Brief Description: Providing the department of labor and industries with the rule-making authority to address recommendations of the elevator safety advisory committee relating to the licensing of private residence conveyance work.

SB 6650 - DIGEST

(DIGEST AS ENACTED)

Provides the department of labor and industries with the rule-making authority to address recommendations of the elevator safety advisory committee relating to the licensing of private residence conveyance work.

Provides that the department shall, by rule, establish licensing requirements for conveyance work performed on private residence conveyances. These rules shall include an exemption from licensing for maintenance work on private residence conveyances performed by an owner or at the direction of the owner, provided the owner resides in the residence at which the conveyance is located and the conveyance is not accessible to the general public.

Declares, however, maintenance work performed on private residence conveyances located in or at adult family homes licensed under chapter 70.128 RCW, boarding homes licensed under chapter 18.20 RCW, or similarly licensed caregiving facilities must comply with the licensing requirements of chapter 70.87 RCW.
