers shall be equal to the number of certificated  
25 instructional staff units allocated under subsection (2) of this  
26 section, multiplied by the ratio between the number of actual basic  
27 education certificated teachers and the number of actual basic  
28 education certificated instructional staff reported state-wide for the  
29 1998-99 school year.

30 (8) Any school district board of directors may petition the  
31 superintendent of public instruction by submission of a resolution  
32 adopted in a public meeting to reduce or delay any portion of its basic  
33 education allocation for any school year. The superintendent of public  
34 instruction shall approve such reduction or delay if it does not impair  
35 the district's financial condition. Any delay shall not be for more  
36 than two school years. Any reduction or delay shall have no impact on  
37 levy authority pursuant to RCW 84.52.0531 and local effort assistance  
38 pursuant to chapter 28A.500 RCW.

1 (9) The superintendent may distribute a maximum of (~~(\$6,444,000)~~)  
2 \$10,598,000 outside the basic education formula during fiscal years  
3 2000 and 2001 as follows:

4 (a) For fire protection for school districts located in a fire  
5 protection district as now or hereafter established pursuant to chapter  
6 52.04 RCW, a maximum of \$457,000 may be expended in fiscal year 2000  
7 and a maximum of (~~(\$466,000)~~) \$464,000 may be expended in fiscal year  
8 2001;

9 (b) For summer vocational programs at skills centers, a maximum of  
10 \$2,098,000 may be expended each fiscal year;

11 (c) A maximum of (~~(\$325,000)~~) \$585,000 may be expended for school  
12 district emergencies provided that up to \$260,000 shall be for the  
13 Toutle Lake school district emergency; (~~and~~)

14 (d) A maximum of \$500,000 per fiscal year may be expended for  
15 programs providing skills training for secondary students who are  
16 enrolled in extended day school-to-work programs, as approved by the  
17 superintendent of public instruction. The funds shall be allocated at  
18 a rate not to exceed \$500 per full-time equivalent student enrolled in  
19 those programs; and

20 (e) A maximum of \$3,117,000 of the general fund--state  
21 appropriation for fiscal year 2000 and \$779,000 of the general fund--  
22 state appropriation for fiscal year 2001 is provided for the 1999-2000  
23 school year for districts which experience an enrollment decline in the  
24 1999-2000 school year from the 1998-99 school year of more than 4.5  
25 percent in full-time equivalent enrollment or more than 300 full-time  
26 equivalent students. The superintendent shall allocate funds to  
27 eligible school districts for up to one-half of the enrollment loss at  
28 the basic education unenhanced rate for the district. School districts  
29 receiving small school factor bonus funds shall not be eligible for  
30 enrollment decline funds to the extent that the district has no state  
31 apportionment loss as a result of the enrollment decline.

32 (10) For the purposes of RCW 84.52.0531, the increase per full-time  
33 equivalent student in state basic education appropriations provided  
34 under this act, including appropriations for salary and benefits  
35 increases, is 4.0 percent from the 1998-99 school year to the 1999-00  
36 school year, and 3.6 percent from the 1999-00 school year to the 2000-  
37 01 school year.

38 (11) If two or more school districts consolidate and each district  
39 was receiving additional basic education formula staff units pursuant

1 to subsection (2)(b) through (h) of this section, the following shall  
2 apply:

3 (a) For three school years following consolidation, the number of  
4 basic education formula staff units shall not be less than the number  
5 of basic education formula staff units received by the districts in the  
6 school year prior to the consolidation; and

7 (b) For the fourth through eighth school years following  
8 consolidation, the difference between the basic education formula staff  
9 units received by the districts for the school year prior to  
10 consolidation and the basic education formula staff units after  
11 consolidation pursuant to subsection (2)(a) through (h) of this section  
12 shall be reduced in increments of twenty percent per year.

22 (b) As used in this subsection, the column headings "BA+(N)" refer  
 23 to the number of credits earned since receiving the baccalaureate  
 24 degree.

25 (c) For credits earned after the baccalaureate degree but before  
 26 the masters degree, any credits in excess of forty-five credits may be  
 27 counted after the masters degree. Thus, as used in this subsection,  
 28 the column headings "MA+(N)" refer to the total of:

29 (i) Credits earned since receiving the masters degree; and

30 (ii) Any credits in excess of forty-five credits that were earned  
 31 after the baccalaureate degree but before the masters degree.

32 (5) For the purposes of this section:

33 (a) "BA" means a baccalaureate degree.

34 (b) "MA" means a masters degree.

35 (c) "PHD" means a doctorate degree.

36 (d) "Years of service" shall be calculated under the same rules  
 37 adopted by the superintendent of public instruction.

1 (e) "Credits" means college quarter hour credits and equivalent in-  
2 service credits computed in accordance with RCW 28A.415.020 and  
3 28A.415.023.

4 (6) No more than ninety college quarter-hour credits received by  
5 any employee after the baccalaureate degree may be used to determine  
6 compensation allocations under the state salary allocation schedule and  
7 LEAP documents referenced in this act, or any replacement schedules and  
8 documents, unless:

9 (a) The employee has a masters degree; or

10 (b) The credits were used in generating state salary allocations  
11 before January 1, 1992.

12 (7) The certificated instructional staff base salary specified for  
13 each district in LEAP Document 12E and the salary schedules in  
14 subsection (4)(a) of this section include a 1.67 percent increase for  
15 three learning improvement days added in the 1999-00 school year and  
16 maintained in the 2000-01 school year. A school district is eligible  
17 for the learning improvement day funds for school years 1999-00 and  
18 2000-01, only if three days have been added to the base contract in  
19 effect for the 1998-99 school year. If fewer than three days are  
20 added, the additional learning improvement allocation shall be adjusted  
21 accordingly. The additional days shall be for activities related to  
22 improving student learning consistent with education reform  
23 implementation. The length of a learning improvement day shall not be  
24 less than the length of a full day under the base contract. The  
25 superintendent of public instruction shall ensure that school districts  
26 adhere to the intent and purposes of this subsection.

27 (8) The salary allocation schedules established in this section are  
28 for allocation purposes only except as provided in RCW 28A.400.200(2).

6 (2) A maximum of (~~(\$1,475,000)~~) \$1,473,000 may be expended for  
7 regional transportation coordinators and related activities. The  
8 transportation coordinators shall ensure that data submitted by school

10 extent practical, reflect the actual transportation activity of each  
11 district.

12 (3) \$10,000 of the fiscal year 2000 appropriation and \$10,000 of

26 Allocations for transportation of students living within one radius  
27 mile shall be based on the number of enrolled students in grades  
28 kindergarten through five living within one radius mile of their  
29 assigned school multiplied by the per mile reimbursement rate for the  
30 school year multiplied by 1.29.

20 944,296,000

21 The appropriations in this section are subject to the following  
22 conditions and limitations:

23 (1) Funding for special education programs is provided on an excess  
24 cost basis, pursuant to RCW 28A.150.390. School districts shall  
25 ensure, to the greatest extent possible, that special education  
26 students receive their appropriate share of the general apportionment  
27 allocation accruing through sections 502 and 504 of this act. To the  
28 extent a school district cannot provide an appropriate education for  
29 special education students under chapter 28A.155 RCW through the  
30 general apportionment allocation, it shall provide services through the  
31 special education allocation funded in this section.

32 (2) Each general fund--state fiscal year appropriation includes  
33 such funds as are necessary to complete the school year ending in the  
34 fiscal year and for prior fiscal year adjustments.

35 ((+2)) (3) The superintendent of public instruction shall  
36 distribute state funds to school districts based on two categories:  
37 The optional birth through age two program for special education

1 eligible developmentally delayed infants and toddlers, and the  
2 mandatory special education program for special education eligible  
3 students ages three to twenty-one. A "special education eligible  
4 student" means a student receiving specially designed instruction in  
5 accordance with a properly formulated individualized education program.

6 ~~((3))~~ (4) For the 1999-00 and 2000-01 school years, the  
7 superintendent shall distribute state funds to each district based on  
8 the sum of:

9 (a) A district's annual average headcount enrollment of  
10 developmentally delayed infants and toddlers ages birth through two,  
11 multiplied by the district's average basic education allocation per  
12 full-time equivalent student, multiplied by 1.15; and

13 (b) A district's annual average full-time equivalent basic  
14 education enrollment multiplied by the funded enrollment percent  
15 determined pursuant to subsection ~~((4)(e))~~ (5)(c) of this section,  
16 multiplied by the district's average basic education allocation per  
17 full-time equivalent student multiplied by 0.9309.

18 ~~((4))~~ (5) The definitions in this subsection apply throughout  
19 this section.

20 (a) "Average basic education allocation per full-time equivalent  
21 student" for a district shall be based on the staffing ratios required  
22 by RCW 28A.150.260 and shall not include enhancements, secondary  
23 vocational education, or small schools.

24 (b) "Annual average full-time equivalent basic education  
25 enrollment" means the resident enrollment including students enrolled  
26 through choice (RCW 28A.225.225) and students from nonhigh districts  
27 (RCW 28A.225.210) and excluding students residing in another district  
28 enrolled as part of an interdistrict cooperative program (RCW  
29 28A.225.250).

30 (c) "Enrollment percent" means the district's resident special  
31 education annual average enrollment including those students counted  
32 under the special education demonstration projects, excluding the birth  
33 through age two enrollment, as a percent of the district's annual  
34 average full-time equivalent basic education enrollment. For the 1999-  
35 00 and the 2000-01 school years, each district's funded enrollment  
36 percent shall be the lesser of the district's actual enrollment percent  
37 for the school year for which the allocation is being determined or  
38 12.7 percent.

1       (~~(5)~~) (6) At the request of any interdistrict cooperative of at  
2 least 15 districts in which all excess cost services for special  
3 education students of the districts are provided by the cooperative,  
4 the maximum enrollment percent shall be 12.7, and shall be calculated  
5 in the aggregate rather than individual district units. For purposes  
6 of this subsection, the average basic education allocation per full-  
7 time equivalent student shall be calculated in the aggregate rather  
8 than individual district units.

9       (~~(6)~~) (7) A maximum of \$12,000,000 of the general fund--state  
10 appropriation for fiscal year 2000 and a maximum of \$12,000,000 of the  
11 general fund--state appropriation for fiscal year 2001 are provided as  
12 safety net funding for districts with demonstrated needs for state  
13 special education funding beyond the amounts provided in subsection  
14 (~~(3)~~) (4) of this section. Safety net funding shall be awarded by  
15 the state safety net oversight committee.

16       (a) The safety net oversight committee shall first consider the  
17 needs of districts adversely affected by the 1995 change in the special  
18 education funding formula. Awards shall be based on the amount  
19 required to maintain the 1994-95 state special education excess cost  
20 allocation to the school district in aggregate or on a dollar per  
21 funded student basis.

22       (b) The committee shall then consider unusual needs of districts  
23 due to a special education population which differs significantly from  
24 the assumptions of the state funding formula. Awards shall be made to  
25 districts that convincingly demonstrate need due to the concentration  
26 and/or severity of disabilities in the district. Differences in  
27 program costs attributable to district philosophy or service delivery  
28 style are not a basis for safety net awards.

29       (c) The maximum allowable indirect cost for calculating safety net  
30 eligibility may not exceed the federal restricted indirect cost rate  
31 for the district plus one percent.

32       (d) Safety net awards shall be adjusted based on the percent of  
33 potential medicaid eligible students billed as calculated by the  
34 superintendent in accordance with Substitute Senate Bill No. 5626  
35 (medicaid payments to schools).

36       (e) Safety net awards must be adjusted for any audit findings or  
37 exceptions related to special education funding.

38       (f) The superintendent may expend up to \$100,000 per year of the  
39 amounts provided in this subsection to provide staff assistance to the

1 committee in analyzing applications for safety net funds received by  
2 the committee.

3 ~~((7))~~ (8) The superintendent of public instruction may adopt such  
4 rules and procedures as are necessary to administer the special  
5 education funding and safety net award process. Prior to revising any  
6 standards, procedures, or rules, the superintendent shall consult with  
7 the office of financial management and the fiscal committees of the  
8 legislature.

9 ~~((8))~~ (9) The safety net oversight committee appointed by the  
10 superintendent of public instruction shall consist of:

- 11 (a) Staff of the office of superintendent of public instruction;
- 12 (b) Staff of the office of the state auditor;
- 13 (c) Staff of the office of the financial management; and
- 14 (d) One or more representatives from school districts or  
15 educational service districts knowledgeable of special education  
16 programs and funding.

17 ~~((9) A maximum of \$5,500,000 of the general fund federal~~  
18 ~~appropriation shall be expended for safety net funding to meet the~~  
19 ~~extraordinary needs of one or more individual special education~~  
20 ~~students.~~

21 ~~(10) A maximum of \$678,000 may be expended from the general fund—~~  
22 ~~state appropriations to fund 5.43 full-time equivalent teachers and 2.1~~  
23 ~~full-time equivalent aides at children's orthopedic hospital and~~  
24 ~~medical center. This amount is in lieu of money provided through the~~  
25 ~~home and hospital allocation and the special education program.~~

26 ~~(11) A maximum of \$1,000,000 of the general fund federal~~  
27 ~~appropriation is provided for projects to provide special education~~  
28 ~~students with appropriate job and independent living skills, including~~  
29 ~~work experience where possible, to facilitate their successful~~  
30 ~~transition out of the public school system. The funds provided by this~~  
31 ~~subsection shall be from federal discretionary grants.~~

32 ~~(12) A school district may carry over from one year to the next~~  
33 ~~year up to 10 percent of general fund—state funds allocated under this~~  
34 ~~program; however, carry over funds shall be expended in the special~~  
35 ~~education program.~~

36 ~~(13) The superintendent shall maintain the percentage of federal~~  
37 ~~flow-through to school districts at 85 percent. In addition to other~~  
38 ~~purposes, school districts may use increased federal funds for high-~~  
39 ~~cost students, for purchasing regional special education services from~~

1 educational service districts, and for staff development activities  
2 particularly relating to inclusion issues.

3 (14) A maximum of \$1,200,000 of the general fund federal  
4 appropriation may be expended by the superintendent for projects  
5 related to use of inclusion strategies by school districts for  
6 provision of special education services. The superintendent shall  
7 prepare an information database on laws, best practices, examples of  
8 programs, and recommended resources. The information may be  
9 disseminated in a variety of ways, including workshops and other staff  
10 development activities.))

11 (10) The superintendent shall maintain the percentage of federal

27 **DONATIONS OF EMPLOYEE LEAVE.** During the 1999-2001 fiscal biennium,  
28 a state employee may, consistent with the provisions of RCW  
29 41.04.665(3), donate leave to the existing leave balances of an  
30 employee who dies in the line of duty between February 1, 2000, and  
31 June 30, 2001. The value of the donated leave will be included in the  
32 deceased employee's final compensation, but is not compensation  
33 earnable for the purposes of chapter 41.40 RCW. The agency head shall  
34 determine the total amount of leave, not to exceed 261 days, that may  
35 be donated under this section. The department of personnel may adopt  
36 rules, in consultation with the office of financial management, as it  
37 deems necessary for the implementation of this temporary benefit.

1       **Sec. 907.** RCW 43.135.045 and 1994 c 2 s 3 are each amended to read  
2 as follows:

3       (1) The emergency reserve fund is established in the state  
4 treasury. During each fiscal year, the state treasurer shall deposit  
5 in the emergency reserve fund all general fund--state revenues in  
6 excess of the state expenditure limit for that fiscal year. Deposits  
7 shall be made at the end of each fiscal quarter based on projections of  
8 state revenues and the state expenditure limit.

9       (2) The legislature may appropriate moneys from the emergency  
10 reserve fund only with approval of at least two-thirds of the members  
11 of each house of the legislature, and then only if the appropriation  
12 does not cause total expenditures to exceed the state expenditure limit  
13 under this chapter. During the 1999-2001 fiscal biennium and  
14 notwithstanding this subsection, the legislature may transfer up to  
15 three hundred million dollars from the emergency reserve fund to the  
16 multimodal fund.

17       (3) The emergency reserve fund balance shall not exceed five  
18 percent of biennial general fund--state revenues as projected by the  
19 official state revenue forecast. Any balance in excess of five percent  
20 shall be transferred on a quarterly basis by the state treasurer to the  
21 education construction fund hereby created in the treasury.

22       (4)(a) Funds may be appropriated from the education construction  
23 fund exclusively for common school construction or higher education  
24 construction.

25       (b) Funds may be appropriated for any other purpose only if  
26 approved by a two-thirds vote of each house of the legislature and if  
27 approved by a vote of the people at the next general election. An  
28 appropriation approved by the people under this subsection shall result  
29 in an adjustment to the state expenditure limit only for the fiscal  
30 period for which the appropriation is made and shall not affect any  
31 subsequent fiscal period.

32       **Sec. 908.** RCW 70.105D.070 and 1999 c 309 s 923 are each amended to

1 of the rate equal to thirty-three one-hundredths of one percent; (b)  
2 the costs of remedial actions recovered under this chapter or chapter  
3 70.105A RCW; (c) penalties collected or recovered under this chapter;  
4 and (d) any other money appropriated or transferred to the account by  
5 the legislature. Moneys in the account may be used only to carry out  
6 the purposes of this chapter, including but not limited to the

27 advisory committees;

28 (xi) Public funding to assist potentially liable persons to pay for  
29 the costs of remedial action in compliance with cleanup standards under  
30 RCW 70.105D.030(2)(e) but only when the amount and terms of such  
31 funding are established under a settlement agreement under RCW  
32 70.105D.040(4) and when the director has found that the funding will  
33 achieve both (A) a substantially more expeditious or enhanced cleanup  
34 than would otherwise occur, and (B) the prevention or mitigation of  
35 unfair economic hardship; and

36 (xii) Development and demonstration of alternative management  
37 technologies designed to carry out the top two hazardous waste  
38 management priorities of RCW 70.105.150.

1 (3) The following moneys shall be deposited into the local toxics  
2 control account: Those revenues which are raised by the tax imposed  
3 under RCW 82.21.030 and which are attributable to that portion of the  
4 rate equal to thirty-seven one-hundredths of one percent.

5 (a) Moneys deposited in the local toxics control account shall be  
6 used by the department for grants or loans to local governments for the  
7 following purposes in descending order of priority: (i) Remedial  
8 actions; (ii) hazardous waste plans and programs under chapter 70.105

11 assessment and cleanup of sites of methamphetamine production, but not  
12 to be used for the initial containment of such sites, consistent with  
13 the responsibilities and intent of RCW 69.50.511. Funds for plans and  
14 programs shall be allocated consistent with the priorities and matching  
15 requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95  
16 RCW. During the 1999-2001 fiscal biennium, moneys in the account may  
17 also be used for the following activities: Conducting a study of  
18 whether dioxins occur in fertilizers, soil amendments, and soils;  
19 reviewing applications for registration of fertilizers; and conducting  
20 a study of plant uptake of metals.

21 (b) Funds may also be appropriated to the department of health to  
22 implement programs to reduce testing requirements under the federal  
23 safe drinking water act for public water systems. The department of  
24 health shall reimburse the account from fees assessed under RCW  
25 70.119A.115 by June 30, 1995.

26 (4) Except for unanticipated receipts under RCW 43.79.260 through

29 (5) One percent of the moneys deposited into the state and local  
30 toxics control accounts shall be allocated only for public  
31 participation grants to persons who may be adversely affected by a  
32 release or threatened release of a hazardous substance and to not-for-  
33 profit public interest organizations. The primary purpose of these  
34 grants is to facilitate the participation by persons and organizations  
35 in the investigation and remedying of releases or threatened releases  
36 of hazardous substances and to implement the state's solid and  
37 hazardous waste management priorities. However, during the 1999-2001  
38 fiscal biennium, funding may not be granted to entities engaged in  
39 lobbying activities, and applicants may not be awarded grants if their

1 cumulative grant awards under this section exceed \$200,000. No grant  
2 may exceed sixty thousand dollars. Grants may be renewed annually.  
3 Moneys appropriated for public participation from either account which  
4 are not expended at the close of any biennium shall revert to the state  
5 toxics control account.

13 Trust Land Transfer (00-2-001)

14 The state building construction account appropriation in this  
15 section is subject to the following conditions and limitations:

16 (1) The total appropriation is provided to the department solely to  
17 transfer from trust status or enter into thirty-year timber harvest  
18 restrictive easements for certain trust lands of state-wide  
19 significance deemed appropriate for state park, fish and wildlife  
20 habitat, natural area preserve, natural resources conservation area,  
21 open space, or recreation purposes.

22 (2) Property transferred under this section shall be appraised and  
23 transferred at fair market value. The value of the timber transferred  
24 shall be deposited by the department to the common school construction  
25 account in the same manner as timber revenues from other common school  
26 trust lands. No deduction shall be made for the resource management  
27 cost account under RCW 79.64.040. The value of the land transferred  
28 shall be deposited in the natural resources real property replacement  
29 account. These funds shall be expended by the department for the  
30 exclusive purpose of acquiring real property of equal value to be  
31 managed as common school trust land.

32 (3) Property subject to easement agreements under this section  
33 shall be appraised at fair market value both with and without the  
34 imposition of the easement. The entire difference in appraised value  
35 shall be deposited by the department to the common school construction  
36 fund in the same manner as lease revenues from other common school

1 trust lands. No deduction shall be made for the resource management  
2 cost account under RCW 79.64.040.

3 (4) ~~((All))~~ Up to \$1,000,000 of the appropriation in this section  
4 may be used for reasonable costs incurred by the department to  
5 implement this section ~~((are authorized to be paid out of this~~  
6 ~~appropriation))~~. Authorized costs include the actual cost of  
7 appraisals, staff time, environmental reviews, surveys, and other  
8 similar costs.

9 (5) Intergrant exchanges between common school and other trust  
10 lands of equal value may occur if the exchange is in the interest of  
11 each trust, as determined by the board of natural resources.

12 (6) Prior to or concurrent with conveyance of these properties, the  
13 department, with full cooperation of the receiving agencies, shall  
14 execute and record a real property instrument that dedicates the  
15 transferred properties to the purposes identified in subsection (1) of  
16 this section for a minimum period of thirty years. The department of  
17 natural resources, in consultation with the receiving state agencies,  
18 shall develop policy to address requests to replace transferred  
19 properties subject to the recorded property instrument that are no  
20 longer deemed appropriate for the purposes identified in subsection (1)  
21 of this section.

22 (7) The department and receiving agencies shall work in good faith  
23 to carry out the intent of this section. However, the department or  
24 receiving agencies may remove a property from the transfer list in  
25 subsection (8) of this section if, based on new, substantive  
26 information, it is determined that transfer of the property is not in  
27 the state-wide interest of either the common school trust or the  
28 receiving agency.

29 (8) The appropriation in this section is provided to execute  
30 transfers or easements for the list of properties identified in LEAP  
31 capital document No. ~~((99-3, as developed on April 8, 1999))~~ 2000 T-1,  
32 as developed on February 29, 2000, as follows: Projects in category A  
33 shall be transferred; to the extent that local funding is provided for  
34 the land value of the property, projects in category B shall be  
35 transferred; and projects in category C and remaining projects in  
36 category B may be transferred or leased as funding allows.

37 (9) The department shall execute trust land transfers and easements  
38 such that ~~((90)),~~ subsequent to the deduction for administrative costs,  
39 85 percent of the appropriation in this section is deposited in the

1 common school construction fund. To achieve the ((90:10)) 85:15 ratio,  
2 the department may offset transfers of property with low timber-to-land  
3 ratios with easements on other properties.

4 (10) On June 30, 2001, the state treasurer shall transfer all  
5 remaining uncommitted funds from this appropriation to the common  
6 school construction fund and the appropriation in this section shall be  
7 reduced by an equivalent amount.
