

SB 6861 - DIGEST

(DIGEST AS ENACTED)

Directs the department of ecology to, by December 31, 2006, study and prepare a report to the appropriate committees of the legislature on ways that the department and other stakeholders can better understand the competing interests of domestic surface water users and other surface water users in regards to limited water supplies who are affected by a curtailment of domestic water right use that has been enacted by a court order.
