3 On page 8, line 12, after "section 13 of this act." insert:

4 "The administrator shall not require that any supplemental rebate
5 offered by a pharmaceutical manufacturer for prescription drugs
6 purchased for medical assistance program clients under chapter 74.09
7 RCW be extended to state purchased health care programs other than
8 medical assistance, or to private individuals or entities participating
9 in the consortium."

EFFECT: Makes the purchasing consortium provision consistent with federal Medicaid law related to a prescription drug manufacturers' obligation to offer the "best price" to state Medicaid programs.
