Z-0360.1

HOUSE BILL 1099

State of Washington 59th Legislature 2005 Regular Session

By Representatives Linville, McCoy, Quall, Pettigrew and Chase; by request of Governor Locke

Read first time 01/14/2005. Referred to Committee on Economic Development, Agriculture & Trade.

AN ACT Relating to management of water resources for the mainstem of the Columbia river; amending RCW 43.84.092; reenacting and amending RCW 43.84.092; adding a new chapter to Title 90 RCW; providing effective dates; providing an expiration date; and declaring an emergency.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 NEW SECTION. Sec. 1. The legislature finds that the Columbia 8 river is a vital economic, cultural, and natural resource to the state 9 and its residents, and that the water of the mainstem of the river 10 provides critical support for municipal and agricultural uses, fish and wildlife habitat, power production, and scenic and recreational uses. 11 12 While conflict and competition among these uses has prevailed in recent years, the legislature recognizes the need for state action and state 13 14 investment to reliably secure the economic and natural resource 15 benefits associated with the water of the Columbia river. It is the 16 intent of the legislature to establish a new state water resource 17 management program for the mainstem of the Columbia river in order to meet the water supply needs of growing communities and the local 18

economies on which they depend, and to do so in a manner that protects and enhances the quality of the natural environment, including streamflows necessary for the preservation of environmental values.

<u>NEW SECTION.</u> Sec. 2. The definitions in this section apply
throughout this chapter unless the context clearly requires otherwise.
(1) "Department" means the department of ecology.

7 (2) "Mainstem account" means the Columbia river mainstem account.

8 (3) "Program" means the Columbia river mainstem water management9 program.

10 <u>NEW SECTION.</u> **Sec. 3.** (1) The Columbia river mainstem water 11 management program is hereby established. The goals of this water 12 management program are to:

(a) Meet the water supply needs of growing communities and the local economies on which they depend by providing a timely and affordable supply of water that will allow for new and reliable uses of water from the Columbia river mainstem; and

(b) Manage water to protect and enhance the quality of the natural environment, including streamflows necessary for the preservation of environmental values by securing and dedicating water to improve streamflows in the river mainstem.

21 (2) The objectives of the program are to:

(a) Improve the reliability of water rights issued by the
department between 1980 and 2003 that are subject to minimum instream
flows or other mitigation conditions to protect streamflows;

(b) Improve streamflows during the primary period of fish outmigration on the mainstem; and

(c) Mitigate for the streamflow impacts of future water rightpermits as provided by the program.

29 (3) The department shall administer the program.

30 <u>NEW SECTION.</u> Sec. 4. (1) The department must implement the 31 program by:

(a) Acquiring water for the Columbia river mainstem through the
 implementation of water conservation programs, changes in water
 management with existing water storage and conveyance facilities, the
 development of new or expanded multipurpose water storage projects, the

1 acquisition of water rights from willing sellers or donors, and other 2 means, as authorized and funded by the legislature for the purposes of 3 the program;

4 (b) Securing water acquired under (a) of this subsection in the
5 Columbia river mainstem account under the state trust water right
6 program; and

7 (c) Managing the mainstem account to make water available as
8 mitigation to willing applicants and to improve streamflows in the
9 Columbia river mainstem for the benefit of fish.

10 (2) Water may be deposited in the mainstem account in accordance with applicable state laws for water right changes, amendments, and 11 transfers, or through government-to-government agreements, contracts, 12 13 assignments, and other instruments that ensure that a highly reliable and long-term supply of water, in sufficient quantity, is available in 14 the mainstem account to meet identified needs. For the purposes of 15 16 this chapter, the department may secure water from Canada and other 17 governments to be deposited in, and accounted for, in the mainstem account. 18

19 (3) Two-thirds of the water secured and deposited in the mainstem 20 account shall be allocated as mitigation water for new water uses 21 through a state mitigation program. One-third of the water shall be 22 permanently retained in the mainstem account to improve streamflows.

(4) The department shall manage water in the mainstem account that is dedicated to improving streamflows in collaboration with the department of fish and wildlife. The department of fish and wildlife shall consult with natural resource managers in tribal governments and federal agencies on how to maximize the benefits to fish from this water.

(5) The amount of water in the mainstem account shall not govern, be used to regulate, or be a determinative factor in the department's water management decisions for water in rivers that are tributary to the Columbia river.

33 <u>NEW SECTION.</u> Sec. 5. (1) The requirements of this section are 34 applicable to any new water uses authorized by the department under 35 this chapter.

36 (2) New water uses that would reduce the streamflows of the 37 Columbia river mainstem below Chief Joseph dam during the period of

April through August must be mitigated to avoid any reduction in
 streamflows during this period. Mitigation must be secured and in
 place before new water uses are authorized under this chapter.

(3) Applicants for new water right permits may develop their own 4 5 mitigation proposal, to be included as part of their application, or they may participate in the state's mitigation program by requesting 6 7 water from the mainstem account. Mitigation proposals developed by an applicant must meet the requirements of subsection (2) of this section. 8 Where an applicant develops their own mitigation proposal, the 9 10 department must allocate water from the mainstem account to benefit streamflows in the amount of one-half of the mitigation amount. 11

NEW SECTION. Sec. 6. (1) An applicant for a new water right permit, or a party seeking mitigation water for their existing water right permit, from the Columbia river mainstem may request water from the mainstem account. If sufficient mitigation water is available in the mainstem account, the department shall enter into an agreement with the requesting party to make mitigation water available consistent with the requirements of this chapter.

(2) In exchange for mitigation water from the mainstem account, the 19 20 department shall require and collect an annual payment based on the quantity of mitigation water specified in the agreement. For new 21 permits authorized under this chapter that will rely on mitigation from 22 23 the mainstem account, the department shall condition these permits to 24 require annual payment for the mitigation. The department shall deposit those payments in the Columbia river mainstem investment 25 26 account created under section 8 of this act.

(3) The amount of the annual payment shall be established by rule
by the department. In determining the payment rates, the department
shall consider the following factors:

30 (a) Recovering the state's costs of acquiring water for the 31 mainstem account, including the administrative costs for managing the 32 mainstem account; and

(b) Ensuring an affordable supply of water to meet economic andcommunity development goals.

35 (4) In all cases, the costs of acquiring water dedicated to 36 improving streamflows shall be borne by the public and not by the water 37 user.

NEW SECTION. Sec. 7. (1) Where mitigation that meets the requirements of section 5(2) of this act is secured, the department must:

4 (a) Issue permits that could be exercised during periods of drought
5 in lieu of existing water right permits and certificates that are
6 subject to interruption when streamflows on the mainstem are below
7 adopted minimum instream flows; and

8 (b) Process pending and future applications for new water right 9 permits for the mainstem of the Columbia river.

10 (2) Water users seeking drought permits under subsection (1)(a) of11 this section must submit an application by December 31, 2008.

12 (3) All applications for new water rights under this chapter will 13 be processed in accordance with RCW 90.03.250 through 90.03.330 and 14 other applicable provisions of law. For applications where mitigation 15 that meets the requirements of section 5(2) of this act is secured, the 16 department may process those applications ahead of previously filed 17 applications for which mitigation is not secured.

NEW SECTION. Sec. 8. (1) The Columbia river mainstem investment account is hereby created in the state treasury. All receipts from Columbia river-related mitigation agreements entered into by the department under this chapter and any other money appropriated by the legislature must be deposited into the account. Money in the account may be spent only after appropriation.

(2) Expenditures from the account may be used only for the purposesof this chapter, including, but not limited to, the following:

(a) Site evaluation, feasibility, environmental studies, design and
 engineering, and construction of off-channel storage facilities,
 including aquifer storage facilities;

29 (b) Activities and investments necessary to acquire water from 30 conservation projects;

31 (c) Infrastructure evaluation, feasibility, environmental 32 evaluation, design and engineering, and construction modifying existing 33 storage facilities to provide additional capacity;

34 (d) Installation and monitoring streamflow and water measurement 35 devices;

36 (e) Administration of the Columbia river water management program37 and compliance activities associated with the program;

(f) Acquisition of water through agreements with other governments
 or federal agencies;

3 (g) Acquisition of existing state water rights from willing 4 sellers; and

5 (h) Bond issuance, sales, and debt service.

6 Sec. 9. RCW 43.84.092 and 2003 c 361 s 602, 2003 c 324 s 1, 2003
7 c 150 s 2, and 2003 c 48 s 2 are each reenacted and amended to read as
8 follows:

9 (1) All earnings of investments of surplus balances in the state 10 treasury shall be deposited to the treasury income account, which 11 account is hereby established in the state treasury.

12 (2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash 13 management improvement act of 1990. The treasury income account is 14 subject in all respects to chapter 43.88 RCW, but no appropriation is 15 16 required for refunds or allocations of interest earnings required by 17 the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act 18 fall under RCW 43.88.180 and shall not require appropriation. 19 The 20 office of financial management shall determine the amounts due to or 21 from the federal government pursuant to the cash management improvement act. The office of financial management may direct transfers of funds 22 23 between accounts as deemed necessary to implement the provisions of the 24 cash management improvement act, and this subsection. Refunds or 25 allocations shall occur prior to the distributions of earnings set 26 forth in subsection (4) of this section.

(3) Except for the provisions of RCW 43.84.160, the treasury income 27 account may be utilized for the payment of purchased banking services 28 on behalf of treasury funds including, but not limited to, depository, 29 safekeeping, and disbursement functions for the state treasury and 30 31 affected state agencies. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for 32 payments to financial institutions. Payments shall occur prior to 33 34 distribution of earnings set forth in subsection (4) of this section.

35 (4) Monthly, the state treasurer shall distribute the earnings36 credited to the treasury income account. The state treasurer shall

р. б

credit the general fund with all the earnings credited to the treasury
 income account except:

The following accounts and funds shall receive their 3 (a) proportionate share of earnings based upon each account's and fund's 4 average daily balance for the period: The capitol building 5 construction account, the Cedar River channel construction and б operation account, the Central Washington University capital projects 7 account, charitable, educational, penal 8 the and reformatory institutions account, the Columbia river mainstem investment account, 9 the common school construction fund, the county criminal justice 10 assistance account, the county sales and use tax equalization account, 11 the data processing building construction account, the deferred 12 13 compensation administrative account, the deferred compensation 14 principal account, the department of retirement systems expense 15 account, the drinking water assistance account, the drinking water assistance administrative account, the drinking water assistance 16 repayment account, the Eastern Washington University capital projects 17 account, the education construction fund, the election account, the 18 19 emergency reserve fund, The Evergreen State College capital projects account, the federal forest revolving account, the health services 20 21 account, the public health services account, the health system capacity 22 account, the personal health services account, the state higher education construction account, the higher education construction 23 24 account, the highway infrastructure account, the industrial insurance premium refund account, the judges' retirement account, the judicial 25 26 retirement administrative account, the judicial retirement principal 27 account, the local leasehold excise tax account, the local real estate excise tax account, the local sales and use tax account, the medical 28 aid account, the mobile home park relocation fund, the multimodal 29 transportation account, the municipal criminal justice assistance 30 account, the municipal sales and use tax equalization account, the 31 32 natural resources deposit account, the oyster reserve land account, the perpetual surveillance and maintenance account, the public employees' 33 retirement system plan 1 account, the public employees' retirement 34 35 system combined plan 2 and plan 3 account, the public facilities 36 construction loan revolving account beginning July 1, 2004, the public 37 health supplemental account, the public works assistance account, the 38 Puyallup tribal settlement account, the regional transportation

investment district account, the resource management cost account, the 1 2 site closure account, the special wildlife account, the state employees' insurance account, the state employees' insurance reserve 3 account, the state investment board expense account, the state 4 5 investment board commingled trust fund accounts, the supplemental pension account, the Tacoma Narrows toll bridge account, the teachers' 6 7 retirement system plan 1 account, the teachers' retirement system combined plan 2 and plan 3 account, the tobacco prevention and control 8 tobacco settlement account, the transportation 9 account, the 10 infrastructure account, the tuition recovery trust fund, the University of Washington bond retirement fund, the University of Washington 11 12 building account, the volunteer fire fighters' and reserve officers' 13 relief and pension principal fund, the volunteer fire fighters' and reserve officers' administrative fund, the Washington fruit express 14 account, the Washington judicial retirement system account, the 15 Washington law enforcement officers' and fire fighters' system plan 1 16 17 retirement account, the Washington law enforcement officers' and fire fighters' system plan 2 retirement account, the Washington school 18 employees' retirement system combined plan 2 and 3 account, the 19 Washington state health insurance pool account, the Washington state 20 21 patrol retirement account, the Washington State University building 22 account, the Washington State University bond retirement fund, the water pollution control revolving fund, and the Western Washington 23 24 University capital projects account. Earnings derived from investing 25 balances of the agricultural permanent fund, the normal school 26 permanent fund, the permanent common school fund, the scientific 27 permanent fund, and the state university permanent fund shall be allocated to their respective beneficiary accounts. All earnings to be 28 distributed under this subsection (4)(a) shall first be reduced by the 29 allocation to the state treasurer's service fund pursuant to RCW 30 43.08.190. 31

32 (b) The following accounts and funds shall receive eighty percent of their proportionate share of earnings based upon each account's or 33 fund's average daily balance for the period: The aeronautics account, 34 35 aircraft search and rescue account, the county arterial the preservation account, the department of licensing services account, the 36 37 essential rail assistance account, the ferry bond retirement fund, the grade crossing protective fund, the high capacity transportation 38

account, the highway bond retirement fund, the highway safety account, 1 2 the motor vehicle fund, the motorcycle safety education account, the pilotage account, the public transportation systems account, the Puget 3 Sound capital construction account, the Puget Sound ferry operations 4 account, the recreational vehicle account, the rural arterial trust 5 account, the safety and education account, the special category C б 7 account, the state patrol highway account, the transportation 2003 account (nickel account), the transportation equipment fund, the 8 transportation fund, the transportation improvement account, the 9 10 transportation improvement board bond retirement account, and the urban arterial trust account. 11

12 (5) In conformance with Article II, section 37 of the state 13 Constitution, no treasury accounts or funds shall be allocated earnings 14 without the specific affirmative directive of this section.

15 Sec. 10. RCW 43.84.092 and 2004 c 242 s 60 are each amended to 16 read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

20 (2) The treasury income account shall be utilized to pay or receive 21 funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is 22 23 subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by 24 the cash management improvement act. Refunds of interest to the 25 26 federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. 27 The office of financial management shall determine the amounts due to or 28 from the federal government pursuant to the cash management improvement 29 30 act. The office of financial management may direct transfers of funds 31 between accounts as deemed necessary to implement the provisions of the cash management improvement act, and this subsection. 32 Refunds or allocations shall occur prior to the distributions of earnings set 33 forth in subsection (4) of this section. 34

(3) Except for the provisions of RCW 43.84.160, the treasury income
account may be utilized for the payment of purchased banking services
on behalf of treasury funds including, but not limited to, depository,

1 safekeeping, and disbursement functions for the state treasury and 2 affected state agencies. The treasury income account is subject in all 3 respects to chapter 43.88 RCW, but no appropriation is required for 4 payments to financial institutions. Payments shall occur prior to 5 distribution of earnings set forth in subsection (4) of this section.

6 (4) Monthly, the state treasurer shall distribute the earnings 7 credited to the treasury income account. The state treasurer shall 8 credit the general fund with all the earnings credited to the treasury 9 income account except:

10 (a) The following accounts and funds shall receive their proportionate share of earnings based upon each account's and fund's 11 12 average daily balance for the period: The capitol building 13 construction account, the Cedar River channel construction and operation account, the Central Washington University capital projects 14 account, the charitable, educational, penal and 15 reformatory institutions account, the Columbia river mainstem investment account, 16 17 the common school construction fund, the county criminal justice assistance account, the county sales and use tax equalization account, 18 the data processing building construction account, the deferred 19 compensation administrative account, the deferred compensation 20 principal account, the department of retirement systems expense 21 22 account, the drinking water assistance account, the drinking water assistance administrative account, the drinking water assistance 23 24 repayment account, the Eastern Washington University capital projects account, the education construction fund, the election account, the 25 26 emergency reserve fund, The Evergreen State College capital projects 27 account, the federal forest revolving account, the health services account, the public health services account, the health system capacity 28 account, the personal health services account, the state higher 29 education construction account, the higher education construction 30 account, the highway infrastructure account, the industrial insurance 31 32 premium refund account, the judges' retirement account, the judicial retirement administrative account, the judicial retirement principal 33 account, the local leasehold excise tax account, the local real estate 34 35 excise tax account, the local sales and use tax account, the medical 36 aid account, the mobile home park relocation fund, the multimodal 37 transportation account, the municipal criminal justice assistance account, the municipal sales and use tax equalization account, the 38

natural resources deposit account, the oyster reserve land account, the 1 2 perpetual surveillance and maintenance account, the public employees' retirement system plan 1 account, the public employees' retirement 3 system combined plan 2 and plan 3 account, the public facilities 4 construction loan revolving account beginning July 1, 2004, the public 5 health supplemental account, the public works assistance account, the 6 7 Puyallup tribal settlement account, the regional transportation investment district account, the resource management cost account, the 8 site closure account, the special wildlife account, the state 9 employees' insurance account, the state employees' insurance reserve 10 account, the state investment board expense account, the state 11 12 investment board commingled trust fund accounts, the supplemental 13 pension account, the Tacoma Narrows toll bridge account, the teachers' 14 retirement system plan 1 account, the teachers' retirement system combined plan 2 and plan 3 account, the tobacco prevention and control 15 settlement account, the transportation 16 account, the tobacco infrastructure account, the tuition recovery trust fund, the University 17 of Washington bond retirement fund, the University of Washington 18 building account, the volunteer fire fighters' and reserve officers' 19 relief and pension principal fund, the volunteer fire fighters' and 20 21 reserve officers' administrative fund, the Washington fruit express 22 account, the Washington judicial retirement system account, the Washington law enforcement officers' and fire fighters' system plan 1 23 24 retirement account, the Washington law enforcement officers' and fire fighters' system plan 2 retirement account, the Washington public 25 26 safety employees' plan 2 retirement account, the Washington school 27 employees' retirement system combined plan 2 and 3 account, the Washington state health insurance pool account, the Washington state 28 patrol retirement account, the Washington State University building 29 account, the Washington State University bond retirement fund, the 30 water pollution control revolving fund, and the Western Washington 31 32 University capital projects account. Earnings derived from investing balances of the agricultural permanent fund, the normal school 33 permanent fund, the permanent common school fund, the scientific 34 permanent fund, and the state university permanent fund shall be 35 36 allocated to their respective beneficiary accounts. All earnings to be 37 distributed under this subsection (4)(a) shall first be reduced by the

allocation to the state treasurer's service fund pursuant to RCW
 43.08.190.

(b) The following accounts and funds shall receive eighty percent 3 of their proportionate share of earnings based upon each account's or 4 5 fund's average daily balance for the period: The aeronautics account, aircraft search and rescue account, the 6 the county arterial 7 preservation account, the department of licensing services account, the essential rail assistance account, the ferry bond retirement fund, the 8 grade crossing protective fund, the high capacity transportation 9 account, the highway bond retirement fund, the highway safety account, 10 the motor vehicle fund, the motorcycle safety education account, the 11 pilotage account, the public transportation systems account, the Puget 12 Sound capital construction account, the Puget Sound ferry operations 13 account, the recreational vehicle account, the rural arterial trust 14 account, the safety and education account, the special category C 15 16 account, the state patrol highway account, the transportation 2003 17 account (nickel account), the transportation equipment fund, the transportation fund, the transportation improvement account, the 18 19 transportation improvement board bond retirement account, and the urban 20 arterial trust account.

(5) In conformance with Article II, section 37 of the state
 Constitution, no treasury accounts or funds shall be allocated earnings
 without the specific affirmative directive of this section.

NEW SECTION. Sec. 11. (1) The department shall adopt rules as necessary to implement the program. Rules must be consistent with this chapter and with other applicable laws.

(2) The department shall establish a monitoring program to track conditions relevant to the effectiveness of the program, including, but not limited to, the condition of streamflows in the mainstem, and the number, types, and quantities of water uses approved under this chapter.

32 (3) The department shall implement a compliance program, consistent 33 with RCW 90.03.605, to ensure compliance with the requirements of this 34 chapter. The department shall appoint one or more water masters for 35 the Columbia river mainstem to provide local technical assistance, and 36 to conduct other necessary compliance actions.

<u>NEW SECTION.</u> Sec. 12. The department shall prepare a biennial 1 2 report on the status of the program. The report shall be transmitted to the appropriate standing committees of the legislature and the 3 governor by December 31st of even-numbered years. The report shall 4 include, but not be limited to, information and evaluation of the 5 status of the mainstem account, the number, types, and quantities of 6 7 authorized new uses of water, the number and amount of payments collected under the program, a summary of compliance monitoring and 8 enforcement activities on the Columbia river mainstem, including water 9 10 use measurement and reporting, the streamflow conditions in the mainstem and in the primary tributaries to the Columbia river, and the 11 12 current and anticipated future conditions of water supplies in the 13 mainstem account and how those water supplies correspond to current and 14 anticipated future water needs.

15 NEW SECTION. Sec. 13. Ten years after the effective date of this 16 section, and every ten years thereafter, the department shall conduct 17 a formal review of the effectiveness of the program. The review shall include independent evaluations of the economic and scientific 18 information that provide the premises of the program. As part of the 19 biennial report required by section 12 of this act, the department 20 21 shall notify the governor and legislature of the timing and proposed 22 process for the formal review and shall request funding to conduct the 23 necessary independent reviews as part of their biennial budget request 24 to the governor. Upon completion of the review, the department shall prepare and transmit a report of the findings of the review, including 25 26 any recommendations for legislative changes to the program.

27 <u>NEW SECTION.</u> Sec. 14. Nothing in this act may be interpreted or 28 administered in a manner that impairs or diminishes a valid water 29 right, including rights established under state law and rights 30 established under federal law.

31 <u>NEW SECTION.</u> **Sec. 15.** If any provision of this act or its 32 application to any person or circumstance is held invalid, the 33 remainder of the act or the application of the provision to other 34 persons or circumstances is not affected. <u>NEW SECTION.</u> Sec. 16. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately, except for section 9 of this act which takes effect July 1, 2005, and section 10 of this act which takes effect July 1, 2006.

6 <u>NEW SECTION.</u> Sec. 17. Section 9 of this act expires July 1, 2006.

7 <u>NEW SECTION.</u> Sec. 18. Sections 1 through 8 and 11 through 16 of 8 this act constitute a new chapter in Title 90 RCW.

--- END ---
