## SUBSTITUTE SENATE BILL 6155

AS AMENDED BY THE HOUSE
Passed Legislature - 2004 Regular Session

## State of Washington

58th Legislature
2004 Regular Session
By Senate Committee on Agriculture (originally sponsored by Senators Parlette, Hewitt and Mulliken)

READ FIRST TIME 01/30/04.

AN ACT Relating to the prevention of horticultural pests and diseases; and amending RCW 70.94.743.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

Sec. 1. RCW 70.94.743 and 2001 1st sp.s. c 12 s 1 are each amended to read as follows:
(1) Consistent with the policy of the state to reduce outdoor burning to the greatest extent practical:
(a) Outdoor burning shall not be allowed in any area of the state where federal or state ambient air quality standards are exceeded for pollutants emitted by outdoor burning.
(b) Outdoor burning shall not be allowed in any urban growth area as defined by RCW 36.70A.030, or any city of the state having a population greater than ten thousand people if such cities are threatened to exceed state or federal air quality standards, and alternative disposal practices consistent with good solid waste management are reasonably available or practices eliminating production of organic refuse are reasonably available. In no event shall such burning be allowed after December 31, 2000, except that within the urban growth areas for cities having a population of less than five
thousand people, that are neither within nor contiguous with any nonattainment or maintenance area designated under the federal clean air act, in no event shall such burning be allowed after December 31, 2006 .
(c) Notwithstanding any other provision of this section, outdoor burning may be allowed for the exclusive purpose of managing storm or flood-related debris. The decision to allow burning shall be made by the entity with permitting jurisdiction as determined under RCW 70.94 .660 or 70.94 .755 . If outdoor burning is allowed in areas subject to (a) or (b) of this subsection, a permit shall be required, and a fee may be collected to cover the expenses of administering and enforcing the permit. All conditions and restrictions pursuant to RCW $70.94 .750(1)$ and 70.94 .775 apply to outdoor burning allowed under this section.
(d) (i) Outdoor burning that is normal, necessary, and customary to ongoing agricultural activities, that is consistent with agricultural burning authorized under RCW 70.94 .650 and 70.94 .656 , is allowed within the urban growth area as defined in (b) of this subsection if the burning is not conducted during air quality episodes, or where a determination of impaired air quality has been made as provided in RCW 70.94.473, and the agricultural activities preceded the designation as an urban growth area.
(ii) Outdoor burning of cultivated orchard trees, whether or not agricultural crops will be replanted on the land, shall be allowed as an ongoing agricultural activity under this section if a local horticultural pest and disease board formed under chapter 15.09 RCW , an extension office agent with Washington State University that has horticultural experience, or an entomologist employed by the department of agriculture, has determined in writing that burning is an appropriate method to prevent or control the spread of horticultural pests or diseases.
(2) "Outdoor burning" means the combustion of material of any type in an open fire or in an outdoor container without providing for the control of combustion or the control of emissions from the combustion.
(3) This section shall not apply to silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or
animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

END ---
