EFFECT: Allows Snohomish county to participate in the SERVE pilot project. Clarifies that when the SERVE voting system is available for use, the participating county must utilize the SERVE voting system for all local and state elections. Requires communication between election officials and overseas voters to

be similar in nature, but not equal, to communication with all voters within the county. Specifies that if an individual county fails to utilize the SERVE pilot project voting system for an available election, that county's project is terminated.
