Brief Description: Providing for uniform and comprehensive facility inventory and condition data.

HB 2184 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Directs the office, in consultation with the higher education coordinating board and higher education institutions, to establish and maintain a system to collect and assemble existing facility data at the various institutions and translate this information into a comparable framework to create a statewide uniform building inventory and condition system. This process must seek to minimize the needed changes to current systems at the individual institutions.

Requires the office and the higher education coordinating board to report to the legislature each December on progress made in establishing the inventory and condition system.
