23 (2) \$974,000 of the general fund--state appropriation for fiscal
24 year 2006 and \$994,000 of the general fund--state appropriation for
25 fiscal year 2007 are provided solely for deposit into the agricultural
26 college trust management account and are provided solely to manage
27 approximately 70,700 acres of Washington State University's

29 (3) \$8,635,000 of the general fund--state appropriation for fiscal
30 year 2006, \$14,635,000 of the general fund--state appropriation for

35 may be expended for staff and other necessary resources to design and
36 implement a fire data-collection system that includes financial- and

1 The legislature finds that general fund and disaster response
2 account support for emergency fire suppression is a significant and
3 direct subsidy of the costs to administer and manage various trust
4 lands. It would be an unintended additional subsidy if a portion of
5 the general fund and disaster response account amounts provided in this
6 subsection were used to fund agency indirect and administrative

19 Subproceeding No. 89-3 (Shellfish), United States District Court for
20 the Western District of Washington at Seattle, Case No. C70-9213. The
21 expenditure of this appropriation is contingent on the release of all
22 claims in this subproceeding. In the event that the federal government
23 does not appropriate \$22,000,000 for this purpose by June 30, 2006,
24 this subsection shall lapse.

25 (7) \$852,000 of the nonhighway and off-road vehicle program
26 account--state appropriation is provided solely for making safety
27 improvements for off-road vehicle recreation on state lands. The
28 department shall develop an implementation plan for off-road
29 vehicle-related signage on state trust lands. The department shall
30 submit this plan by October 1, 2005, to the office of financial
31 management and appropriate committees of the legislature, and report
32 progress on plan implementation to these same entities by March 1,

16 staff unit; and

17 (h) For each nonhigh school district having an enrollment of more
18 than fifty annual average full-time equivalent students and less than
19 one hundred eighty students, operating a grades K-6 program or a grades
20 1-6 program, an additional one-half of a certificated instructional
21 staff unit.

22 (3) Allocations for classified salaries for the 2005-06 and 2006-07
23 school years shall be calculated using formula-generated classified
24 staff units determined as follows:

25 (a) For enrollments generating certificated staff unit allocations
26 under subsection (2)(d) through (h) of this section, one classified
27 staff unit for each three certificated staff units allocated under such
28 subsections;

29 (b) For all other enrollment in grades K-12, including vocational
30 full-time equivalent enrollments, one classified staff unit for each
31 sixty average annual full-time equivalent students; and

32 (c) For each nonhigh school district with an enrollment of more
33 than fifty annual average full-time equivalent students and less than
34 one hundred eighty students, an additional one-half of a classified
35 staff unit.

36 (4) Fringe benefit allocations shall be calculated at a rate of
37 9.78 percent in the 2005-06 school year and 10.06 percent in the 2006-
38 07 school year for certificated salary allocations provided under

1 subsection (2) of this section, and a rate of 13.33 percent in the
2 2005-06 school year and 14.08 percent in the 2006-07 school year for
3 classified salary allocations provided under subsection (3) of this
4 section.

5 (5) Insurance benefit allocations shall be calculated at the
6 maintenance rate specified in section 504(2) of this act, based on the
7 number of benefit units determined as follows:

8 (a) The number of certificated staff units determined in subsection
9 (2) of this section; and

10 (b) The number of classified staff units determined in subsection
11 (3) of this section multiplied by 1.152. This factor is intended to
12 adjust allocations so that, for the purposes of distributing insurance
13 benefits, full-time equivalent classified employees may be calculated
14 on the basis of 1440 hours of work per year, with no individual
15 employee counted as more than one full-time equivalent.

16 (6)(a) For nonemployee-related costs associated with each
17 certificated staff unit allocated under subsection (2)(a), (b), and (d)
18 through (h) of this section, there shall be provided a maximum of
19 \$9,130 per certificated staff unit in the 2005-06 school year and a
20 maximum of \$9,294 per certificated staff unit in the 2006-07 school
21 year.

22 (b) For nonemployee-related costs associated with each vocational
23 certificated staff unit allocated under subsection (2)(c)(i)(A) of this

25 staff unit in the 2005-06 school year and a maximum of \$22,824 per
26 certificated staff unit in the 2006-07 school year.

27 (c) For nonemployee-related costs associated with each vocational
28 certificated staff unit allocated under subsection (2)(c)(i)(B) of this
29 section, there shall be provided a maximum of \$17,396 per certificated
30 staff unit in the 2005-06 school year and a maximum of \$17,709 per
31 certificated staff unit in the 2006-07 school year.

32 (7) Allocations for substitute costs for classroom teachers shall
33 be distributed at a maintenance rate of \$531.09 for the 2005-06 and
34 2006-07 school years per allocated classroom teachers exclusive of
35 salary increase amounts provided in section 504 of this act. Solely
36 for the purposes of this subsection, allocated classroom teachers shall
37 be equal to the number of certificated instructional staff units
38 allocated under subsection (2) of this section, multiplied by the ratio

1 between the number of actual basic education certificated teachers and
2 the number of actual basic education certificated instructional staff
3 reported statewide for the prior school year.

4 (8) Any school district board of directors may petition the
5 superintendent of public instruction by submission of a resolution
6 adopted in a public meeting to reduce or delay any portion of its basic
7 education allocation for any school year. The superintendent of public
8 instruction shall approve such reduction or delay if it does not impair
9 the district's financial condition. Any delay shall not be for more
10 than two school years. Any reduction or delay shall have no impact on
11 levy authority pursuant to RCW 84.52.0531 and local effort assistance
12 pursuant to chapter 28A.500 RCW.

13 (9) For each college in the high school course, as defined in (Z-
14 draft), the superintendent shall distribute an amount of \$140.00 per
15 student per course, except the allocation shall be \$280.00 per student
16 per course for students who are eligible for free or reduced price
17 lunch. School districts shall transfer these amounts to the
18 appropriate, in-state college or university to off-set students'
19 participation fees. Any funds allocated in this subsection shall not
20 be considered basic education funding.

21 (10) The superintendent may distribute a maximum of \$6,442,000
22 outside the basic education formula during fiscal years 2006 and 2007
23 as follows:

24 (a) For fire protection for school districts located in a fire
25 protection district as now or hereafter established pursuant to chapter
26 52.04 RCW, a maximum of \$514,000 may be expended in fiscal year 2006
27 and a maximum of \$523,000 may be expended in fiscal year 2007;

28 (b) For summer vocational programs at skills centers, a maximum of

30 \$2,035,000 for the 2007 fiscal year;

31 (c) A maximum of \$365,000 may be expended for school district

34 programs providing skills training for secondary students who are
35 enrolled in extended day school-to-work programs, as approved by the
36 superintendent of public instruction. The funds shall be allocated at
37 a rate not to exceed \$500 per full-time equivalent student enrolled in
38 those programs.

1 (11) For purposes of RCW 84.52.0531, the increase per full-time
2 equivalent student is 5.2 percent from the 2004-05 school year to the
3 2005-06 school year and 3.4 percent from the 2005-06 school year to the
4 2006-07 school year.

5 (12) If two or more school districts consolidate and each district
6 was receiving additional basic education formula staff units pursuant
7 to subsection (2)(b) through (h) of this section, the following shall
8 apply:

9 (a) For three school years following consolidation, the number of
10 basic education formula staff units shall not be less than the number
11 of basic education formula staff units received by the districts in the
12 school year prior to the consolidation; and

13 (b) For the fourth through eighth school years following
14 consolidation, the difference between the basic education formula staff
15 units received by the districts for the school year prior to
16 consolidation and the basic education formula staff units after
17 consolidation pursuant to subsection (2)(a) through (h) of this section
18 shall be reduced in increments of twenty percent per year.

19 NEW SECTION. **Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC**

21 calculations determine the salaries used in the general fund
22 allocations for certificated instructional, certificated
23 administrative, and classified staff units under section 502 of this
24 act:

25 (a) Salary allocations for certificated instructional staff units
26 shall be determined for each district by multiplying the district's
27 certificated instructional total base salary shown on LEAP Document 12E
28 by the district's average staff mix factor for certificated
29 instructional staff in that school year, computed using LEAP Document
30 1Sb; and

31 (b) Salary allocations for certificated administrative staff units
32 and classified staff units for each district shall be based on the
33 district's certificated administrative and classified salary allocation
34 amounts shown on LEAP Document 12E.

35 (2) For the purposes of this section:

36 (a) "LEAP Document 1Sb" means the computerized tabulation
37 establishing staff mix factors for certificated instructional staff

1 according to education and years of experience, as developed by the
 2 legislative evaluation and accountability program committee on December
 3 9, 2004 at 11:00 hours; and

4 (b) "LEAP Document 12E" means the computerized tabulation of 2005-
 5 06 and 2006-07 school year salary allocations for certificated
 6 administrative staff and classified staff and derived and total base
 7 salaries for certificated instructional staff as developed by the
 8 legislative evaluation and accountability program committee on December
 9 9, 2004 at 11:30 hours.

10 (3) Incremental fringe benefit factors shall be applied to salary
 11 adjustments at a rate of 9.14 percent for school year 2005-06 and 9.42
 12 percent for school year 2006-07 for certificated staff and for
 13 classified staff 9.83 percent for school year 2005-06 and 10.58 percent
 14 for the 2006-07 school year.

24 (b) As used in this subsection, the column headings "BA+(N)" refer
 25 to the number of credits earned since receiving the baccalaureate
 26 degree.

27 (c) For credits earned after the baccalaureate degree but before
 28 the masters degree, any credits in excess of forty-five credits may be
 29 counted after the masters degree. Thus, as used in this subsection,
 30 the column headings "MA+(N)" refer to the total of:

- 31 (i) Credits earned since receiving the masters degree; and
- 32 (ii) Any credits in excess of forty-five credits that were earned
 33 after the baccalaureate degree but before the masters degree.

34 (5) For the purposes of this section:

- 35 (a) "BA" means a baccalaureate degree.
- 36 (b) "MA" means a masters degree.

1 (c) "PHD" means a doctorate degree.

2 (d) "Years of service" shall be calculated under the same rules
3 adopted by the superintendent of public instruction.

4 (e) "Credits" means college quarter hour credits and equivalent in-
5 service credits computed in accordance with RCW 28A.415.020 and
6 28A.415.023.

7 (6) No more than ninety college quarter-hour credits received by
8 any employee after the baccalaureate degree may be used to determine
9 compensation allocations under the state salary allocation schedule and
10 LEAP documents referenced in this act, or any replacement schedules and
11 documents, unless:

12 (a) The employee has a masters degree; or

13 (b) The credits were used in generating state salary allocations
14 before January 1, 1992.

15 (7) The certificated instructional staff base salary specified for
16 each district in LEAP Document 12E and the salary schedules in
17 subsection (4)(a) of this section include two learning improvement
18 days. A school district is eligible for the learning improvement day
19 funds only if the learning improvement days have been added to the 180-
20 day contract year. If fewer days are added, the additional learning
21 improvement allocation shall be adjusted accordingly. The additional
22 days shall be limited to specific activities identified in the state
23 required school improvement plan related to improving student learning
24 that are consistent with education reform implementation, and shall not
25 be considered part of basic education. The principal in each school
26 shall assure that the days are used to provide the necessary school-
27 wide, all staff professional development that is tied directly to the
28 school improvement plan. The school principal and the district
29 superintendent shall maintain documentation as to their approval of
30 these activities. The length of a learning improvement day shall not
31 be less than the length of a full day under the base contract. The
32 superintendent of public instruction shall ensure that school districts
33 adhere to the intent and purposes of this subsection.

10 NEW SECTION. **Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC**
11 **INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS**

12	General Fund--State Appropriation (FY 2006)	\$442,572,000
13	General Fund--State Appropriation (FY 2007)	\$448,114,000
14	General Fund--Federal Appropriation	\$432,410,000
15	TOTAL APPROPRIATION	\$1,323,096,000

16 The appropriations in this section are subject to the following
17 conditions and limitations:

18 (1) Funding for special education programs is provided on an excess
19 cost basis, pursuant to RCW 28A.150.390. School districts shall ensure
20 that special education students as a class receive their full share of
21 the general apportionment allocation accruing through sections 502 and
22 504 of this act. To the extent a school district cannot provide an
23 appropriate education for special education students under chapter
24 28A.155 RCW through the general apportionment allocation, it shall
25 provide services through the special education excess cost allocation
26 funded in this section.

27 (2)(a) The superintendent of public instruction shall use the
28 excess cost methodology developed and implemented for the 2001-02
29 school year using the S-275 personnel reporting system and all related
30 accounting requirements to ensure that:

- 31 (i) Special education students are basic education students first;
- 32 (ii) As a class, special education students are entitled to the
- 33 full basic education allocation; and
- 34 (iii) Special education students are basic education students for
- 35 the entire school day.

36 (b) The S-275 and accounting changes in effect since the 2001-02

1 school year shall supercede any prior excess cost methodologies and
2 shall be required of all school districts.

3 (3) Each fiscal year appropriation includes such funds as are
4 necessary to complete the school year ending in the fiscal year and for
5 prior fiscal year adjustments.

6 (4) The superintendent of public instruction shall distribute state
7 and federal funds to school districts based on two categories: The
8 optional birth through age two program for special education eligible
9 developmentally delayed infants and toddlers, and the mandatory special
10 education program for special education eligible students ages three to
11 twenty-one. A "special education eligible student" means a student
12 receiving specially designed instruction in accordance with a properly
13 formulated individualized education program.

14 (5)(a) For the 2005-06 and 2006-07 school years, the superintendent
15 shall make allocations to each district based on the sum of:

16 (i) A district's annual average headcount enrollment of
17 developmentally delayed infants and toddlers ages birth through two,
18 multiplied by the district's average basic education allocation per
19 full-time equivalent student, multiplied by 1.15; and

20 (ii) A district's annual average full-time equivalent basic
21 education enrollment multiplied by the funded enrollment percent
22 determined pursuant to subsection (6)(b) of this section, multiplied by
23 the district's average basic education allocation per full-time
24 equivalent student multiplied by 0.9309.

25 (b) For purposes of this subsection, "average basic education
26 allocation per full-time equivalent student" for a district shall be
27 based on the staffing ratios required by RCW 28A.150.260 and shall not
28 include enhancements, secondary vocational education, or small schools.

29 (6) The definitions in this subsection apply throughout this
30 section.

31 (a) "Annual average full-time equivalent basic education
32 enrollment" means the resident enrollment including students enrolled
33 through choice (RCW 28A.225.225) and students from nonhigh districts
34 (RCW 28A.225.210) and excluding students residing in another district
35 enrolled as part of an interdistrict cooperative program (RCW
36 28A.225.250).

37 (b) "Enrollment percent" means the district's resident special

1 education annual average enrollment, excluding the birth through age
2 two enrollment, as a percent of the district's annual average full-time
3 equivalent basic education enrollment.

4 Each district's general fund--state funded special education
5 enrollment shall be the lesser of the district's actual enrollment
6 percent or 12.7 percent. Increases in enrollment percent from 12.7
7 percent to 13.0 percent shall be funded from the general fund--federal
8 appropriation.

9 (7) At the request of any interdistrict cooperative of at least 15
10 districts in which all excess cost services for special education
11 students of the districts are provided by the cooperative, the maximum
12 enrollment percent shall be calculated in accordance with subsection
13 (6)(b) of this section, and shall be calculated in the aggregate rather
14 than individual district units. For purposes of this subsection, the
15 average basic education allocation per full-time equivalent student
16 shall be calculated in the aggregate rather than individual district
17 units.

18 (8) To the extent necessary, \$25,746,000 of the general fund--
19 federal appropriation is provided for safety net awards for districts
20 with demonstrated needs for state special education funding beyond the
21 amounts provided in subsection (5) of this section. If safety net
22 awards exceed the amount appropriated in this subsection (8), the
23 superintendent shall expend all available federal discretionary funds
24 necessary to meet this need. Safety net funds shall be awarded by the
25 state safety net oversight committee subject to the following
26 conditions and limitations:

27 (a) The committee shall consider unmet needs for districts that can
28 convincingly demonstrate that all legitimate expenditures for special
29 education exceed all available revenues from state funding formulas.
30 In the determination of need, the committee shall also consider
31 additional available revenues from federal and local sources.
32 Differences in program costs attributable to district philosophy,
33 service delivery choice, or accounting practices are not a legitimate
34 basis for safety net awards.

35 (b) The committee shall then consider the extraordinary high cost
36 needs of one or more individual special education students.
37 Differences in costs attributable to district philosophy, service

1 delivery choice, or accounting practices are not a legitimate basis for
2 safety net awards.

3 (c) The maximum allowable indirect cost for calculating safety net
4 eligibility may not exceed the federal restricted indirect cost rate
5 for the district plus one percent.

6 (d) Safety net awards shall be adjusted based on the percent of
7 potential medicaid eligible students billed as calculated by the
8 superintendent in accordance with chapter 318, Laws of 1999.

9 (e) Safety net awards must be adjusted for any audit findings or
10 exceptions related to special education funding.

11 (9) The superintendent of public instruction may adopt such rules
12 and procedures as are necessary to administer the special education
13 funding and safety net award process. Prior to revising any standards,
14 procedures, or rules, the superintendent shall consult with the office
15 of financial management and the fiscal committees of the legislature.

16 (10) The safety net oversight committee appointed by the
17 superintendent of public instruction shall consist of:

18 (a) One staff from the office of superintendent of public
19 instruction;

20 (b) Staff of the office of the state auditor; and

21 (c) One or more representatives from school districts or
22 educational service districts knowledgeable of special education
23 programs and funding.

24 (11) A maximum of \$678,000 may be expended from the general fund--
25 state appropriations to fund 5.43 full-time equivalent teachers and 2.1
26 full-time equivalent aides at children's orthopedic hospital and
27 medical center. This amount is in lieu of money provided through the
28 home and hospital allocation and the special education program.

29 (12) \$1,000,000 of the general fund--federal appropriation is
30 provided for projects to provide special education students with
31 appropriate job and independent living skills, including work
32 experience where possible, to facilitate their successful transition
33 out of the public school system. The funds provided by this subsection
34 shall be from federal discretionary grants.

35 (13) The superintendent shall maintain the percentage of federal
36 flow-through to school districts at 85 percent. In addition to other
37 purposes, school districts may use increased federal funds for high-

1 cost students, for purchasing regional special education services from
2 educational service districts, and for staff development activities
3 particularly relating to inclusion issues.

4 (14) A maximum of \$1,200,000 of the general fund--federal
5 appropriation may be expended by the superintendent for projects
6 related to use of inclusion strategies by school districts for
7 provision of special education services. The superintendent shall
8 prepare an information database on laws, best practices, examples of
9 programs, and recommended resources. The information may be
10 disseminated in a variety of ways, including workshops and other staff
11 development activities.

12 (15) A school district may carry over from one year to the next
13 year up to 10 percent of the general fund--state funds allocated under
14 this program; however, carry over funds shall be expended in the
15 special education program.

PART IX
MISCELLANEOUS

NEW SECTION. **Sec. 901. EXPENDITURE AUTHORIZATIONS.** The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 2003-05 biennium.

NEW SECTION. **Sec. 902. INFORMATION SYSTEMS PROJECTS.** Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;
- (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- (e) Progress toward enabling electronic access to public information.

1 (3) Each project will be planned and designed to take optimal
2 advantage of Internet technologies and protocols. Agencies shall
3 ensure that the project is in compliance with the architecture,
4 infrastructure, principles, policies, and standards of digital
5 government as maintained by the information services board.

6 (4) The agency shall produce a feasibility study for information
7 technology projects at the direction of the information services board
8 and in accordance with published department of information services
9 policies and guidelines. At a minimum, such studies shall include a
10 statement of: (a) The purpose or impetus for change; (b) the business
11 value to the agency, including an examination and evaluation of
12 benefits, advantages, and cost; (c) a comprehensive risk assessment
13 based on the proposed project's impact on both citizens and state
14 operations, its visibility, and the consequences of doing nothing; (d)
15 the impact on agency and statewide information infrastructure; and (e)
16 the impact of the proposed enhancements to an agency's information
17 technology capabilities on meeting service delivery demands.

18 (5) The agency shall produce a comprehensive management plan for
19 each project. The plan or plans shall address all factors critical to
20 successful completion of each project. The plan(s) shall include, but
21 is not limited to, the following elements: A description of the
22 problem or opportunity that the information technology project is
23 intended to address; a statement of project objectives and assumptions;
24 a definition and schedule of phases, tasks, and activities to be
25 accomplished; and the estimated cost of each phase. The planning for
26 the phased approach shall be such that the business case justification
27 for a project needs to demonstrate how the project recovers cost or
28 adds measurable value or positive cost benefit to the agency's business
29 functions within each development cycle.

30 (6) The agency shall produce quality assurance plans for
31 information technology projects. Consistent with the direction of the
32 information services board and the published policies and guidelines of
33 the department of information services, the quality assurance plan
34 shall address all factors critical to successful completion of the
35 project and successful integration with the agency and state
36 information technology infrastructure. At a minimum, quality assurance
37 plans shall provide time and budget benchmarks against which project
38 progress can be measured, a specification of quality assurance

1 responsibilities, and a statement of reporting requirements. The
2 quality assurance plans shall set out the functionality requirements
3 for each phase of a project.

4 (7) A copy of each feasibility study, project management plan, and
5 quality assurance plan shall be provided to the department of
6 information services, the office of financial management, and
7 legislative fiscal committees. The plans and studies shall demonstrate
8 a sound business case that justifies the investment of taxpayer funds
9 on any new project, an assessment of the impact of the proposed system
10 on the existing information technology infrastructure, the disciplined
11 use of preventative measures to mitigate risk, and the leveraging of
12 private-sector expertise as needed. Authority to expend any funds for
13 individual information systems projects is conditioned on the approval
14 of the relevant feasibility study, project management plan, and quality
15 assurance plan by the department of information services and the office
16 of financial management.

17 (8) Quality assurance status reports shall be submitted to the
18 department of information services, the office of financial management,
19 and legislative fiscal committees at intervals specified in the
20 project's quality assurance plan.

21 NEW SECTION. **Sec. 903. BUSINESS CONTINUITY.** State agencies
22 shall comply with the business continuity policies, guidelines, and
23 statements of direction developed by the department of information
24 services and the information services board in consultation with state
25 agencies. To ensure that agency business continuity activities
26 identify the primary risks across state agencies, account for
27 dependencies between agencies, capitalize on economies of scale, and
28 avoid unnecessary duplication of costs and efforts, state agencies
29 shall receive the prior approval of the department of information
30 services before implementing business continuity strategies and
31 expending funds for business continuity activities.

32 NEW SECTION. **Sec. 904. VIDEO TELECOMMUNICATIONS.** The department
33 of information services shall act as lead agency in coordinating video
34 telecommunications services for state agencies. As lead agency, the
35 department shall develop standards and common specifications for leased
36 and purchased telecommunications equipment and assist state agencies in

1 developing a video telecommunications expenditure plan. No agency may
2 spend any portion of any appropriation in this act for new video
3 telecommunication equipment, new video telecommunication transmission,
4 or new video telecommunication programming, or for expanding current
5 video telecommunication systems without first complying with chapter
6 43.105 RCW, including but not limited to, RCW 43.105.041(2), and
7 without first submitting a video telecommunications expenditure plan,
8 in accordance with the policies of the department of information
9 services, for review and assessment by the department of information
10 services under RCW 43.105.052. Prior to any such expenditure by a
11 public school, a video telecommunications expenditure plan shall be
12 approved by the superintendent of public instruction. The office of
13 the superintendent of public instruction shall submit the plans to the
14 department of information services in a form prescribed by the
15 department. The office of the superintendent of public instruction
16 shall coordinate the use of video telecommunications in public schools
17 by providing educational information to local school districts and
18 shall assist local school districts and educational service districts
19 in telecommunications planning and curriculum development. Prior to

21 education, a telecommunications expenditure plan shall be approved by
22 the higher education coordinating board. The higher education
23 coordinating board shall coordinate the use of video telecommunications
24 for instruction and instructional support in postsecondary education,

26 course offerings.

27 NEW SECTION. **Sec. 905. PROGRAM COST SHIFTS.** Any program costs
28 or moneys in this act that are shifted to the general fund from another
29 fund or account require an adjustment to the expenditure limit under
30 RCW 43.135.035(5).

31 NEW SECTION. **Sec. 906. EMERGENCY FUND ALLOCATIONS.** Whenever
32 allocations are made from the governor's emergency fund appropriation
33 to an agency that is financed in whole or in part by other than general
34 fund moneys, the director of financial management may direct the
35 repayment of such allocated amount to the general fund from any balance

1 in the fund or funds which finance the agency. No appropriation shall
2 be necessary to effect such repayment.

3 NEW SECTION. **Sec. 907. STATUTORY APPROPRIATIONS.** In addition
4 to the amounts appropriated in this act for revenues for distribution,

16 are necessary to pay the expenses incurred in the issuance and sale of
17 the subject bonds.

18 NEW SECTION. **Sec. 909. VOLUNTARY SEPARATION INCENTIVES.** As a
19 management tool to reduce costs and make more effective use of
20 resources, while improving employee productivity and morale, agencies
21 may offer voluntary separation and/or downshifting incentives and
22 options according to procedures and guidelines established by the
23 department of personnel and the department of retirement systems in
24 consultation with the office of financial management. The options may
25 include, but are not limited to, financial incentives for: Voluntary
26 resignation and retirement, voluntary leave-without-pay, voluntary

32 personnel and the department of retirement systems, for reporting to
33 the office of financial management by December 1, 2006.

1 NEW SECTION. **Sec. 910. VOLUNTARY RETIREMENT INCENTIVES.** It is
2 the intent of the legislature that agencies may implement a voluntary
3 retirement incentive program that is cost neutral or results in cost
4 savings provided that such a program is approved by the director of
5 retirement systems and the office of financial management. Agencies
6 participating in this authorization are required to submit a report by
7 June 30, 2007, to the legislature and the office of financial

16 gas emissions and reliance on imported sources of petroleum. To foster
17 the use of hybrid motor vehicles, beginning July 1, 2005, before the
18 purchase or lease of a motor vehicle, state agencies should first
19 consider the feasibility of hybrid motor vehicles. State agencies
20 should strive to purchase or lease a hybrid motor vehicle when the use
21 of such vehicle is consistent with and can accomplish the agency's
22 mission and when the purchase is financially reasonable. The financial
23 assessment should include savings accruing from reduced fuel purchases
24 over the life of the vehicle. Agencies shall report on their purchases
25 of hybrid vehicles in their biennial sustainability plans as required
26 under executive order 02-03.

20 **Sec. 913.** RCW 28A.160.195 and 2004 c 276 s 904 are each amended to
21 read as follows:

22 (1) The superintendent of public instruction, in consultation with
23 the regional transportation coordinators of the educational service
24 districts, shall establish a minimum number of school bus categories
25 considering the capacity and type of vehicles required by school
26 districts in Washington. The superintendent, in consultation with the
27 regional transportation coordinators of the educational service
28 districts, shall establish competitive specifications for each category
29 of school bus. The categories shall be developed to produce minimum
30 long-range operating costs, including costs of equipment and all costs
31 in operating the vehicles. The categories, for purposes of comparative
32 studies, will be at a minimum the same as those in the beginning of the
33 1994-95 school year. The competitive specifications shall meet federal
34 motor vehicle safety standards, minimum state specifications as
35 established by rule by the superintendent, and supported options as
36 determined by the superintendent in consultation with the regional
37 transportation coordinators of the educational service districts. In

1 fiscal (~~year 2005~~) years 2006 and 2007, the superintendent may
2 solicit and accept price quotes for a rear-engine category school bus
3 that shall be reimbursed at the price of the corresponding front engine
4 category.

5 (2) After establishing school bus categories and competitive
6 specifications, the superintendent of public instruction shall solicit
7 competitive price quotes from school bus dealers to be in effect for
8 one year and shall (a) except in fiscal (~~year 2005~~) years 2006 and
9 2007, establish a list of the lowest competitive price quotes obtained
10 under this subsection, and (b) in fiscal (~~year 2005~~) years 2006 and
11 2007, establish a list of all accepted price quotes in each category
12 obtained under this subsection.

13 (3) The superintendent shall base the level of reimbursement to
14 school districts and educational service districts for school buses on
15 the lowest quote in each category.

16 (4) Notwithstanding RCW 28A.335.190, school districts and
17 educational service districts may purchase at the quoted price directly
18 from the dealer who is providing the lowest competitive price quote on
19 the list established under subsection (2) of this section and in fiscal
20 (~~year 2005~~) years 2006 and 2007 from any dealer on the list
21 established under subsection (2)(b) of this section. School districts
22 and educational service districts may make their own selections for
23 school buses, but shall be reimbursed at the rates determined under
24 subsection (3) of this section and RCW 28A.160.200. District-selected
25 options shall not be reimbursed by the state. For the (~~2003-05~~)
26 2005-2007 fiscal biennium, school districts and educational service
27 districts shall be reimbursed for buses purchased only through a
28 lowest-price competitive bid process conducted pursuant to RCW
29 28A.335.190 or through the state bid process established by this
30 section.

31 (5) This section does not prohibit school districts or educational
32 service districts from conducting their own competitive bid process.

33 (6) The superintendent of public instruction may adopt rules under
34 chapter 34.05 RCW to implement this section.

35 **Sec. 914.** RCW 28A.305.210 and 2003 1st sp.s. c 25 s 911 are each

1 require the assistance of educational service district boards and/or
2 superintendents in the performance of any duty, authority, or power
3 imposed upon or granted to the state board of education by law, upon
4 such terms and conditions as the state board of education shall
5 establish. Such authority to assist the state board of education shall
6 be limited to the service function of information collection and
7 dissemination and the attestment to the accuracy and completeness of
8 submitted information.

9 (2) During the ((2003-05)) 2005-2007 biennium, educational service
10 districts may, at the request of the state board of education, receive
11 and screen applications for school accreditation, conduct school
12 accreditation site visits pursuant to state board of education rules,
13 and submit to the state board of education postsite visit
14 recommendations for school accreditation. The educational service

29 41.35.010, or 41.40.010, the sum necessary to defray its proportional
30 share of the entire expense of the administration of the retirement
31 system that the employer participates in during the ensuing biennium or
32 fiscal year whichever may be required. Such sum is to be computed in
33 an amount directly proportional to the estimated entire expense of the
34 administration as the ratio of monthly salaries of the employer's
35 members bears to the total salaries of all members in the entire
36 system. It shall then be the duty of all such employers to include in
37 their budgets or otherwise provide the amounts so required.

1 (3) The department shall compute and bill each employer, as defined
2 in RCW 41.26.030, 41.32.010, 41.35.010, or 41.40.010, at the end of

9 be at the end of each such quarter.

10 (4) The director may adjust the expense fund contribution rate for
11 each system at any time when necessary to reflect unanticipated costs
12 or savings in administering the department.

13 (5) An employer who fails to submit timely and accurate reports to
14 the department may be assessed an additional fee related to the
15 increased costs incurred by the department in processing the deficient
16 reports. Fees paid under this subsection shall be deposited in the
17 retirement system expense fund.

18 (a) Every six months the department shall determine the amount of
19 an employer's fee by reviewing the timeliness and accuracy of the
20 reports submitted by the employer in the preceding six months. If
21 those reports were not both timely and accurate the department may
22 prospectively assess an additional fee under this subsection.

23 (b) An additional fee assessed by the department under this
24 subsection shall not exceed fifty percent of the standard fee.

25 (c) The department shall adopt rules implementing this section.

26 (6) Expenses other than those under RCW 41.34.060(3) shall be paid
27 pursuant to subsection (1) of this section.

28 (7) During the (~~2003-~~) 2005-2007 fiscal biennium, the legislature

2 and 44.44 RCW shall be paid from the department of retirement systems
3 expense fund.

4 (2) In order to reimburse the department of retirement systems
5 expense fund on an equitable basis the department shall ascertain and
6 report to each employer, as defined in RCW 41.26.030, 41.32.010,
7 41.35.010, 41.37.010, or 41.40.010, the sum necessary to defray its
8 proportional share of the entire expense of the administration of the
9 retirement system that the employer participates in during the ensuing
10 biennium or fiscal year whichever may be required. Such sum is to be
11 computed in an amount directly proportional to the estimated entire
12 expense of the administration as the ratio of monthly salaries of the
13 employer's members bears to the total salaries of all members in the
14 entire system. It shall then be the duty of all such employers to
15 include in their budgets or otherwise provide the amounts so required.

16 (3) The department shall compute and bill each employer, as defined
17 in RCW 41.26.030, 41.32.010, 41.35.010, 41.37.010, or 41.40.010, at the

19 of retirement systems expense fund and the same shall be paid as are
20 its other obligations. Such computation as to each employer shall be
21 made on a percentage rate of salary established by the department.
22 However, the department may at its discretion establish a system of
23 billing based upon calendar year quarters in which event the said
24 billing shall be at the end of each such quarter.

25 (4) The director may adjust the expense fund contribution rate for
26 each system at any time when necessary to reflect unanticipated costs
27 or savings in administering the department.

28 (5) An employer who fails to submit timely and accurate reports to
29 the department may be assessed an additional fee related to the
30 increased costs incurred by the department in processing the deficient
31 reports. Fees paid under this subsection shall be deposited in the
32 retirement system expense fund.

33 (a) Every six months the department shall determine the amount of
34 an employer's fee by reviewing the timeliness and accuracy of the
35 reports submitted by the employer in the preceding six months. If
36 those reports were not both timely and accurate the department may
37 prospectively assess an additional fee under this subsection.

1 (b) An additional fee assessed by the department under this
2 subsection shall not exceed fifty percent of the standard fee.

3 (c) The department shall adopt rules implementing this section.

4 (6) Expenses other than those under RCW 41.34.060(3) shall be paid

10 toxics control accounts shall be allocated only for public
11 participation grants to persons who may be adversely affected by a

23 projects, and for grants and technical assistance to public bodies for
24 watershed planning under chapter 90.82 RCW. No more than three percent
25 of the moneys deposited in the account may be used by the department to
