Brief Description: Removing concurrency requirements under the growth management act.

HB 1957-S - DIGEST

<u>(DIGEST OF PROPOSED 1ST SUBSTITUTE)</u>

Deletes concurrency requirements under the growth management act.

Provides that the transportation concurrency requirements under this act do not apply when standards in the transportation element of the comprehensive plan are not met because of the failure of a state intersection or corridor to support level of service requirements and the state does not provide funding to address the deficiencies.
