Staff Summary of Public Testimony:

(In support) In 2005 election fraud triggered massive human rights violations in that country and millions have been displaced. More than 20,000 Ethiopians and Ethiopia-Americans work and live in the greater Seattle area and have brought this issue forward. The regime in power has suspended all basic human rights including, but not limited to, freedom of assembly and freedom of press, except those that are solely-owned by the government and its agents. The atrocities taking place go unchecked, are indiscriminate and have received the attention of international human rights organizations and other countries, including in the United States. House Resolution 2003, the Ethiopia Democracy and Accountability Act, passed the House of Representatives and is awaiting introduction in the Senate. The resolution supports the establishment of democratic institutions in Ethiopia to safeguard human rights. Please ask Congress to expedite passage of that resolution so that eventually justice will be delivered.

(Opposed) Over the last 50 years, the United States has been trying to tell other countries to reform and it has not done any good. Instead, the United States is vilified. Is war the only way to stop these human rights violations?

Persons Testifying: (In support) Representative Santos, prime sponsor.

(Opposed) Tom Bandt.
