20    BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

1        NEW SECTION.    **Sec. 1.**    The legislature finds that new federal  
2 country of origin labeling requirements, long-term national strategies  
3 for monitoring and reporting animal diseases, and potential food safety  
4 requirements for homeland security need to be evaluated.    The  
5 legislature finds that while livestock identification laws used  
6 primarily for theft prevention are being updated, the affected industry  
7 with assistance from the department of agriculture should consider  
8 whether the current livestock identification system will help to  
9 satisfy these emerging requirements or needs to be adapted.

10        The department shall form an advisory committee representing all  
11 major sectors of the livestock industry to which federal country of  
12 origin labeling requirements will apply.    The committee shall evaluate  
13 what mechanisms may need to be established by the public, the private  
14 sector, or both to comply with the federal country of origin labeling  
15 requirements.    Included in the topics that should be examined are  
16 recordkeeping, identification, and methods of traceability of the  
17 origin of various products.

18        Additionally, the committee shall monitor and evaluate any  
19 requirements that may be placed on the meat products industry by  
20 federal food safety and traceability requirements as part of homeland  
21 security measures.    Also, the committee shall review the national  
22 identification work plan developed by the national food animal  
23 identification task force.    Participation on the advisory committee by  
24 representatives of producers of private sector cultured aquatic  
25 products is at the option of organizations representing various  
26 segments of that industry.

27        At the discretion of the director, additional segments of the meat  
28 products industry such as processors, wholesalers, and retailers may be  
29 invited to participate in this or another forum to more comprehensively  
30 examine these topics.

31        The department is to hold a minimum of two meetings of the  
32 committee and to encourage formation of informal groups involved in the  
33 food chain from the farm to the retail counter to develop an efficient  
34 strategy for addressing these issues.

35        The department shall submit a written report of the findings and  
36 conclusion of the advisory committee to the appropriate committees of  
37 the senate and the house of representatives by December 1, 2005.
