

SHB 1494 - H AMD TO 1494-S AMH SCHU BELO 003

By Representative Bailey

1 On page 2, line 2 of the amendment, strike "current school
2 nurse to student ratios in each" and insert "the prevalence of
3 chronic diseases and life threatening conditions among students in"

4 On page 2, line 10 of the amendment, strike "a school nurse to
5 student ratio, and may examine school nurse-to-student ratios by
6 grade level." and insert "meeting the needs of students with
7 chronic diseases and life threatening conditions."

8 On page 3, line 3 of the amendment, strike "increase the school
9 nurse-to-student ratios" and insert "provide appropriate school
10 nursing services for students with chronic diseases and life
11 threatening conditions"

EFFECT: Requires the work group to study the prevalence of chronic diseases and life threatening conditions among students in class I school districts. Removes the requirement that the work group study or make recommendations on school nurse-to-student ratios. Requires school nurse account expenditures to go towards providing appropriate school nursing services for students with chronic diseases and life threatening conditions.
