32 (7) Upon written notice to the political subdivision, the
33 department may suspend or cancel its loans if any of the following
34 occur:

21 realities of weather and market conditions in this process. The
22 conversion to maximum Washington grown oilseed must be accomplished as
23 quickly as possible. The political subdivision shall: (a) Develop a
24 plan for outreach to local growers and an estimate of when maximum
25 Washington state oilseed-based production will be reached; (b) develop

11 **Sec. 220.** 2005 c 488 s 905 (uncodified) is amended to read as
12 follows:

13 (1) To ensure that minor works appropriations are carried out in
14 accordance with legislative intent, funds appropriated in this act
15 shall not be allotted until project lists are on file at the office of
16 financial management (~~(and the office of financial management has~~
17 ~~formally approved the lists. Proposed revisions)~~), the house of
18 representatives capital budget committee, and the senate ways and means
19 committee. All projects must meet the criteria included in subsection
20 (2)(a) of this section. Revisions to the lists must be filed with
21 ((and approved by)) the office of financial management, the house of
22 representatives capital budget committee, and the senate ways and means
23 committee and include an explanation of variances from the prior list
24 before funds may be expended on the revisions.

25 (2)(a) Minor works projects are single line appropriations that
26 shall include multiple projects valued between \$25,000 and \$1,000,000
27 each that are of a similar nature and can (~~(generally))~~ be completed
28 within two years of the appropriation with the funding provided. These
29 projects cannot be combined with or be a part of an overall project,
30 that if combined over a continuous period of time, would exceed
31 \$1,000,000. Minor works categories include (i) health, safety, and
32 code requirements; (ii) facility preservation; (iii) infrastructure
33 preservation; and (iv) program improvement or expansion. Improvements
34 for accessibility in compliance with the Americans with disabilities
35 act may be included in any of the above minor works categories.

36 (b) Minor works appropriations shall not be used for, among other
37 things: Studies, except for technical or engineering reviews or

1 designs that lead directly to and support a project on the same minor
2 works list; planning; design outside the scope of work on a minor works
3 list; moveable, temporary, and traditionally funded operating equipment
4 not in compliance with the equipment criteria established by the office
5 of financial management; software not dedicated to control of a
6 specialized system; moving expenses; land or facility acquisition; or
7 to supplement funding for projects with funding shortfalls unless
8 expressly authorized elsewhere in this act. The office of financial
9 management may make an exception to the limitations described in this
10 subsection (2)(b) for exigent circumstances after notifying the
11 legislative fiscal committees and waiting ten days for comments by the
12 legislature regarding the proposed exception.

13 (3) The (~~office of financial management~~) agency shall (~~forward~~)
14 provide copies of these project lists and revised lists to the office
15 of financial management, the house of representatives capital budget
16 committee, and the senate ways and means committee. No expenditure may
17 be incurred or obligation entered into for minor works appropriations
18 until the office of financial management has approved the allotment of
19 the funds to be expended. The office of financial management shall
20 encourage state agencies to incorporate accessibility planning and
21 improvements into the normal and customary capital program.

22 (4) It is generally not intended to make future appropriations for
23 capital expenditures or for maintenance and operating expenses for an
24 acquisition project or a significant expansion project that is
25 initiated through the minor works process and therefore does not
26 receive a policy and fiscal analysis by the legislature. Minor works
27 projects are intended to be one-time expenditures that do not require
28 future state resources to complete.

28 the governor and the legislature in the society's biennial capital
29 budget request. The list shall include a description of each project,
30 the amount of recommended state funding, and documentation of nonstate
31 funds to be used for the project. The total amount of recommended
32 state funding for projects on a biennial project list shall not exceed
33 ~~((four))~~ ten million dollars. ~~((The department may provide an~~
34 ~~additional prioritized alternate project list which shall not exceed~~
35 ~~two million dollars.))~~ The prioritized list shall be developed through
36 open and public meetings and the amount of state funding shall not
37 exceed thirty-three percent of the total cost of the project. The

1 nonstate portion of the total project cost may include cash, the value
2 of real property when acquired solely for the purpose of the project,
3 and in-kind contributions. The department shall not sign contracts or
4 otherwise financially obligate funds under this section until the
5 legislature has approved a specific list of projects. In contracts for
6 grants authorized under this section, the society shall include
7 provisions requiring that capital improvements be held by the grantee
8 for a specified period of time appropriate to the amount of the grant
9 and that facilities be used for the express purpose of the grant. If
10 the grantee is found to be out of compliance with provisions of the
11 contract, the grantee shall repay to the state general fund the
12 principal amount of the grant plus interest calculated at the rate of
13 interest on state of Washington general obligation bonds issued most
14 closely to the date of authorization of the grant.

15 **Sec. 232.** RCW 27.34.330 and 2005 c 160 s 3 are each amended to
16 read as follows:

17 The Washington state historical society shall establish a
18 competitive process to solicit proposals for and prioritize heritage
19 capital projects for potential funding in the state capital budget.
20 The society shall adopt rules governing project eligibility and
21 evaluation criteria. Application for funding of specific projects may
22 be made to the society by local governments, public development
23 authorities, nonprofit corporations, tribal governments, and other
24 entities, as determined by the society. The society, with the advice
25 of leaders in the heritage field, including but not limited to
26 representatives from the office of the secretary of state, the eastern
27 Washington state historical society, and the ~~((state—office))~~
28 department of archaeology and historic preservation, shall establish
29 and submit a prioritized list of heritage capital projects to the
30 governor and the legislature in the society's biennial capital budget
31 request. The list shall include a description of each project, the
32 amount of recommended state funding, and documentation of nonstate
33 funds to be used for the project. The total amount of recommended
34 state funding for projects on a biennial project list shall not exceed
35 ~~((four))~~ ten million dollars. ~~((The department may provide an
36 additional prioritized alternate project list which shall not exceed
37 two million dollars.))~~ The prioritized list shall be developed through

1 open and public meetings and the amount of state funding shall not
2 exceed thirty-three percent of the total cost of the project. The
3 nonstate portion of the total project cost may include cash, the value
4 of real property when acquired solely for the purpose of the project,
5 and in-kind contributions. The department shall not sign contracts or
6 otherwise financially obligate funds under this section until the
7 legislature has approved a specific list of projects. In contracts for
8 grants authorized under this section, the society shall include
9 provisions requiring that capital improvements be held by the grantee
10 for a specified period of time appropriate to the amount of the grant
11 and that facilities be used for the express purpose of the grant. If
12 the grantee is found to be out of compliance with provisions of the
13 contract, the grantee shall repay to the state general fund the
14 principal amount of the grant plus interest calculated at the rate of
15 interest on state of Washington general obligation bonds issued most
16 closely to the date of authorization of the grant.

17 **Sec. 233.** RCW 43.63A.125 and 2005 c 160 s 1 are each amended to
18 read as follows:

19 (1) The department shall establish a competitive process to solicit
20 proposals for and prioritize projects that assist nonprofit
21 organizations in acquiring, constructing, or rehabilitating facilities
22 used for the delivery of nonresidential social services.

23 (2) The department shall establish a competitive process to
24 prioritize applications for the assistance as follows:

25 (a) The department shall conduct a statewide solicitation of
26 project applications from local governments, nonprofit organizations,
27 and other entities, as determined by the department. The department
28 shall evaluate and rank applications in consultation with a citizen
29 advisory committee using objective criteria. At a minimum, applicants
30 must demonstrate that the requested assistance will increase the
31 efficiency or quality of the social services it provides to citizens.
32 The evaluation and ranking process shall also include an examination of
33 existing assets that applicants may apply to projects. Grant
34 assistance under this section shall not exceed twenty-five percent of
35 the total cost of the project. The nonstate portion of the total
36 project cost may include cash, the value of real property when acquired
37 solely for the purpose of the project, and in-kind contributions.

1 (b) The department shall submit a prioritized list of recommended
2 projects to the governor and the legislature in the department's
3 biennial capital budget request beginning with the 2001-2003 biennium
4 and thereafter. For the 1999-2001 biennium, the department shall
5 conduct a solicitation and ranking process, as described in (a) of this
6 subsection, for projects to be funded by appropriations provided for
7 this program in the 1999-2001 capital budget. The list shall include
8 a description of each project, the amount of recommended state funding,
9 and documentation of nonstate funds to be used for the project. The
10 total amount of recommended state funding for projects on a biennial
11 project list shall not exceed (~~four~~) ten million dollars. (~~The~~
12 ~~department may provide an additional prioritized alternate project list~~
13 ~~which shall not exceed two million dollars.~~) Except for the 1999-2001
14 biennium, the department shall not sign contracts or otherwise
15 financially obligate funds under this section until the legislature has
16 approved a specific list of projects.

17 (c) In contracts for grants authorized under this section the
18 department shall include provisions which require that capital
19 improvements shall be held by the grantee for a specified period of
20 time appropriate to the amount of the grant and that facilities shall
21 be used for the express purpose of the grant. If the grantee is found
22 to be out of compliance with provisions of the contract, the grantee
23 shall repay to the state general fund the principal amount of the grant
24 plus interest calculated at the rate of interest on state of Washington
25 general obligation bonds issued most closely to the date of
26 authorization of the grant.

27 **Sec. 234.** RCW 43.63A.135 and 2005 c 160 s 4 are each amended to
28 read as follows:

29 (1) The department of community, trade, and economic development
30 must establish a competitive process to solicit proposals for and
31 prioritize projects whose primary objective is to assist nonprofit
32 youth organizations in acquiring, constructing, or rehabilitating
33 facilities used for the delivery of nonresidential services, excluding
34 outdoor athletic fields.

35 (2) The department of community, trade, and economic development
36 must establish a competitive process to prioritize applications for the
37 assistance as follows:

1 (a) The department of community, trade, and economic development
2 must conduct a statewide solicitation of project applications from
3 local governments, nonprofit organizations, and other entities, as
4 determined by the department of community, trade, and economic
5 development. The department of community, trade, and economic
6 development must evaluate and rank applications in consultation with a
7 citizen advisory committee using objective criteria. Projects must
8 have a major recreational component, and must have either an
9 educational or social service component. At a minimum, applicants must
10 demonstrate that the requested assistance will increase the efficiency
11 or quality of the services it provides to youth. The evaluation and
12 ranking process must also include an examination of existing assets
13 that applicants may apply to projects. Grant assistance under this
14 section may not exceed twenty-five percent of the total cost of the
15 project. The nonstate portion of the total project cost may include
16 cash, the value of real property when acquired solely for the purpose
17 of the project, and in-kind contributions.

18 (b) The department of community, trade, and economic development
19 must submit a prioritized list of recommended projects to the governor
20 and the legislature in the department of community, trade, and economic
21 development's biennial capital budget request beginning with the 2005-
22 2007 biennium and thereafter. The list must include a description of
23 each project, the amount of recommended state funding, and
24 documentation of nonstate funds to be used for the project. The total
25 amount of recommended state funding for projects on a biennial project
26 list must not exceed ~~((two))~~ eight million dollars. ~~((The department
27 of community, trade, and economic development may provide an additional
28 prioritized alternate project list that must not exceed one million
29 dollars.))~~ The department of community, trade, and economic
30 development may not sign contracts or otherwise financially obligate
31 funds under this section until the legislature has approved a specific
32 list of projects.

33 (c) In contracts for grants authorized under this section the
34 department of community, trade, and economic development must include
35 provisions that require that capital improvements be held by the
36 grantee for a specified period of time appropriate to the amount of the
37 grant and that facilities be used for the express purpose of the grant.
38 If the grantee is found to be out of compliance with provisions of the

1 contract, the grantee must repay to the state general fund the
2 principal amount of the grant plus interest calculated at the rate of
3 interest on state of Washington general obligation bonds issued most
4 closely to the date of authorization of the grant.

5 **Sec. 235.** RCW 43.63A.750 and 2005 c 160 s 2 are each amended to
6 read as follows:

7 (1) A competitive grant program to assist nonprofit organizations
8 in acquiring, constructing, or rehabilitating performing arts, art
9 museums, and cultural facilities is created.

10 (2)(a) The department shall submit a list of recommended performing
11 arts, art museum projects, and cultural organization projects eligible
12 for funding to the governor and the legislature in the department's
13 biennial capital budget request beginning with the 2001-2003 biennium
14 and thereafter. The list, in priority order, shall include a
15 description of each project, the amount of recommended state funding,
16 and documentation of nonstate funds to be used for the project. The
17 total amount of recommended state funding for projects on a biennial
18 project list shall not exceed ((four)) twelve million dollars. ((The
19 department may provide an additional prioritized alternate project list
20 which shall not exceed two million dollars.))

21 (b) The department shall establish a competitive process to
22 prioritize applications for state assistance as follows:

23 (i) The department shall conduct a statewide solicitation of
24 project applications from nonprofit organizations, local governments,
25 and other entities, as determined by the department. The department
26 shall evaluate and rank applications in consultation with a citizen
27 advisory committee, including a representative from the state arts
28 commission, using objective criteria. The evaluation and ranking
29 process shall also consider local community support for projects and an
30 examination of existing assets that applicants may apply to projects.

31 (ii) The department may establish the amount of state grant
32 assistance for individual project applications but the amount shall not
33 exceed twenty percent of the estimated total capital cost or actual
34 cost of a project, whichever is less. The remaining portions of the
35 project capital cost shall be a match from nonstate sources. The
36 nonstate match may include cash, the value of real property when
37 acquired solely for the purpose of the project, and in-kind

1 contributions. The department is authorized to set matching
2 requirements for individual projects. State assistance may be used to
3 fund separate definable phases of a project if the project demonstrates
4 adequate progress and has secured the necessary match funding.

5 (iii) The department shall not sign contracts or otherwise
6 financially obligate funds under this section until the legislature has
7 approved a specific list of projects. In contracts for grants
8 authorized under this section, the department shall include provisions
9 requiring that capital improvements be held by the grantee for a
10 specified period of time appropriate to the amount of the grant and
11 that facilities be used for the express purpose of the grant. If the
12 grantee is found to be out of compliance with provisions of the
13 contract, the grantee shall repay to the state general fund the
14 principal amount of the grant plus interest calculated at the rate of
15 interest on state of Washington general obligation bonds issued most
16 closely to the date of authorization of the grant.

17 **Sec. 236.** RCW 43.185.050 and 2005 c 219 s 1 and 2005 c 518 s 1801
18 are each reenacted and amended to read as follows:

19 (1) The department shall use moneys from the housing trust fund and
20 other legislative appropriations to finance in whole or in part any
21 loans or grant projects that will provide housing for persons and
22 families with special housing needs and with incomes at or below fifty
23 percent of the median family income for the county or standard
24 metropolitan statistical area where the project is located. At least
25 thirty percent of these moneys used in any given funding cycle shall be
26 for the benefit of projects located in rural areas of the state as
27 defined by the department. If the department determines that it has
28 not received an adequate number of suitable applications for rural
29 projects during any given funding cycle, the department may allocate
30 unused moneys for projects in nonrural areas of the state.

31 (2) Activities eligible for assistance from the housing trust fund
32 and other legislative appropriations include, but are not limited to:

33 (a) New construction, rehabilitation, or acquisition of low and

15 (j) Acquisition of housing units for the purpose of preservation as
16 low-income or very low-income housing; ~~((and))~~

17 (k) Projects making housing more accessible to families with

22 (3) During the 2005-2007 fiscal biennium, revenues generated under
23 RCW 36.22.178 may be used for the development of affordable housing
24 projects and other activities funded in section 108 of this act.

25 (4) Legislative appropriations from capital bond proceeds may be
26 used only for the costs of projects authorized under subsection (2)(a),

29 ~~((4))~~ (5) Moneys from repayment of loans from appropriations from

Passed by the Senate March 8, 2006.

Passed by the House March 8, 2006.

Approved by the Governor March 31, 2006, with the exception of certain items that were vetoed.

Filed in Office of Secretary of State March 31, 2006.

Note: Governor's explanation of partial veto is as follows:

"I am returning, without my approval as to Sections 105(6); 106(4), line item 13, page 10; 116; 155(1), (2), (3); 180; 195; 199; 211; and 230 of Engrossed Substitute Senate Bill No. 6384 entitled:

"AN ACT Relating to the capital budget."

My reasons for vetoing these sections are as follows:

Section 105(6), pages 5-6, Department of Community, Trade, and Economic Development, Housing Liability Revolving Fund

This proviso would require the Department of Community, Trade and Economic Development (CTED) to contract with the Washington State Housing Finance Commission to establish a liability revolving fund

for condominium and multi-unit residential buildings. This provision was previously included in legislation that failed to pass this session. The language defines eligibility for a new, on-going service. It is inappropriate to establish this type of program in an appropriations bill.

Although I have vetoed Section 105(6), I am directing CTED to work with the Housing Finance Commission to accomplish these program goals to the maximum extent allowable under law.

Section 106(4), line item 13 on page 10, Department of Community, Trade, and Economic Development, Tritrail Feasibility Study

This project would provide general obligation bond funds to study a three-city walking and biking trail, starting in Tukwila and eventually linking to Mount Rainier National Park. It is not prudent to use long-term bond financing to pay for a feasibility study. I have, therefore, vetoed the appropriation related to this project.

Section 116, pages 19-20, Department of General Administration, Pritchard Building Pre-design

This Americans with Disabilities Act of 1990 (ADA) access project was funded in the 2005-07 capital budget. Proviso language was added in this bill to require the Department of General Administration to include design and construction of the ADA pathway project to the Pritchard Building as part of the Pritchard Building pre-design. The pre-design is a separate project and combining these projects could add another year to the ADA path project, as well as increase the total cost. The Capitol Campus Design Advisory Committee has approved the ADA access plan and the ADA path project is ready to proceed to design. I have vetoed Section 116 to allow for timely completion of this project.

Section 155(1), (2), and (3), pages 45 -46, Interagency Committee for Outdoor Recreation, Hood Canal Grant Program

Sections 155 (1), (2) and (3) establish a process for the Interagency Committee for Outdoor Recreation (IAC) to administer a grant program addressing low-dissolved oxygen concentrations in Hood Canal. It is a reasonable approach to allow the Governor to remove projects from a list developed by the Puget Sound Action Team, and for the IAC not to commit funds until the Legislature has appropriated funds for a specific list of projects. However, this new process will prevent any projects from being started until the spring of 2007.

In order for these critical projects to move forward as quickly as possible, I have vetoed Sections 155 (1), (2) and (3). In addition, I am directing the IAC to proceed with a process to select projects based on the prioritized recommendations of the Puget Sound Action Team and the Hood Canal Coordinating Council. I also am instructing the IAC to review the list of projects with the Governor's Office and appropriate legislators before signing contracts.

Section 180, page 58, Department of Fish and Wildlife, Olympia Facilities

Section 180 directs the Department of Fish and Wildlife to vacate its downtown Olympia facilities by June 2007 and for the Department of General Administration to dispose of the properties. RCW 77.12.210 gives the director of the Department of Fish and Wildlife the authority to maintain and manage real or personal property owned, leased, or held by the department. The Fish and Wildlife Commission may authorize the director to dispose of real or personal property under the control of the department. This section directing the Department of General Administration to dispose of this property conflicts with this existing statute.

Although I have vetoed Section 180, I am directing the Department of General Administration to work with the Department of Fish and Wildlife to develop a plan addressing the consolidation of services, relocation of users, and long-term use of the properties, and to report to the Legislature and Office of Financial Management by December 1, 2006.

Section 195, pages 68-69, State Board of Education, IslandWood

This section adds funding for capital projects at IslandWood Education Center. Article IX, Section 3 of the Washington State Constitution states that the Common School Construction Account shall be used exclusively for financing the construction of facilities for the common schools. RCW 28A.150.020 defines common schools as schools maintained at public expense in each school district and carrying on a program from kindergarten through the twelfth grade or any part thereof including vocational educational courses otherwise permitted by law. IslandWood is a non-profit organization that serves students from fifty schools and 50,000 households in Puget Sound. I have vetoed Section 195 because funding a non-profit entity is not consistent with the intended use of the Common School Construction Account.

Section 199, pages 71-72, State Board of Education, Acoustic Technology

This section would provide funding for demonstration projects to test the use of sound amplification technology in the classroom. Grant recipients must contribute a 50 percent match for these funds and provide a measure of the effectiveness of this technology. There is no evidence that suggests that the use of this technology creates a substantial benefit to students. In addition, the program is likely to have substantial future costs. For these reasons, I have vetoed Section 199.

Section 211, pages 76-77, State Arts Commission, Capitol Sundial Repair

This section provides funding to support a \$5,000 competitive grant for design and repair of the State Capitol Sundial. This small amount is not appropriately financed through long-term general obligation bonds. I have vetoed Section 211 and believe that other funding sources can be found for this project.

Section 230, pages 92-93, Vendor Services

Section 230 eliminates the rent currently paid by the Department of Services for the Blind (DSB) for food service providers and vending machines. It also requires that the Department of General Administration (GA) pay preventative maintenance on food service equipment used by these vendors; that private buildings with at least 100 state employees contract with the DSB for vending facilities and/or vending machines in the cities of Olympia, Lacey and Tumwater; and that GA conduct a study establishing a process for blind vendors to enter into franchise agreements with commercial food providers.

Although I am concerned about the issues addressed by this section, I believe it is inappropriate to simply transfer these vendor costs to state agencies that pay rent in state buildings. I have vetoed Section 230 in order to allow more time to assess the situation statewide, and explore alternatives.

With the exception of Sections 105(6); 106(4), line item 13, page 10; 116; 155(1), (2), (3); 180; 195; 199; 211; and 230 as specified above, Engrossed Substitute Senate Bill No. 6384 is approved."
