Brief Description: Making improvements to the industrial insurance system.

SB 6008 - DIGEST

Finds that the industrial insurance system administered by the department of labor and industries should be improved, using methods that meet all of the following goals: (1) The improvements should treat workers fairly;

(2) The improvements should promote a sound and stable financial basis for the system; and

(3) The improvements should produce a system that is capable of being administered efficiently and cost-effectively.
