Brief Description: Providing an appeal process for state agency and local government permit decisions for economic development projects.

HB 2204 - DIGEST

Declares that the purpose of this act is to reform the process of appeal and review of permit decisions made by state agencies for qualifying economic development projects, by establishing uniform, expedited, and consolidated appeal procedures and uniform criteria for reviewing such decisions, in order to provide consistent, predictable, and timely judicial review. The appeal process authorized in this act is intended to be the exclusive process for review of decisions made by agencies on permit applications for qualifying economic development projects, superseding other existing administrative board appeal procedures.
