Brief Description: Providing for hydraulic project maintenance and mitigation approval.

**SB 5822 - DIGEST**

Directs the department to, at the request of a county, city, or private party, develop a renewable five-year maintenance approval agreement or a hydraulic project approval mitigation agreement to allow for work on public and private property for bank stabilization, bridge repair, removal of sandbars and debris, channel maintenance, and other flood damage repair and reduction activity under reasonable agreed-upon conditions and times without obtaining permits for specific projects.
