SENATE BILL 6012

State of Washington 60th Legislature 2007 Regular Session

By Senators Poulsen, Rockefeller, Pridemore, Oemig, Fraser and Regala

Read first time 02/13/2007. Referred to Committee on Water, Energy & Telecommunications.

1 AN ACT Relating to shoreline master program provisions on islands 2 in Puget Sound; and amending RCW 90.58.100.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 **Sec. 1.** RCW 90.58.100 and 1997 c 369 s 7 are each amended to read 5 as follows:

6 (1) The master programs provided for in this chapter, when adopted 7 or approved by the department shall constitute use regulations for the 8 various shorelines of the state. In preparing the master programs, and 9 any amendments thereto, the department and local governments shall to 10 the extent feasible:

(a) Utilize a systematic interdisciplinary approach which will ((insure)) ensure the integrated use of the natural and social sciences and the environmental design arts;

(b) Consult with and obtain the comments of any federal, state,
regional, or local agency having any special expertise with respect to
any environmental impact;

(c) Consider all plans, studies, surveys, inventories, and systems
 of classification made or being made by federal, state, regional, or

1 local agencies, by private individuals, or by organizations dealing 2 with pertinent shorelines of the state;

3 (d) Conduct or support such further research, studies, surveys, and
4 interviews as are deemed necessary;

(e) Utilize all available information regarding hydrology,
geography, topography, ecology, economics, and other pertinent data;

7 (f) Employ, when feasible, all appropriate, modern scientific data 8 processing and computer techniques to store, index, analyze, and manage 9 the information gathered.

10 (2) The master programs shall include, when appropriate, the 11 following:

(a) An economic development element for the location and design of
industries, industrial projects of statewide significance,
transportation facilities, port facilities, tourist facilities,
commerce and other developments that are particularly dependent on
their location on or use of the shorelines of the state;

(b) A public access element making provision for public access topublicly owned areas;

19 (c) A recreational element for the preservation and enlargement of 20 recreational opportunities, including but not limited to parks, 21 tidelands, beaches, and recreational areas;

(d) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, and other public utilities and facilities, all correlated with the shoreline use element;

(e) A use element which considers the proposed general distribution and general location and extent of the use on shorelines and adjacent land areas for housing, business, industry, transportation, agriculture, natural resources, recreation, education, public buildings and grounds, and other categories of public and private uses of the land;

32 (f) A conservation element for the preservation of natural 33 resources, including but not limited to scenic vistas, aesthetics, and 34 vital estuarine areas for fisheries and wildlife protection;

35 (g) An historic, cultural, scientific, and educational element for 36 the protection and restoration of buildings, sites, and areas having 37 historic, cultural, scientific, or educational values;

p. 2

(h) An element that gives consideration to the statewide interest
 in the prevention and minimization of flood damages; and

3 (i) Any other element deemed appropriate or necessary to effectuate4 the policy of this chapter.

5 (3) The master programs shall include such map or maps, descriptive 6 text, diagrams and charts, or other descriptive material as are 7 necessary to provide for ease of understanding.

8 (4) Master programs will reflect that state-owned shorelines of the 9 state are particularly adapted to providing wilderness beaches, 10 ecological study areas, and other recreational activities for the 11 public and will give appropriate special consideration to same.

12 (5) Each master program shall contain provisions to allow for the 13 varying of the application of use regulations of the program, including 14 provisions for permits for conditional uses and variances, to ((insure)) ensure that strict implementation of a program will not 15 create unnecessary hardships or thwart the policy enumerated in RCW 16 17 90.58.020. Any such varying shall be allowed only if extraordinary circumstances are shown and the public interest suffers no substantial 18 19 detrimental effect. The concept of this subsection shall be incorporated in the rules adopted by the department relating to the 20 21 establishment of a permit system as provided in RCW 90.58.140(3).

22 (6) Each master program shall contain standards governing the protection of single family residences and appurtenant structures 23 24 against damage or loss due to shoreline erosion. The standards shall govern the issuance of substantial development permits for shoreline 25 26 protection, including structural methods such as construction of 27 bulkheads, and nonstructural methods of protection. The standards shall provide for methods which achieve effective and timely protection 28 against loss or damage to single family residences and appurtenant 29 structures due to shoreline erosion. The standards shall provide a 30 preference for permit issuance for measures to protect single family 31 32 residences occupied prior to January 1, 1992, where the proposed measure is designed to minimize harm to the shoreline natural 33 34 environment.

35 (7) For shorelines of the state located on inhabited islands within 36 Puget Sound, a county master program may prohibit completely or may 37 limit the intensity of mining uses and associated activities, including

p. 3

- 1 the transportation of materials from the mining site, to a level that
- 2 is commercially significant considering the market for the materials on
- 3 <u>the island.</u>

--- END ---
