3 On page 17, line 29 of the amendment, after "support" insert "; and  
4 (m) The use of hybrid vehicles must include an economic analysis of  
5 the total life-cycle cost to the state over the vehicle's estimated  
6 useful life, including energy inputs into the production of the  
7 vehicle, fuel usage, and all related costs of selection, acquisition,  
8 operation, maintenance, and disposal, as far as these costs can  
9 reasonably be determined, minus the salvage value at the end of the  
10 vehicle's estimated useful life."

EFFECT: Requires a life-cycle cost analysis for state use of  
hybrid vehicles, including energy, fuel, selection, acquisition,  
operation, maintenance, salvage, and disposal costs.
