House Bills

HB 1041 by Representatives Lantz, Kagi, Conway, Chase, Kirby and Dickerson

Authorizing mental health advance directives.

Finds that: (1) Some mental illnesses cause individuals to fluctuate between capacity and incapacity;

(2) During periods when an individual's capacity is unclear, the individual may be unable to access needed treatment because the individual may be unable to give informed consent;

(3) Early treatment may prevent an individual from becoming so ill that involuntary treatment is necessary; and

(4) Mentally ill individuals need some method of expressing their instructions and preferences for treatment and providing advance consent to or refusal of treatment.

Recognizes that a mental health advance directive can be an essential tool for an individual to express his or her choices at a time when the effects of mental illness have not deprived him or her of the power to express his or her instructions or preferences.

Affirms that, pursuant to other provisions of law, a validly executed mental health advance directive is to be respected by agents, guardians, and other surrogate decision makers, health care providers, professional persons, and health care facilities.

HB 1043 by Representatives McMahan, Talcott, Mielke, Benson, Hinkle, McDonald, Cox and Holmquist

Declaring that unfunded state requirements imposed by the state on school districts are not mandatory.

Provides that a school district may choose to comply with a requirement of any nature imposed by the state, or any instrumentality of the state, if the total state moneys provided to the school district that may be expended or are required to be expended by the school district to meet the requirement are not sufficient to pay for all the costs of meeting the requirement.

Declares that, if these state moneys are not sufficient, the requirement shall lose its mandatory nature and shall become a recommendation or option for the school district and a penalty may not be imposed on the school district for failing to comply with the requirement.

HB 1046 by Representatives Miloscia, Chandler and Upthegrove

Modifying the sale of real property by water-sewer districts.

Provides that, as an alternative to the requirements under RCW 57.08.016, a water-sewer district may dispose of easements or other interests in real property by private sale, even when the estimated value exceeds the sum of two thousand five hundred dollars, when the potential buyer owns real property abutting or adjacent to the real property, and when the board of commissioners has determined that no productive use could be made of the property other than by incorporation with the abutting or adjacent real property.

-- 2003 REGULAR SESSION --

Jan 14 First reading, referred to Local Government.

HB 1047 by Representatives Miloscia, Bush and Dunshee

Modifying procedures for assumptions of water-sewer districts by cities or towns.

Declares that, when a city assumes less than all of the territory of a water-sewer district under chapter 35.13A RCW, the city shall install and maintain, at its cost and expense, a water consumption meter on every line providing water between the district and the city. Each meter shall be located at the boundary between the city and district or as close thereto as physically possible, or as agreed to by the city and district.

Provides that, if a city desires to impose a utility

business and occupation tax on water delivered to or sewer service provided in territory assumed under chapter 35.13A RCW, it shall pass an ordinance specifically imposing the tax on the delivery or service, even if it has passed a general ordinance imposing the tax.

-- 2003 REGULAR SESSION --

Jan 14 First reading, referred to Financial Institutions & Insurance.

HB 1057 by Representatives Hatfield, Buck, Blake and Kessler

Creating the license suspension review committee.

Finds that existing law as it relates to the suspension of commercial fishing licenses does not take into account the real-life circumstances faced by the state's commercial fishing fleets. The nature of the commercial fishing industry, together with the complexity of fisheries regulations, is such that honest mistakes can be made by well-meaning and otherwise law-abiding fishers. Commercial fishing violations that occur within an acceptable margin of error should not result in the suspension of fishing privileges. Likewise, fishers facing the possibility of license suspension or revocation deserve the opportunity to explain any extenuating circumstances prior to having his or her professional privileges suspended.

Declares an intent, by creating the license suspension review committee, to provide a fisher with the opportunity to explain any extenuating circumstances that led to a commercial fishing violation.

Finds that gross abuses of fish stocks should not be tolerated. Individuals convicted of even one violation that is egregious in nature, causing serious detriment to a fishery or the competitive disposition of other fishers, should have his or her license suspended and revoked.

-- 2003 REGULAR SESSION --

Jan 14 First reading, referred to Fisheries, Ecology & Parks.

HB 1058 by Representatives Kagi, Boldt, McIntire, Nixon, Dickerson, Fromhold, O'Brien, Lantz and Linville

Addressing educational attainment for foster children.

Finds that the educational attainment of children in foster care is significantly lower than that of children not in foster care.

Finds that many factors influence educational outcomes for children in foster care, including the disruption of the educational process because of repeatedly changing schools.

Recognizes and encourages the ongoing efforts of the department of social and health services and the office of the superintendent of public instruction to improve educational

attainment of children in foster care.

Declares an intent that efforts continue such as recruiting foster homes in school districts with high rates of foster care placements, the development and dissemination of informational materials regarding the challenges faced by children in foster care, and the expansion to other school districts of best practices identified in pilot projects.

Directs the department to establish an oversight committee composed of staff from the children's administration of the department, the office of the superintendent of public instruction, and advocacy agencies to develop best practice standards to maintain foster children in their home school whenever practical.

Directs the department to work with the administrative office of the courts to develop protocols to ensure that educational stability is addressed during the shelter care hearing.

-- 2003 REGULAR SESSION --

Jan 14 First reading, referred to Children & Family Services.

HB 1059 by Representatives Veloria, Sump, Grant and Clements

Creating a joint committee on trade policy.

Declares an intent to create a joint legislative oversight committee on trade policy to monitor the impact of trade agreements on Washington state laws, and to provide a mechanism for legislators and citizens to voice their opinions and concerns about the potential impacts of these trade agreements to state and federal government officials.

Specifies that the committee has the following powers and duties: (1) At least once a year, hear public testimony on the actual and potential impacts of international trade agreements and negotiations on Washington state and submit an annual report to the state trade representative's office and to the legislature regarding the public testimony;

(2) Maintain active communication with the state trade representative's office, the United States trade representative's office, Washington's congressional delegation, the national conference of state legislatures, and any other bodies the committee deems appropriate regarding ongoing developments in international trade agreements and policy;

(3) Conduct an annual assessment of the impacts of international trade agreements upon Washington law and submit the report to the legislature;

(4) Examine any aspects of international trade, international economic integration, and trade agreements that the members deem appropriate.

Jan 14 First reading, referred to Higher Education.

HB 1061 by Representatives Veloria, Kenney, Conway, Cox, Hunt, Clements and Morrell

Authorizing associate degree pathways for persons in apprenticeship programs at community and technical colleges.

Provides that an apprenticeship committee may recommend to the apprenticeship council that an associate degree pathway be developed for the committee's program.

Provides that, in consultation with the state board for community and technical colleges, the council shall consider the extent apprentices in the program are likely to pursue an associate degree and the extent a pathway could reduce redundancy of course requirements between the apprenticeship and a degree.

Provides that, if the council determines that a pathway would be beneficial for apprentices and assist them in obtaining an associate degree, the council shall request that a pathway be established by a community or technical college as provided in this act.

Jan 14 First reading, referred to Education.

SB 5073 by Senators Fraser, Honeyford, Hale and Kohl-Welles

Adopting provisions for cooperative watershed management plans.

Finds that throughout Washington state there are many active efforts to protect, manage, and restore watersheds. The state's river systems provide a variety of benefits for society's many needs, so efforts to protect these watersheds should reflect the diversity of social, environmental, and economic factors that make the state unique.

Finds that cooperative watershed management actions by local governments, special districts, and utilities can help maintain healthy watershed function and support the beneficial use of water by these entities and protect the quality of the resource that they use or affect. By participating in cooperative watershed management actions, local governments, special districts, and utilities are acting in the public interest and in a manner that is intended to sustain maximum beneficial use and high quality of water over time and to maintain the services that these entities provide.

Declares an intent to remove statutory barriers that may prevent local governments from working together in the creation and implementation of cooperative, coordinated watershed plans. In addition, it is the further intent of this act to provide additional authorities to assist in such implementation.

SB 5074 by Senators Morton, Oke, Doumit, T. Sheldon, Fraser and Rasmussen; by request of Commissioner of Public Lands

Establishing contract harvesting of timber on state trust lands.

Finds that it is in the best interest of the trust beneficiaries to capture additional revenues while providing for additional environmental protection on timber sales.

Finds that contract harvesting is one method to achieve these desired outcomes.

Directs the department of natural resources to establish and implement contract harvesting where there exists the ability to increase revenues for the beneficiaries of the trusts while obtaining increases in environmental protection.

Requires the board of natural resources to determine

whether any special appraisal practices are necessary for logs sold by the contract harvesting processes, and if so, to adopt the special appraisal practices or procedures.

Requires the board of natural resources to establish and adopt policy and procedures by which the department evaluates and selects certified contract harvesters. The procedures must include a method whereby a certified contract harvester may appeal a decision by the department or board of natural resources to not include the certified contract harvester on the list of approved contract harvesters.

Requires the department of natural resources to provide a report to the appropriate committees of the legislature concerning the costs and effectiveness of the contract harvesting program. The report must be submitted by December 31, 2006.

Appropriates the sum of two hundred fifty thousand dollars for the biennium ending June 30, 2005, from the resource management cost account to the contract harvesting revolving account for the purposes of this act.
