
ENGROSSED SUBSTITUTE HOUSE BILL 2114

State of Washington

58th Legislature

2003 Regular Session

By House Committee on Children & Family Services (originally sponsored by Representatives Kagi and Dickerson)

READ FIRST TIME 03/05/03.

1 AN ACT Relating to the funding of family preservation and
2 intervention services; and creating new sections.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 NEW SECTION. **Sec. 1.** The legislature finds that the growing
5 research literature on proven family preservation and intervention
6 services can have a positive impact on how these services are funded
7 and delivered in our communities. This body of research helps to
8 demonstrate that successful, effective family preservation and
9 intervention services are cost-effective to the state by measurably
10 reducing rates of child abuse and neglect, out-of-home placement, re-
11 referrals to child protective services, family conflict, and behavioral
12 problems in children who are in out-of-home care.

13 The legislature further finds that while this body of research is
14 instructive in helping to guide decision making, research is by no
15 means static. Research should guide, but not limit, innovation within
16 a local community to best tailor proven prevention and intervention
17 strategies to the particular needs of that community. The legislature

1 finds that the state can benefit greatly from the involvement of
2 individuals who are knowledgeable about research in the field of family
3 preservation and intervention, as well as individuals who are
4 knowledgeable about local community needs.

5 Therefore, it is the intent of the legislature to establish a new,
6 integrated delivery system for family preservation and intervention
7 services which assures that both research and community perspectives on
8 effective prevention and intervention strategies guide program funding
9 decisions.

10 NEW SECTION. **Sec. 2.** (1) There is established a family
