

3124-S

Sponsor(s): House Committee on State Government (originally sponsored by Representatives Miloscia and Jarrett)

Brief Description: Allowing a general contractor/construction manager to perform more than thirty percent of a project when it involves tunneling.

HB 3124-S - DIGEST

(AS OF HOUSE 2ND READING 2/16/04)

Provides that the value of subcontract work performed by the general contractor/construction manager shall not exceed thirty percent of the negotiated maximum allowable construction cost unless the subcontract is for constructing tunnels with a contract value greater than seventy-five million dollars and the public body is a city or county with a population greater than one million.
