29 regarding the potential for revenue from different types of
30 advertising.

31 (4) The department may enter into contracts with private vendors to
32 sell ferry tickets and medium at locations other than Washington state
33 ferry terminals or facilities.

34 (a) The department may enter into the contracts only (i) with
35 private vendors that are already established businesses offering goods
36 for sale to the general public; and (ii) if it determines that the
37 vendor's established location has the potential to serve a significant
38 percentage of the customers using a particular ferry route.

1 (b) The department may adopt necessary rules and procedures to
2 allow the use of credit and debit cards to purchase ferry tickets or
3 medium from a private vendor who has contracted with the department to
4 sell ferry tickets or medium. The department may establish a
5 convenience fee to be paid by all persons purchasing ferry tickets and
6 medium at locations other than Washington state ferry terminals or
7 facilities. The convenience fee must be sufficient to offset the
8 charges imposed on the department by the credit and debit card
9 companies. In no event may the use of credit or debit cards authorized
10 by this section create a loss of revenue to the state. The use of a
11 personal credit card does not rely upon the credit of the state as
12 prohibited by Article VIII, section 5 of the state Constitution.

13 ~~(5) ((The legislature recognizes that projected revenues to the~~
14 ~~Puget Sound ferry operating account for the 2001-2003 biennium may be~~
15 ~~up to \$30,000,000 less than what is required to fund the appropriation~~
16 ~~provided in this section. The legislature intends to fully evaluate~~
17 ~~the extent of the shortfall and make a supplemental appropriation~~
18 ~~during the 2002 legislative session.))~~ The legislature recognizes the
19 value of a regional fare collection system to promote intermodal travel
20 throughout Washington state ferries' Puget Sound service area and
21 therefore encourages the department to resume participation in the
22 regional fare coordination project (smart card). The department shall
23 develop a request for funding of the on-going operating costs
24 associated with the regional fare coordination project and shall
25 present this request to the 2003 legislature. The request for funding
26 shall be sufficient to support a system that prevents the disclosure of
27 personally identifying information of persons who use a smart card to
28 facilitate payment of ferry fares. The requested system may facilitate
29 the disclosure of aggregate information on fare collection to
30 governmental agencies or groups concerned with public transportation or
31 public safety as long as the data does not contain any personally
32 identifying information. The requested system shall not prevent the
33 release of personally identifying information to law enforcement
34 agencies when required by a subpoena.

1 The appropriations in this section are subject to the following
2 conditions and limitations and specified amounts are provided solely
3 for that activity:

4 (1) The motor vehicle account--state appropriation includes
5 \$150,000 distributed under RCW 46.68.110(2) that is provided to the
6 Whatcom county council of governments for the sole purpose of
7 developing and implementing a model of regional transportation
8 governance. This model shall be developed in accordance with
9 Recommendation 6 of the Blue Ribbon Commission on Transportation's
10 final report.

11 The council shall develop a model that can be used in other parts

17 provided solely for a study of concurrency issues in urban areas marked
18 by multiple contiguous jurisdictions. The study, lead by the city of
19 Bellevue, will focus on the jurisdictions of Bellevue, Kirkland,
20 Issaquah, and Redmond and will look at existing and unused
21 methodologies for including development in neighboring jurisdictions in
22 concurrency calculations. The study will also investigate what changes
23 in state and local laws are needed in order to provide a more effective
24 way of dealing with concurrency issues. By November 1, 2003, a report
25 of the findings will be made to the transportation committees of the
26 legislature. The appropriation in this subsection shall lapse unless
27 the participating cities provide \$100,000 for the study. To the extent
28 possible, state funding for this subsection shall utilize funds
29 allocated under RCW 46.68.110(2).

30 (3) Up to \$500,000 of the motor vehicle account--state
31 appropriation is provided solely for the study of alternatives for

15 The appropriations in this section are subject to the following
16 conditions and limitations and specified amounts are provided solely
17 for that activity:

19 state appropriation is provided solely to fund the first phase of a
20 multiphase cooperative project with the state of Oregon to dredge the
21 Columbia river. The department shall not expend the appropriation in
22 this section unless agreement on ocean disposal sites has been reached

Passed the House March 14, 2002.
Passed the Senate March 14, 2002.
Approved by the Governor April 4, 2002, with the exception of
certain items that were vetoed.
Filed in Office of Secretary of State April 4, 2002.

1 Note: Governor's explanation of partial veto is as follows:

2 "I am returning herewith, without my approval as to subsections
3 208(4) and 208(5), pages 9-10; 216(8), pages 17-18; and 404(5), page
4 34, Engrossed Substitute House Bill No. 2451 entitled:

5 "AN ACT Relating to transportation funding and appropriations;"

6 **Subsections 208(4) and 208(5), pages 9-10 (Washington State**
7 **Patrol Support Services Bureau)**

8 Subsections 4 and 5 of section 208 would have required the Washington
9 State Patrol to contract with an independent consulting firm to develop
10 a cost allocation system to qualify activities as "highway purposes"
11 under Article II, Section 40 of the State Constitution " the 18
12 amendment " and that such findings shall be utilized in the development
13 of the agency's 2003-05 budget request.

14 No additional funds were provided to conduct this study. In addition,
15 the competitive selection of a consulting firm, familiarizing the
16 contractor with agency programs, and the development of a cost
17 allocation system would involve many agency staff members, and could
18 not be done quickly. It is unlikely a thoughtful product could be
19 developed within the time frame required in the proviso.

20 While I have vetoed these subsections, I direct the Washington State
21 Patrol to provide the Legislative Transportation Committee with an
22 overview of its application of the constitutional limitations imposed
23 on the spending of 18 amendment funds. This is of paramount
24 importance in maintaining the integrity and sustainability of the
25 Patrol's budget, given the large influx of one-time transportation
26 funds to offset what had been omnibus appropriations.

1 **Subsection 216(8), pages 17-18 (Department of Transportation--**
2 **Improvements--Program I)**

3 Subsection 216(8) would have prevented state investment in high-
4 occupancy vehicle (HOV) lanes in Clark County until there are two and
5 one-half times as many park and ride lot vehicle spaces as were in
6 existence on January 1, 2002, or until the I-5 bridge is retrofitted to
7 include four southbound general-purpose lanes.

8 The provisions outlined in this subsection would unnecessarily limit
9 the criteria by which decisions to move forward with future HOV lanes
10 in Clark County should be made. The Department of Transportation (DOT)
11 is currently conducting a pilot project in Clark County to evaluate the
12 effectiveness of HOV lanes on Interstate 5. I have vetoed this
13 subsection to provide the DOT, the City of Vancouver, and the Regional
14 Transportation Council of Clark County the opportunity to consider the
15 results of the pilot project and other factors, such as lane usage,
16 before the decision to continue HOV lane projects in Clark County is
17 made.

18 **Subsection 404(5), page 34 (For the State Treasurer«Transfers)**

19 Subsection 404(5) would provide the State Treasurer with the authority
20 to distribute license, permit, and fee revenues from the Motor Vehicle
21 Account to other accounts. The collection and distribution of these
22 revenues, however, is already authorized in statute for the Department
23 of Licensing and the Department of Transportation. This provision would
24 have been in conflict with existing statutory direction.

25 For these reasons, I have vetoed subsections 208(4) and 208(5),
26 pages 9-10; 216(8), pages 17-18; and 404(5), page 34 of Engrossed
27 Substitute House Bill No. 2451.

28 With the exception of subsections 208(4) and 208(5), pages 9-10;
29 216(8), pages 17-18; and 404(5), page 34, Engrossed Substitute House
30 Bill No. 2451 is approved."
