16 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

17 NEW SECTION. **Sec. 1.** In 2005, the legislature reconstituted the
18 state board of education to refocus its purpose; abolished the academic
19 achievement and accountability commission; and assigned policy and
20 rule-making authority for educator preparation and certification to the
21 professional educator standards board. The purpose of this act is to
22 address the remaining statutory responsibilities of the state board of
23 education held before 2005. The legislature finds that some duties
24 should be retained with the reconstituted board; many duties should be
25 transferred to other agencies or organizations, primarily but not
26 exclusively to the superintendent of public instruction; and some
27 duties should be repealed. This act also corrects statutes to
28 implement fully the transfer of responsibilities authorized in 2005.

29 **PART 1**

30 **NEW STATE BOARD OF EDUCATION**

31 **Sec. 101.** RCW 28A.305.130 and 2005 c 497 s 104 are each amended to

36 ~~limitations based on the amount of work experience that may apply~~
37 ~~toward teacher preparation program requirements under this chapter; and~~

1 ~~(b) Require that at the time of the individual's enrollment in a~~
2 ~~teacher preparation program, the supervising teacher and the building~~

5 ~~enrolled, a written assessment of the performance of the teacher~~
6 ~~candidate. The assessment shall contain such information as determined~~
7 ~~by the state board of education and shall include: Evidence that at~~
8 ~~least fifty percent of the candidate's work as a classified teacher's~~

10 ~~supervision of a certificated teacher and that the candidate worked a~~
11 ~~minimum of six hundred thirty hours for one school year; the type of~~
12 ~~work performed by the candidate; and a recommendation of whether the~~

4 shall not conflict with requirements contained in Title I of the
5 federal elementary and secondary education act of 1965, or the

14 goals by rule. However, before each goal is implemented, the board
15 shall present the goal to the education committees of the house of

18 action on the goal if such action is deemed warranted by the
19 legislature;

23 board shall also determine student scores that identify levels of
24 student performance below and beyond the standard. The board shall
25 consider the incorporation of the standard error of measurement into
26 the decision regarding the award of the certificates. The board shall
27 set such performance standards and levels in consultation with the

37 legislature shall be advised of the initial performance standards and

1 any changes made to the elementary level performance standards and the
2 middle school level performance standards;

6 of accomplishments, student achievement and improvements in student
7 achievement. Recognition for improvements in student achievement shall
8 include consideration of one or more of the following accomplishments:

18 percent of students meeting the standard, or the improvement index.

20 schools, the board may use the assessment results from the initial
21 years the assessments were administered, if doing so with individual
22 schools would be appropriate;

23 (d) Adopt objective, systematic criteria to identify schools and
24 school districts in need of assistance and those in which significant
25 numbers of students persistently fail to meet state standards. In its
26 deliberations, the board shall consider the use of all statewide
27 mandated criterion-referenced and norm-referenced standardized tests;

28 (e) Identify schools and school districts in which state
29 intervention measures will be needed and a range of appropriate
30 intervention strategies after the legislature has authorized a set of
31 intervention strategies. After the legislature has authorized a set of
32 intervention strategies, at the request of the board, the
33 superintendent shall intervene in the school or school district and
34 take corrective actions. This chapter does not provide additional
35 authority for the board or the superintendent of public instruction to
36 intervene in a school or school district;

20 order to meet (a) a school housing emergency resulting from the
21 destruction of a school building by fire, the condemnation of a school
22 building by properly constituted authorities, a sudden excessive and
23 clearly foreseeable future increase in school population, or other

13 the eligibility of the district for an allotment of state funds and the
14 amount or amounts of such allotments, respectively, for all projects
15 for which the voters authorize capital funds as aforesaid, unless a
16 higher percentage of state assistance prevails on the date that state
17 funds for assistance in financing a project are allotted by the (~~state~~
18 ~~board of education~~) superintendent of public instruction in which case
19 the percentage prevailing on the date of allotment by the (~~state~~
20 ~~board~~) superintendent of funds for each project shall govern:
21 PROVIDED, That if the (~~state board of education~~) superintendent of
22 public instruction, with recommendations from the school facilities
23 citizen advisory panel, determines at any time that there has been
24 undue or unwarranted delay on the part of school district authorities

27 percentage of state assistance prevailing on the date that the
28 allotment is made shall be used for the purposes aforesaid: PROVIDED,
29 FURTHER, That the date (~~herein~~) specified in this section as

11 PROVIDED, That the total amount allotted shall not exceed ninety

16 be reviewed biennially by the superintendent and governor. The
17 recommended formula shall be subject to approval, amendment or
18 rejection by the legislature. The formula shall be for allocation
19 purposes only. While the legislature intends that the allocations for
20 additional instructional staff be used to increase the ratio of such
21 staff to students, nothing in this section shall require districts to
22 reduce the number of administrative staff below existing levels.

23 (b) The formula adopted by the legislature shall reflect the
24 following ratios at a minimum: (i) Forty-nine certificated

34 (c) In the event the legislature rejects the distribution formula
35 recommended by the governor, without adopting a new distribution
36 formula, the distribution formula for the previous school year shall
37 remain in effect: PROVIDED, That the distribution formula developed
38 pursuant to this section shall be for state apportionment and

14 definition shall not take effect until approved by the house
15 appropriations committee and the senate ways and means committee:
16 PROVIDED, FURTHER, That the office of financial management shall make
17 a monthly review of the superintendent's reported full time equivalent

19 which in (~~its~~) his or her judgment makes adequate and satisfactory
20 provision for participation by the nonhigh school districts in
21 providing capital funds to be used for the purpose above stated, and
22 shall notify the regional committee of such action. Upon receipt by
23 the regional committee of such notification, the educational service

12 and health services and community, trade, and economic development

16 (1) The rules adopted pursuant to RCW 28A.600.010 shall be
17 interpreted to (~~insure~~) ensure that the optimum learning atmosphere
18 of the classroom is maintained, and that the highest consideration is
19 given to the judgment of qualified certificated educators regarding
20 conditions necessary to maintain the optimum learning atmosphere.

21 (2) Any student who creates a disruption of the educational process
22 in violation of the building disciplinary standards while under a
23 teacher's immediate supervision may be excluded by the teacher from his
24 or her individual classroom and instructional or activity area for all
25 or any portion of the balance of the school day, or up to the following
26 two days, or until the principal or designee and teacher have

35 every school district board of directors shall provide that written
36 procedures are developed for administering discipline at each school

1 within the district. Such procedures shall be developed with the
2 participation of parents and the community, and shall provide that the
3 teacher, principal or designee, and other authorities designated by the
4 board of directors, make every reasonable attempt to involve the parent
5 or guardian and the student in the resolution of student discipline
6 problems. Such procedures shall provide that students may be excluded
7 from their individual classes or activities for periods of time in
8 excess of that provided in subsection (2) of this section if such
9 students have repeatedly disrupted the learning of other students. The
10 procedures must be consistent with the rules of the (~~state board of~~
11 ~~education~~) superintendent of public instruction and must provide for
12 early involvement of parents in attempts to improve the student's
13 behavior.

14 (4) The procedures shall assure, pursuant to RCW 28A.400.110, that
15 all staff work cooperatively toward consistent enforcement of proper
16 student behavior throughout each school as well as within each
17 classroom.

18 (5) A principal shall consider imposing long-term suspension or

26 the principal to the school personnel who referred the student to the
27 principal for disciplinary action.

28 **Sec. 707.** RCW 28A.600.030 and 1990 c 33 s 498 are each amended to
29 read as follows:

30 Each school district board of directors may establish student
31 grading policies which permit teachers to consider a student's
32 attendance in determining the student's overall grade or deciding
33 whether the student should be granted or denied credit. Such policies
34 shall take into consideration the circumstances pertaining to the
35 student's inability to attend school. However, no policy shall be
36 adopted whereby a grade shall be reduced or credit shall be denied for
37 disciplinary reasons only, rather than for academic reasons, unless due

1 process of law is provided as set forth by the (~~state board of~~
2 ~~education~~) superintendent of public instruction under RCW 28A.305.160
3 (as recodified by this act).

18 read as follows:

19 (1) When enrolling a student who has attended school in another

1 under RCW 28A.635.060, or tuition, fees, or fines at approved private
2 schools the school may withhold the student's official transcript, but
3 shall transmit information about the student's academic performance,
4 special placement, immunization records, records of disciplinary

7 tuition, fees, or fines, the enrolling school shall notify both the
8 student and parent or guardian that the official transcript will not be
9 sent until the obligation is met, and failure to have an official
10 transcript may result in exclusion from extracurricular activities or
11 failure to graduate.

12 (3) If information is requested under subsection (2) of this
13 section, the information shall be transmitted within two school days
14 after receiving the request and the records shall be sent as soon as
15 possible. Any school district or district employee who releases the
16 information in compliance with this section is immune from civil
17 liability for damages unless it is shown that the school district
18 employee acted with gross negligence or in bad faith. The ((state
19 board of education)) professional educator standards board shall
20 provide by rule for the discipline under chapter 28A.410 RCW of a
21 school principal or other chief administrator of a public school
22 building who fails to make a good faith effort to assure compliance

30 criminal or violent behavior, or other behavior that indicates the
31 student could be a threat to the safety of educational staff or other
32 students, the school shall provide this information to the student's
33 teachers and security personnel.

34 **Sec. 803.** RCW 28A.405.110 and 1985 c 420 s 1 are each amended to
35 read as follows:

36 The legislature recognizes the importance of teachers in the
37 educational system. Teachers are the fundamental element in assuring

1 a quality education for the state's and the nation's children.
2 Teachers, through their direct contact with children, have a great
3 impact on the development of the child. The legislature finds that
4 this important role of the teacher requires an assurance that teachers
5 are as successful as possible in attaining the goal of a well-educated
6 society. The legislature finds, therefore, that the evaluation of
7 those persons seeking to enter the teaching profession is no less
8 important than the evaluation of those persons currently teaching. The
9 evaluation of persons seeking teaching credentials should be strenuous
10 while making accommodations uniquely appropriate to the applicants.
11 Strenuous teacher training and preparation should be complemented by
12 examinations of prospective teachers prior to candidates being granted
13 official certification by the (~~state board of education~~) professional
14 educator standards board. Teacher preparation program entrance
15 evaluations, teacher training, teacher preparation program exit
16 examinations, official certification, in-service training, and ongoing
17 evaluations of individual progress and professional growth are all part
18 of developing and maintaining a strong precertification and
19 postcertification professional education system.

20 The legislature further finds that an evaluation system for
21 teachers has the following elements, goals, and objectives: (1) An
22 evaluation system must be meaningful, helpful, and objective; (2) an
23 evaluation system must encourage improvements in teaching skills,
24 techniques, and abilities by identifying areas needing improvement; (3)
25 an evaluation system must provide a mechanism to make meaningful
26 distinctions among teachers and to acknowledge, recognize, and
27 encourage superior teaching performance; and (4) an evaluation system
28 must encourage respect in the evaluation process by the persons
29 conducting the evaluations and the persons subject to the evaluations
30 through recognizing the importance of objective standards and
31 minimizing subjectivity.

32 **Sec. 804.** RCW 28A.415.010 and 1991 c 285 s 1 are each amended to
33 read as follows:

34 It shall be the responsibility of each educational service district
35 board to establish a center for the improvement of teaching. The
36 center shall administer, coordinate, and act as fiscal agent for such
37 programs related to the recruitment and training of certificated and

1 classified K-12 education personnel as may be delegated to the center
2 by the superintendent of public instruction under RCW 28A.310.470(~~(or~~
3 ~~the state board of education under RCW 28A.310.480)~~). To assist in

5 establish an improvement of teaching coordinating council to include,
6 at a minimum, representatives as specified in RCW 28A.415.040. An
7 existing in-service training task force, established pursuant to RCW
8 28A.415.040, may serve as the improvement of teaching coordinating
9 council. The educational service district board shall ensure

11 28A.410.060, and 28A.415.250.

12 The educational service district board may arrange each year for
13 the holding of one or more teachers' institutes and/or workshops for
14 professional staff preparation and in-service training in such manner
15 and at such time as the board believes will be of benefit to the
16 teachers and other professional staff of school districts within the
17 educational service district and shall comply with rules (~~and~~
18 ~~regulations of the state board of education~~) of the professional
19 educator standards board pursuant to RCW 28A.410.060 or the
20 superintendent of public instruction (~~or state board of education~~)
21 pursuant to RCW 28A.415.250. The board may provide such additional
22 means of teacher and other professional staff preparation and in-
23 service training as it may deem necessary or appropriate and there
24 shall be a proper charge against the educational service district
25 general expense fund when approved by the educational service district
26 board.

27 Educational service district boards of contiguous educational
28 service districts, by mutual arrangements, may hold joint institutes
29 and/or workshops, the expenses to be shared in proportion to the
30 numbers of certificated personnel as shown by the last annual reports
31 of the educational service districts holding such joint institutes or
32 workshops.

33 In local school districts employing more than one hundred teachers
34 and other professional staff, the school district superintendent may
35 hold a teachers' institute of one or more days in such district, said
36 institute when so held by the school district superintendent to be in
37 all respects governed by the provisions of this title and (~~state board~~
