10 new sections; providing an effective date; providing an expiration  
11 date; and declaring an emergency.

12 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

13 **USE STATE PURCHASING TO IMPROVE HEALTH CARE QUALITY**

14 NEW SECTION. **Sec. 1.** The health care authority and the department  
15 of social and health services shall, by September 1, 2007, develop a  
16 five-year plan to change reimbursement within state purchased health  
17 care programs to:

1 (1) Reward quality health outcomes rather than simply paying for  
2 the receipt of particular services or procedures;

3 (2) Pay for care that reflects patient preference and is of proven  
4 value;

5 (3) Require the use of evidence-based standards of care where  
6 available;

7 (4) Tie provider rate increases to measurable improvements in  
8 access to quality care;

9 (5) Direct enrollees to quality care systems;

10 (6) Better support primary care and provide a medical home to all  
11 enrollees; and

12 (7) Pay for e-mail consultations, telemedicine, and telehealth  
13 where doing so reduces the overall cost of care.

14 The plan shall identify any existing barriers and opportunities to  
15 support implementation, including needed changes to state or federal  
16 law and be submitted to the governor and the legislature upon  
17 completion.

18 NEW SECTION. **Sec. 2.** The legislature finds that unwarranted  
19 variations in health care, variations not explained by illness, patient  
20 preference, or the dictates of evidence-based medicine, are a  
21 significant feature of health care in Washington state. There is  
22 growing evidence that, for preference-sensitive care involving elective  
23 surgery, the quality of patient-practitioner communication about the  
24 benefits, harms, and uncertainty of available treatment options can be  
25 improved by introducing high-quality decision aids that encourage  
26 shared decision making. The international patient decision aid  
27 standards collaboration, a network of over one hundred researchers,  
28 practitioners, patients, and policy makers from fourteen countries,  
29 have developed standards for constructing high-quality decision aids.  
30 The legislature declares an intent to focus on improving the quality of  
31 patient-practitioner communication and on increasing the extent to  
32 which patients make genuinely informed, preference-based treatment  
33 decisions. Randomized clinical trial evidence indicates that effective  
34 use of well designed decision aids is likely to improve the quality of  
35 patient decision making, reduce unwarranted variations in health care,  
36 and result in lower health care costs overall. Despite this growing  
37 body of evidence, widespread use of decision aids has yet to occur.

1 Barriers include: (1) Lack of awareness of existing, appropriate,  
2 high-quality decision aids; (2) poor accessibility to such decision  
3 aids; (3) low practitioner acceptance of decision aids in terms of  
4 compatibility with their practice, ease of use, and expense to  
5 incorporate into practice; (4) lack of incentives for use, such as  
6 reduced liability and reimbursement for their use; and (5) lack of a  
7 process to certify that a decision aid meets the standards required of  
8 a high-quality decision aid. The legislature intends to promote new  
9 public/private collaborative efforts to broaden the development, use,  
10 evaluation, and certification of effective decision aids and intends to  
11 support the collaborative through providing new recognition of the  
12 shared decision-making process and patient decision aids in the state's  
13 laws on informed consent. The legislature also intends to establish a  
14 process for certifying that a given decision aid meets the standards  
15 required for a high-quality decision aid.

16 NEW SECTION. **Sec. 3.** The state health care authority shall work  
17 in collaboration with the health professions and quality improvement  
18 communities to increase awareness of appropriate, high-quality decision  
19 aids, and to train physicians and other practitioners in their use.  
20 The effort shall focus on one or more of the preference-sensitive  
21 conditions with high rates of unwarranted variation in Washington, and  
22 can include strategies such as prominent linkage to such decision aids  
23 in state web sites, and training/awareness programs in conjunction with  
24 professional and quality improvement groups. The state health care  
25 authority shall, in consultation with the national committee for  
26 quality assurance, identify a certification process for patient  
27 decision aids. The state health care authority may accept donations or  
28 grants to support such efforts.

29 NEW SECTION. **Sec. 4.** The state health care authority shall work  
30 with contracting health carriers and health care providers, and a  
31 nonproprietary public interest research group and/or university-based  
32 research group, to implement practical and usable models to demonstrate  
33 shared decision making in everyday clinical practice. The  
34 demonstrations shall be conducted at one or more multispecialty group  
35 practice sites providing state purchased health care in the state of  
36 Washington, and may include other practice sites providing state

1 purchased health care. The demonstrations must include the following  
2 elements: Incorporation into clinical practice of one or more decision  
3 aids for one or more identified preference-sensitive care areas  
4 combined with ongoing training and support of involved practitioners  
5 and practice teams, preferably at sites with necessary supportive  
6 health information technology. The evaluation must include the  
7 following elements: (1) A comparison between the demonstration sites  
8 and, if appropriate, between the demonstration sites and a control  
9 group, of the impact of the shared decision-making process employing  
10 the decision aids on: The use of preference-sensitive health care  
11 services; and associated costs saved and/or expended; and (2) an  
12 assessment of patient knowledge of the relevant health care choices,  
13 benefits, harms, and uncertainties; concordance between patient values  
14 and care received; and satisfaction with the decision-making process  
15 and their health outcomes by patients and involved physicians and other  
16 health care practitioners. The health care authority may solicit and  
17 accept funding to support the demonstration and evaluation.

18 **Sec. 5.** RCW 7.70.060 and 1975-'76 2nd ex.s. c 56 s 11 are each  
19 amended to read as follows:

20 (1) If a patient while legally competent, or his or her  
21 representative if he or she is not competent, signs a consent form  
22 which sets forth the following, the signed consent form shall  
23 constitute prima facie evidence that the patient gave his or her  
24 informed consent to the treatment administered and the patient has the  
25 burden of rebutting this by a preponderance of the evidence:

26 ~~((1))~~ (a) A description, in language the patient could reasonably  
27 be expected to understand, of:

28 ~~((a))~~ (i) The nature and character of the proposed treatment;

29 ~~((b))~~ (ii) The anticipated results of the proposed treatment;

30 ~~((c))~~ (iii) The recognized possible alternative forms of  
31 treatment; and

32 ~~((d))~~ (iv) The recognized serious possible risks, complications,  
33 and anticipated benefits involved in the treatment and in the  
34 recognized possible alternative forms of treatment, including  
35 nontreatment;

36 ~~((2))~~ (b) Or as an alternative, a statement that the patient

1 elects not to be informed of the elements set forth in (a) of this  
2 subsection ((1) of this section).

3 (2) If a patient while legally competent, or his or her  
4 representative if he or she is not competent, signs an acknowledgement  
5 of shared decision making as described in subsection (3) of this  
6 section, such acknowledgement shall constitute prima facie evidence  
7 that the patient gave his or her informed consent to the treatment  
8 administered and the patient has the burden of rebutting this by clear  
9 and convincing evidence. An acknowledgement of shared decision making  
10 shall include:

11 (a) A statement that the patient, or his or her representative, and  
12 the health care provider have engaged in shared decision making as an  
13 alternative means of meeting the informed consent requirements set  
14 forth by laws, accreditation standards, and other mandates;

15 (b) A brief description of the services that the patient and  
16 provider jointly have agreed will be furnished;

17 (c) A brief description of the patient decision aid or aids that  
18 have been used by the patient and provider to address the needs for (i)  
19 high-quality, up-to-date information about the condition, including  
20 risk and benefits of available options and, if appropriate, a  
21 discussion of the limits of scientific knowledge about outcomes; (ii)  
22 values clarification to help patients sort out their values and  
23 preferences; and (iii) guidance or coaching in deliberation, designed  
24 to improve the patient's involvement in the decision process;

25 (d) A statement that the patient or his or her representative  
26 understands: The risk or seriousness of the disease or condition to be  
27 prevented or treated; the available treatment alternatives, including  
28 nontreatment; and the risks, benefits, and uncertainties of the  
29 treatment alternatives, including nontreatment; and

30 (e) A statement certifying that the patient or his or her  
31 representative has had the opportunity to ask the provider questions,  
32 and to have any questions answered to the patient's satisfaction, and  
33 indicating the patient's intent to receive the identified services.

34 (3) "Shared decision making" means a process in which the physician  
35 or other health care practitioner discusses with the patient or his or  
36 her representative the information specified in subsection (1)(a) of  
37 this section, with or without the use of a patient decision aid, and  
38 the patient shares with the provider such relevant personal information

1 as might make one treatment or side effect more or less tolerable than  
2 others. The goal of shared decision making is for the patient and  
3 physician or other health care practitioner to feel they appropriately  
4 understand the nature of the procedure, the risks and benefits, as well  
5 as the individual values and preferences that influence the treatment  
6 decision, such that both are willing to sign a statement acknowledging  
7 that they have engaged in shared decision making and setting forth the  
8 agreed treatment to be furnished.

9 (4) "Patient decision aid" means a written, audio-visual, or online  
10 tool that provides a balanced presentation of the condition and  
11 treatment options, benefits, and harms, including, if appropriate, a  
12 discussion of the limits of scientific knowledge about outcomes, and  
13 that is certified by one or more national certifying organizations  
14 approved by the health care authority. In order to be an approved  
15 national certifying organization, an organization must use a rigorous  
16 evaluation process to assure that decision aids are competently  
17 developed, provide a balanced presentation of treatment options,  
18 benefits, and harms, and are efficacious at improving decision making.

19 (5) Failure to use a form or to engage in shared decision making,  
20 with or without the use of a patient decision aid, shall not be  
21 admissible as evidence of failure to obtain informed consent. There  
22 shall be no liability, civil or otherwise, resulting from a health care  
23 provider choosing either the signed consent form set forth in  
24 subsection (1)(a) of this section or the signed acknowledgement of  
25 shared decision making as set forth in subsection (2) of this section.

## 26 PREVENTION AND MANAGEMENT OF CHRONIC ILLNESS

27 NEW SECTION. Sec. 6. A new section is added to chapter 74.09 RCW  
28 to read as follows:

29 (1) The department of social and health services, in collaboration  
30 with the department of health, shall:

31 (a) Design and implement medical homes for its aged, blind, and  
32 disabled clients in conjunction with chronic care management programs  
33 to improve health outcomes, access, and cost-effectiveness. Programs  
34 must be evidence based, facilitating the use of information technology  
35 to improve quality of care, and must improve coordination of primary,  
36 acute, and long-term care for those clients with multiple chronic

1 conditions. The department shall consider expansion of existing  
2 medical home and chronic care management programs and build on the  
3 Washington state collaborative initiative. The department shall use  
4 best practices in identifying those clients best served under a chronic  
5 care management model using predictive modeling through claims or other  
6 health risk information; and

7 (b) Contract for a study of chronic care management, to include  
8 evaluation of current efforts in the health and recovery services  
9 administration and the aging and disability services administration,  
10 comparison to best practices, and recommendations for future efforts  
11 and organizational structure to improve chronic care management.

12 (2) For purposes of this section:

13 (a) "Medical home" means a site of care that provides comprehensive  
14 preventive and coordinated care centered on the patient needs and  
15 assures high quality, accessible, and efficient care.

16 (b) "Chronic care management" means the department's program that  
17 provides care management and coordination activities for medical  
18 assistance clients determined to be at risk for high medical costs.  
19 "Chronic care management" provides education and training and/or  
20 coordination that assist program participants in improving self-  
21 management skills to improve health outcomes and reduce medical costs  
22 by educating clients to better utilize services.

23 NEW SECTION. **Sec. 7.** A new section is added to chapter 43.70 RCW  
24 to read as follows:

27 for providers of primary care. The program shall emphasize evidence-  
28 based high quality preventive and chronic disease care. The department  
29 may designate one or more chronic conditions to be the subject of the  
30 program.

31 (2) The training and technical assistance program shall include the  
32 following elements:

33 (a) Clinical information systems and sharing and organization of  
34 patient data;

35 (b) Decision support to promote evidence-based care;

36 (c) Clinical delivery system design;

37 (d) Support for patients managing their own conditions; and

1 (e) Identification and use of community resources that are  
2 available in the community for patients and their families.

3 (3) In selecting primary care providers to participate in the  
4 program, the department shall consider the number and type of patients  
5 with chronic conditions the provider serves, and the provider's  
6 participation in the medicaid and medicare programs.

7 **COST AND QUALITY INFORMATION FOR CONSUMERS AND PROVIDERS**

8 NEW SECTION. **Sec. 8.** A new section is added to chapter 41.05 RCW  
9 to read as follows:

10 The Washington state quality forum is established within the  
11 authority. The forum shall collaborate with the Puget Sound health  
12 alliance and other local organizations and shall:

13 (1) Collect and disseminate research regarding health care quality,  
14 evidence-based medicine, and patient safety to promote best practices,  
15 in collaboration with the technology assessment program and the  
16 prescription drug program;

17 (2) Coordinate the collection of health care quality data among  
18 state health care purchasing agencies;

19 (3) Adopt a set of measures to evaluate and compare health care  
20 cost and quality and provider performance;

21 (4) Identify and disseminate information regarding variations in  
22 clinical practice patterns across the state; and

32 (a) Complete the plan of initial implementation, including but not

2 banks;

3 (b) Implement the first health record banks in pilot sites as  
4 funding allows;

5 (c) Involve health care consumers in meaningful ways in design,  
6 implementation, oversight, and dissemination of information on the

8 (d) Promote adoption of electronic medical records through  
9 continuation of the Washington health information collaborative, and by  
10 working with private payors and other organizations in restructuring  
11 reimbursement to provide incentives for providers to adopt electronic  
12 medical records in their practices.

13 (2) The administrator may establish an advisory board, a  
14 stakeholder committee, and subcommittees to assist in carrying out the  
15 duties under this section. The administrator may reappoint health

38 portable, interoperable, secure, and respectful of patients' privacy.

1 (4) The administrator may enter into contracts to issue,  
2 distribute, and administer grants that are necessary or proper to carry  
3 out this section.

4 **REDUCING UNNECESSARY EMERGENCY ROOM USE**

5 **Sec. 10.** RCW 41.05.220 and 1998 c 245 s 38 are each amended to  
6 read as follows:

7 (1) State general funds appropriated to the department of health  
8 for the purposes of funding community health centers to provide primary  
9 health and dental care services, migrant health services, and maternity  
10 health care services shall be transferred to the state health care  
11 authority. Any related administrative funds expended by the department  
12 of health for this purpose shall also be transferred to the health care  
13 authority. The health care authority shall exclusively expend these  
14 funds through contracts with community health centers to provide  
15 primary health and dental care services, migrant health services, and  
16 maternity health care services. The administrator of the health care  
17 authority shall establish requirements necessary to assure community  
18 health centers provide quality health care services that are  
19 appropriate and effective and are delivered in a cost-efficient manner.  
20 The administrator shall further assure that community health centers  
21 have appropriate referral arrangements for acute care and medical  
22 specialty services not provided by the community health centers.

23 (2) The authority, in consultation with the department of health,  
24 shall work with community and migrant health clinics and other  
25 providers of care to underserved populations, to ensure that the number  
26 of people of color and underserved people receiving access to managed  
27 care is expanded in proportion to need, based upon demographic data.

28 (3) In contracting with community health centers to provide primary  
29 health and dental services, migrant health services, and maternity  
30 health care services under subsection (1) of this section the authority  
31 shall give priority to those community health centers working with  
32 local hospitals, local community health collaboratives, and/or local  
33 health jurisdictions to successfully reduce unnecessary emergency room  
34 use.

1        NEW SECTION.    **Sec. 11.**    The Washington state health care authority  
2 and the department of social and health services shall report to the  
3 legislature by December 1, 2007, on recent trends in unnecessary  
4 emergency room use by enrollees in state purchased health care programs  
5 and the uninsured, and then partner with community organizations and  
6 local health care providers to design a demonstration pilot to reduce  
7 such unnecessary visits.

8                                    **REDUCE HEALTH CARE ADMINISTRATIVE COSTS**

9        NEW SECTION.    **Sec. 12.**    By September 1, 2007, the insurance  
10 commissioner shall provide a report to the governor and the legislature  
11 that identifies the key contributors to health care administrative  
12 costs and evaluates opportunities to reduce them, including suggested  
13 changes to state law. The report shall be completed in collaboration  
14 with health care providers, carriers, state health purchasing agencies,  
15 the Washington healthcare forum, and other interested parties.

16                                    **COVERAGE FOR DEPENDENTS TO AGE TWENTY-FIVE**

17        NEW SECTION.    **Sec. 13.**    A new section is added to chapter 41.05 RCW  
18 to read as follows:

19            (1) Any plan offered to public employees under this chapter must  
20 offer each public employee the option of covering any unmarried  
21 dependent of the employee under the age of twenty-five regardless of  
22 whether the dependent is enrolled in an educational institution.

23            (2) Any employee choosing under subsection (1) of this section to  
24 cover a dependent who is: (a) Age twenty through twenty-three and not  
25 a registered student at an accredited secondary school, college,  
26 university, vocational school, or school of nursing; or (b) age twenty-  
27 four, shall be required to pay the full cost of such coverage.

28        NEW SECTION.    **Sec. 14.**    A new section is added to chapter 48.20 RCW  
29 to read as follows:

30            Any disability insurance contract that provides coverage for a  
31 subscriber's dependent must offer the option of covering any unmarried  
32 dependent under the age of twenty-five regardless of whether the  
33 dependent is enrolled in an educational institution.

1 Washington health insurance connector and submit implementing  
2 legislation and supporting information, including funding options, to  
3 the governor and the legislature by December 1, 2007. The connector  
4 shall be designed to serve as a statewide, public-private partnership,  
5 offering maximum value for Washington state residents, through which  
6 nonlarge group health insurance may be bought and sold. It is the goal  
7 of the connector to:

8 (a) Ensure that employees of small businesses and other individuals  
9 can find affordable health insurance;

10 (b) Provide a mechanism for small businesses to contribute to their  
11 employees' coverage without the administrative burden of directly  
12 shopping or contracting for insurance;

13 (c) Ensure that individuals can access coverage as they change  
14 and/or work in multiple jobs;

15 (d) Coordinate with other state agency health insurance assistance  
16 programs, including the department of social and health services  
17 medical assistance programs and the authority's basic health program;  
18 and

19 (e) Lead the health insurance marketplace in implementation of  
20 evidence-based medicine, data transparency, prevention and wellness  
21 incentives, and outcome-based reimbursement.

22 (2) In designing the connector, the authority shall:

23 (a) Address all operational and governance issues;

24 (b) Consider best practices in the private and public sectors  
25 regarding, but not limited to, such issues as risk and/or purchasing  
26 pooling, market competition drivers, risk selection, and consumer  
27 choice and responsibility incentives; and

28 (c) Address key functions of the connector, including but not  
29 limited to:

30 (i) Methods for small businesses and their employees to realize tax  
31 benefits from their financial contributions;

32 (ii) Options for offering choice among a broad array of affordable  
33 insurance products designed to meet individual needs, including waiving  
34 some current regulatory requirements. Options may include a health  
35 savings account/high-deductible health plan, a comprehensive health  
36 benefit plan, and other benchmark plans;

37 (iii) Benchmarking health insurance products to a reasonable

1 standard to enable individuals to make an informed choice of the  
2 coverage that is right for them;

3 (iv) Aggregating premium contributions for an individual from  
4 multiple sources: Employers, individuals, philanthropies, and  
5 government;

6 (v) Mechanisms to collect and distribute workers' enrollment  
7 information and premium payments to the health plan of their choice;

8 (vi) Mechanisms for spreading health risk widely to support health  
9 insurance premiums that are more affordable;

10 (vii) Opportunities to reward carriers and consumers whose behavior  
11 is consistent with quality, efficiency, and evidence-based best  
12 practices;

13 (viii) Coordination of the transmission of premium assistance  
14 payments with the department of social and health services for  
15 individuals eligible for the department's employer-sponsored insurance  
16 program.

17 (3) The authority shall appoint an advisory board and designate a  
18 chair. Members of the advisory board shall receive no compensation,  
19 but shall be reimbursed for expenses under RCW 43.03.050 and 43.03.060.  
20 Meetings of the board are subject to chapter 42.30 RCW, the open public  
21 meetings act, including RCW 42.30.110(1)(1), which authorizes an  
22 executive session during a regular or special meeting to consider  
23 proprietary or confidential nonpublished information.

24 (4) The authority may enter into contracts to issue, distribute,  
25 and administer grants that are necessary or proper to carry out the  
26 requirements of this section.

27 **SUSTAINABILITY AND ACCESS TO PUBLIC PROGRAMS**

28 NEW SECTION. **Sec. 19.** (1) The department of social and health  
29 services shall seek necessary federal waivers and state plan amendments  
30 to expand coverage and leverage federal and state resources for the  
31 state's basic health program, for the medical assistance program, as  
32 codified at Title XIX of the federal social security act, and the  
33 state's children's health insurance program, as codified at Title XXI  
34 of the federal social security act. The department shall propose  
35 options including but not limited to:

1 (a) Offering alternative benefit designs to promote high quality  
2 care, improve health outcomes, and encourage cost-effective treatment  
3 options, including benefit designs that discourage the use of emergency  
4 rooms for nonemergent care, and redirect savings to finance additional  
5 coverage;

6 (b) Creation of a health opportunity account demonstration program;  
7 and

8 (c) Promoting private health insurance plans and premium subsidies  
9 to purchase employer-sponsored insurance wherever possible, including  
10 federal approval to expand the department's employer-sponsored  
11 insurance premium assistance program to enrollees covered through the  
12 state's children's health insurance program.

13 (2) When the department of social and health services determines  
14 that it is cost-effective to enroll a client and/or his or her  
15 dependents through an employer-sponsored health plan or any other  
16 health plan offered by a carrier, the carrier shall permit enrollment  
17 to those otherwise eligible for coverage in the health plan without  
18 regard to any open enrollment season restrictions.

19 (3) The department of social and health services, in collaboration  
20 with the Washington state health care authority, shall ensure that  
21 enrollees are not simultaneously enrolled in the state's basic health  
22 program and the medical assistance program or the state's children's  
23 health insurance program to ensure coverage for the maximum number of  
24 people within available funds. Priority enrollment in the basic health  
25 program shall be given to those who disenrolled from the program in  
26 order to enroll in medicaid, and subsequently became ineligible for  
27 medicaid coverage.

## 28 REINSURANCE

29 NEW SECTION. **Sec. 20.** (1) The office of financial management, in  
30 collaboration with the office of the insurance commissioner, shall  
31 evaluate and design a state-supported reinsurance program to address  
32 the impact of high cost enrollees in the individual and small group  
33 health insurance markets, and submit implementing legislation and  
34 supporting information, including financing options, to the governor  
35 and the legislature by December 1, 2007. In designing the program, the  
36 office of financial management shall:

1 (a) Estimate the quantitative impact on premium savings, premium  
2 stability over time and across groups of enrollees, individual and  
3 employer take-up, number of uninsured, and government costs associated  
4 with a government-funded stop-loss insurance program, including  
5 distinguishing between one-time premium savings and savings in  
6 subsequent years. In evaluating the various reinsurance models,  
7 evaluate and consider (i) the reduction in total health care costs to  
8 the state and private sector, and (ii) the reduction in individual  
9 premiums paid by employers, employees, and individuals;

10 (b) Identify all relevant design issues and alternative options for  
11 each issue. At a minimum, the evaluation shall examine (i) a  
12 reinsurance corridor of ten thousand dollars to ninety thousand  
13 dollars, and a reimbursement of ninety percent; (ii) the impacts of  
14 providing reinsurance for all small group products or a subset of  
15 products; and (iii) the applicability of a chronic care program like  
16 the approach used by the department of labor and industries with the  
17 centers of occupational health and education. Where quantitative  
18 impacts cannot be estimated, the office of financial management shall  
19 assess qualitative impacts of design issues and their options,  
20 including potential disincentives for reducing premiums, achieving  
21 premium stability, sustaining/increasing take-up, decreasing the number  
22 of uninsured, and managing government's stop-loss insurance costs;

23 (c) Identify market and regulatory changes needed to maximize the  
24 chance of the program achieving its policy goals, including how the  
25 program will relate to other coverage programs and markets. Design  
26 efforts shall coordinate with other design efforts targeting small  
27 group programs that may be directed by the legislature, as well as  
28 other approaches examining alternatives to managing risk;

29 (d) Address conditions under which overall expenditures could  
30 increase as a result of a government-funded stop-loss program and  
31 options to mitigate those conditions, such as passive versus aggressive  
32 use of disease and care management programs by insurers;

33 (e) Evaluate, and quantify where possible, the behavioral responses  
34 of insurers to the program including impacts on insurer premiums and  
35 practices for settling legal disputes around large claims; and

36 (f) Provide alternatives for transitioning from the status quo and,  
37 where applicable, alternatives for phasing in some design elements,

1 such as threshold or corridor levels, to balance government costs and  
2 premium savings.

3 (2) Within funds specifically appropriated for this purpose, the  
4 office of financial management may contract with actuaries and other  
5 experts as necessary to meet the requirements of this section.

6 **THE WASHINGTON STATE HEALTH INSURANCE POOL**

7 NEW SECTION. **Sec. 21.** The legislature finds that the Washington  
8 state health insurance pool is a critically important insurance option  
9 for people in this state and must reflect health care provisions based  
10 on the best available evidence and be financially sustainable over  
11 time. The laws governing the Washington state health insurance pool  
12 have been read to preclude the program from modifying contracts, and  
13 yet coverage needs and options change with time. Everyone in this  
14 state benefits when the Washington state health insurance pool is more  
15 affordable and higher performing. Changes are needed to the Washington  
16 state health insurance pool to increase affordability, offer quality  
17 and cost-effective benefits, and enhance the governance and operation  
18 of the pool.

19 **Sec. 22.** RCW 48.41.110 and 2001 c 196 s 4 are each amended to read  
20 as follows:

21 (1) The pool shall offer one or more care management plans of  
22 coverage. Such plans may, but are not required to, include point of  
23 service features that permit participants to receive in-network  
24 benefits or out-of-network benefits subject to differential cost  
25 shares. (~~Covered persons enrolled in the pool on January 1, 2001, may~~  
26 ~~continue coverage under the pool plan in which they are enrolled on~~  
27 ~~that date. However,~~) The pool may incorporate managed care features  
28 and encourage enrollees to participate in chronic care and disease  
29 management and evidence-based protocols into ((~~such~~)) existing plans.

30 (2) The administrator shall prepare a brochure outlining the  
31 benefits and exclusions of ((~~the~~)) pool ((~~policy~~)) policies in plain  
32 language. After approval by the board, such brochure shall be made  
33 reasonably available to participants or potential participants.

34 (3) The health insurance ((~~policy~~)) policies issued by the pool  
35 shall pay only reasonable amounts for medically necessary eligible

1 health care services rendered or furnished for the diagnosis or  
2 treatment of covered illnesses, injuries, and conditions (~~which are~~  
3 ~~not otherwise limited or excluded~~). Eligible expenses are the  
4 reasonable amounts for the health care services and items for which  
5 benefits are extended under ((the)) a pool policy. (~~Such benefits~~  
6 ~~shall at minimum include, but not be limited to, the following services~~  
7 ~~or related items~~;) )

8 (4) The pool shall offer at least one policy which at a minimum  
9 includes, but is not limited to, the following services or related  
10 items:

11 (a) Hospital services, including charges for the most common  
12 semiprivate room, for the most common private room if semiprivate rooms  
13 do not exist in the health care facility, or for the private room if  
14 medically necessary, but limited to a total of one hundred eighty  
15 inpatient days in a calendar year, and limited to thirty days inpatient  
16 care for mental and nervous conditions, or alcohol, drug, or chemical  
17 dependency or abuse per calendar year;

18 (b) Professional services including surgery for the treatment of  
19 injuries, illnesses, or conditions, other than dental, which are  
20 rendered by a health care provider, or at the direction of a health  
21 care provider, by a staff of registered or licensed practical nurses,  
22 or other health care providers;

23 (c) The first twenty outpatient professional visits for the  
24 diagnosis or treatment of one or more mental or nervous conditions or  
25 alcohol, drug, or chemical dependency or abuse rendered during a  
26 calendar year by one or more physicians, psychologists, or community  
27 mental health professionals, or, at the direction of a physician, by  
28 other qualified licensed health care practitioners, in the case of  
29 mental or nervous conditions, and rendered by a state certified  
30 chemical dependency program approved under chapter 70.96A RCW, in the  
31 case of alcohol, drug, or chemical dependency or abuse;

32 (d) Drugs and contraceptive devices requiring a prescription;

33 (e) Services of a skilled nursing facility, excluding custodial and  
34 convalescent care, for not more than one hundred days in a calendar  
35 year as prescribed by a physician;

36 (f) Services of a home health agency;

37 (g) Chemotherapy, radioisotope, radiation, and nuclear medicine  
38 therapy;

- 1 (h) Oxygen;
- 2 (i) Anesthesia services;
- 3 (j) Prostheses, other than dental;
- 4 (k) Durable medical equipment which has no personal use in the  
5 absence of the condition for which prescribed;
- 6 (l) Diagnostic x-rays and laboratory tests;
- 7 (m) Oral surgery limited to the following: Fractures of facial  
8 bones; excisions of mandibular joints, lesions of the mouth, lip, or  
9 tongue, tumors, or cysts excluding treatment for temporomandibular  
10 joints; incision of accessory sinuses, mouth salivary glands or ducts;  
11 dislocations of the jaw; plastic reconstruction or repair of traumatic  
12 injuries occurring while covered under the pool; and excision of  
13 impacted wisdom teeth;
- 14 (n) Maternity care services;
- 15 (o) Services of a physical therapist and services of a speech  
16 therapist;
- 17 (p) Hospice services;
- 18 (q) Professional ambulance service to the nearest health care  
19 facility qualified to treat the illness or injury; and
- 20 (r) Other medical equipment, services, or supplies required by  
21 physician's orders and medically necessary and consistent with the  
22 diagnosis, treatment, and condition.
- 23 ~~((4))~~ (5) The pool shall offer at least one policy which closely  
24 adheres to benefits available in the private, individual market.
- 25 (6) The board shall design and employ cost containment measures and  
26 requirements such as, but not limited to, care coordination, provider  
27 network limitations, preadmission certification, and concurrent  
28 inpatient review which may make the pool more cost-effective.
- 29 ~~((5))~~ (7) The pool benefit policy may contain benefit  
30 limitations, exceptions, and cost shares such as copayments,  
31 coinsurance, and deductibles that are consistent with managed care  
32 products, except that differential cost shares may be adopted by the  
33 board for nonnetwork providers under point of service plans. ((The  
34 pool benefit policy cost shares and limitations must be consistent with  
35 those that are generally included in health plans approved by the  
36 insurance commissioner; however, no limitation, exception, or reduction  
37 may be used that would exclude coverage for any disease, illness, or  
38 injury.

1       ~~(6)~~) (8) The pool may not reject an individual for health plan  
2 coverage based upon preexisting conditions of the individual or deny,  
3 exclude, or otherwise limit coverage for an individual's preexisting  
4 health conditions; except that it shall impose a six-month benefit  
5 waiting period for preexisting conditions for which medical advice was  
6 given, for which a health care provider recommended or provided  
7 treatment, or for which a prudent layperson would have sought advice or  
8 treatment, within six months before the effective date of coverage.  
9 The preexisting condition waiting period shall not apply to prenatal  
10 care services. The pool may not avoid the requirements of this section  
11 through the creation of a new rate classification or the modification  
12 of an existing rate classification. Credit against the waiting period  
13 shall be as provided in subsection ~~((7))~~ (9) of this section.

14       ~~((7))~~ (9)(a) Except as provided in (b) of this subsection, the  
15 pool shall credit any preexisting condition waiting period in its plans  
16 for a person who was enrolled at any time during the sixty-three day  
17 period immediately preceding the date of application for the new pool  
18 plan. For the person previously enrolled in a group health benefit  
19 plan, the pool must credit the aggregate of all periods of preceding  
20 coverage not separated by more than sixty-three days toward the waiting  
21 period of the new health plan. For the person previously enrolled in  
22 an individual health benefit plan other than a catastrophic health  
23 plan, the pool must credit the period of coverage the person was  
24 continuously covered under the immediately preceding health plan toward  
25 the waiting period of the new health plan. For the purposes of this  
26 subsection, a preceding health plan includes an employer-provided self-  
27 funded health plan.

28       (b) The pool shall waive any preexisting condition waiting period  
29 for a person who is an eligible individual as defined in section  
30 2741(b) of the federal health insurance portability and accountability  
31 act of 1996 (42 U.S.C. 300gg-41(b)).

32       ~~((8))~~ (10) If an application is made for the pool policy as a  
33 result of rejection by a carrier, then the date of application to the  
34 carrier, rather than to the pool, should govern for purposes of  
35 determining preexisting condition credit.

36       (11) The pool shall contract with organizations that provide care  
37 management that has been demonstrated to be effective and shall

1 encourage enrollees who are eligible for care management services to  
2 participate.

3 **Sec. 23.** RCW 48.41.160 and 1987 c 431 s 16 are each amended to  
4 read as follows:

5 ~~(1) ((A pool policy offered under this chapter shall contain~~  
6 ~~provisions under which the pool is obligated to renew the policy until~~  
7 ~~the day on which the individual in whose name the policy is issued~~  
8 ~~first becomes eligible for medicare coverage. At that time, coverage~~  
9 ~~of dependents shall terminate if such dependents are eligible for~~  
10 ~~coverage under a different health plan. Dependents who become eligible~~  
11 ~~for medicare prior to the individual in whose name the policy is~~  
12 ~~issued, shall receive benefits in accordance with RCW 48.41.150.~~

13 (2)) Any pool plan shall contain or incorporate by endorsement a  
14 guarantee of the continuity of coverage of the plan until the day on  
15 which the individual in whose name the policy is issued first becomes  
16 eligible for medicare coverage. For the purposes of this section, a  
17 plan is "renewed" when it is continued beyond the earliest date upon  
18 which, at the pool's sole option, the plan could have been terminated  
19 for other than nonpayment of premium. The pool may consider the  
20 individual's anniversary date as the renewal date for purposes of  
21 complying with the provisions of this section.

22 (2) The guarantee of continuity of coverage required in health  
23 plans shall not prevent the pool from canceling or nonrenewing a health  
24 plan for:

- 25 (a) Nonpayment of premium;
- 26 (b) Violation of published policies of the pool;
- 27 (c) Covered persons entitled to become eligible for medicare  
28 benefits by reason of age who fail to apply for a medicare supplement  
29 plan or medicare cost, risk, or other plan offered by the pool pursuant  
30 to federal laws and regulations;
- 31 (d) Covered persons who fail to pay any deductible or copayment  
32 amount owed to the pool and not the provider of health care services;
- 33 (e) Covered persons committing fraudulent acts as to the pool;
- 34 (f) Change or implementation of federal or state laws that no  
35 longer permit the continued offering of such coverage.

36 (3) The provisions of this section do not apply in the following  
37 cases:

1       (a) The pool has zero enrollment on a product;

2       (b) The pool replaces a product and the replacement product is  
3 provided to all covered persons within that class or line of business,  
4 includes all of the services covered under the replaced product, and  
5 does not significantly limit access to the kind of services covered  
6 under the replaced product. The pool may also allow unrestricted  
7 conversion to a fully comparable product;

8       (c) The pool discontinues offering a particular type of health  
9 benefit plan and: (i) The pool provides notice to each individual of  
10 the discontinuation at least ninety days prior to the date of the  
11 discontinuation; (ii) the pool offers to each individual provided  
12 coverage of this type the option to enroll in any other individual  
13 product for which the individual is otherwise eligible and which is  
14 currently being offered by the pool; and (iii) in exercising the option  
15 to discontinue coverage of this type and in offering the option of  
16 coverage under (c)(ii) of this subsection, the pool acts uniformly  
17 without regard to any health status-related factor of enrolled  
18 individuals or individuals who may become eligible for this coverage.

19       (4) The pool may not change the rates for pool policies except on  
20 a class basis, with a clear disclosure in the policy of the pool's  
21 right to do so.

22       ~~((+3))~~ (5) A pool policy offered under this chapter shall provide  
23 that, upon the death of the individual in whose name the policy is  
24 issued, every other individual then covered under the policy may elect,  
25 within a period specified in the policy, to continue coverage under the  
26 same or a different policy.

27       **Sec. 24.** RCW 48.41.200 and 2000 c 79 s 17 are each amended to read  
28 as follows:

29       (1) The pool shall determine the standard risk rate by calculating  
30 the average individual standard rate charged for coverage comparable to  
31 pool coverage by the five largest members, measured in terms of  
32 individual market enrollment, offering such coverages in the state. In  
33 the event five members do not offer comparable coverage, the standard  
34 risk rate shall be established using reasonable actuarial techniques  
35 and shall reflect anticipated experience and expenses for such coverage  
36 in the individual market.

1 (2) Subject to subsection (3) of this section, maximum rates for  
2 pool coverage shall be as follows:

3 (a) Maximum rates for a pool indemnity health plan shall be one  
4 hundred fifty percent of the rate calculated under subsection (1) of  
5 this section;

6 (b) Maximum rates for a pool care management plan shall be one  
7 hundred twenty-five percent of the rate calculated under subsection (1)  
8 of this section; and

9 (c) Maximum rates for a person eligible for pool coverage pursuant  
10 to RCW 48.41.100(1)(a) who was enrolled at any time during the sixty-  
11 three day period immediately prior to the date of application for pool  
12 coverage in a group health benefit plan or an individual health benefit  
13 plan other than a catastrophic health plan as defined in RCW 48.43.005,  
14 where such coverage was continuous for at least eighteen months, shall  
15 be:

16 (i) For a pool indemnity health plan, one hundred twenty-five  
17 percent of the rate calculated under subsection (1) of this section;  
18 and

19 (ii) For a pool care management plan, one hundred ten percent of  
20 the rate calculated under subsection (1) of this section.

21 (3)(a) Subject to (b) and (c) of this subsection:

22 (i) The rate for any person (~~(aged fifty to sixty four)~~) whose  
23 current gross family income is less than two hundred fifty-one percent  
24 of the federal poverty level shall be reduced by thirty percent from  
25 what it would otherwise be;

26 (ii) The rate for any person (~~(aged fifty to sixty four)~~) whose  
27 current gross family income is more than two hundred fifty but less  
28 than three hundred one percent of the federal poverty level shall be  
29 reduced by fifteen percent from what it would otherwise be;

30 (iii) The rate for any person who has been enrolled in the pool for  
31 more than thirty-six months shall be reduced by five percent from what  
32 it would otherwise be.

33 (b) In no event shall the rate for any person be less than one  
34 hundred ten percent of the rate calculated under subsection (1) of this  
35 section.

36 (c) Rate reductions under (a)(i) and (ii) of this subsection shall  
37 be available only to the extent that funds are specifically  
38 appropriated for this purpose in the omnibus appropriations act.

1       **Sec. 25.** RCW 48.41.037 and 2000 c 79 s 36 are each amended to read  
2 as follows:

3       The Washington state health insurance pool account is created in  
4 the custody of the state treasurer. All receipts from moneys  
5 specifically appropriated to the account must be deposited in the  
6 account. Expenditures from this account shall be used to cover  
7 deficits incurred by the Washington state health insurance pool under  
8 this chapter in excess of the threshold established in this section.  
9 To the extent funds are available in the account, funds shall be  
10 expended from the account to offset that portion of the deficit that  
11 would otherwise have to be recovered by imposing an assessment on  
12 members in excess of a threshold of seventy cents per insured person  
13 per month. The commissioner shall authorize expenditures from the  
14 account, to the extent that funds are available in the account, upon  
15 certification by the pool board that assessments will exceed the  
16 threshold level established in this section. The account is subject to  
17 the allotment procedures under chapter 43.88 RCW, but an appropriation  
18 is not required for expenditures.

19       Whether the assessment has reached the threshold of seventy cents  
20 per insured person per month shall be determined by dividing the total  
21 aggregate amount of assessment by the proportion of total assessed  
22 members. Thus, stop loss members shall be counted as one-tenth of a  
23 whole member in the denominator given that is the amount they are  
24 assessed proportionately relative to a fully insured medical member.

25       **Sec. 26.** RCW 48.41.100 and 2001 c 196 s 3 are each amended to read  
26 as follows:

27       (1) The following persons who are residents of this state are  
28 eligible for pool coverage:

29       (a) Any person who provides evidence of a carrier's decision not to  
30 accept him or her for enrollment in an individual health benefit plan  
31 as defined in RCW 48.43.005 based upon, and within ninety days of the  
32 receipt of, the results of the standard health questionnaire designated  
33 by the board and administered by health carriers under RCW 48.43.018;

34       (b) Any person who continues to be eligible for pool coverage based  
35 upon the results of the standard health questionnaire designated by the  
36 board and administered by the pool administrator pursuant to subsection  
37 (3) of this section;

1 (c) Any person who resides in a county of the state where no  
2 carrier or insurer eligible under chapter 48.15 RCW offers to the  
3 public an individual health benefit plan other than a catastrophic  
4 health plan as defined in RCW 48.43.005 at the time of application to  
5 the pool, and who makes direct application to the pool; and

6 (d) Any medicare eligible person upon providing evidence of  
7 rejection for medical reasons, a requirement of restrictive riders, an  
8 up-rated premium, or a preexisting conditions limitation on a medicare  
9 supplemental insurance policy under chapter 48.66 RCW, the effect of  
10 which is to substantially reduce coverage from that received by a  
11 person considered a standard risk by at least one member within six  
12 months of the date of application.

13 (2) The following persons are not eligible for coverage by the  
14 pool:

15 (a) Any person having terminated coverage in the pool unless (i)  
16 twelve months have lapsed since termination, or (ii) that person can  
17 show continuous other coverage which has been involuntarily terminated  
18 for any reason other than nonpayment of premiums. However, these  
19 exclusions do not apply to eligible individuals as defined in section  
20 2741(b) of the federal health insurance portability and accountability  
21 act of 1996 (42 U.S.C. Sec. 300gg-41(b));

22 (b) Any person on whose behalf the pool has paid out (~~one~~) two  
23 million dollars in benefits;

24 (c) Inmates of public institutions and persons whose benefits are  
25 duplicated under public programs. However, these exclusions do not  
26 apply to eligible individuals as defined in section 2741(b) of the  
27 federal health insurance portability and accountability act of 1996 (42  
28 U.S.C. Sec. 300gg-41(b));

29 (d) Any person who resides in a county of the state where any  
30 carrier or insurer regulated under chapter 48.15 RCW offers to the  
31 public an individual health benefit plan other than a catastrophic  
32 health plan as defined in RCW 48.43.005 at the time of application to  
33 the pool and who does not qualify for pool coverage based upon the  
34 results of the standard health questionnaire, or pursuant to subsection  
35 (1)(d) of this section.

36 (3) When a carrier or insurer regulated under chapter 48.15 RCW  
37 begins to offer an individual health benefit plan in a county where no  
38 carrier had been offering an individual health benefit plan:

1 (a) If the health benefit plan offered is other than a catastrophic  
2 health plan as defined in RCW 48.43.005, any person enrolled in a pool  
3 plan pursuant to subsection (1)(c) of this section in that county shall  
4 no longer be eligible for coverage under that plan pursuant to  
5 subsection (1)(c) of this section, but may continue to be eligible for  
6 pool coverage based upon the results of the standard health  
7 questionnaire designated by the board and administered by the pool  
8 administrator. The pool administrator shall offer to administer the  
9 questionnaire to each person no longer eligible for coverage under  
10 subsection (1)(c) of this section within thirty days of determining  
11 that he or she is no longer eligible;

12 (b) Losing eligibility for pool coverage under this subsection (3)  
13 does not affect a person's eligibility for pool coverage under  
14 subsection (1)(a), (b), or (d) of this section; and

15 (c) The pool administrator shall provide written notice to any  
16 person who is no longer eligible for coverage under a pool plan under  
17 this subsection (3) within thirty days of the administrator's  
18 determination that the person is no longer eligible. The notice shall:  
19 (i) Indicate that coverage under the plan will cease ninety days from  
20 the date that the notice is dated; (ii) describe any other coverage  
21 options, either in or outside of the pool, available to the person;  
22 (iii) describe the procedures for the administration of the standard  
23 health questionnaire to determine the person's continued eligibility  
24 for coverage under subsection (1)(b) of this section; and (iv) describe  
25 the enrollment process for the available options outside of the pool.

26 (4) The board shall ensure that an independent analysis of the  
27 eligibility standards is conducted, with emphasis on those populations  
28 identified in subsection (2) of this section and the impacts on the  
29 pool and the state budget. The board shall report the findings to the
