

HB 1375 - DIGEST

Finds that the aerospace sector, as the state's largest manufacturing and exporting industry, has made a significant contribution to local, regional, state, and national economies.

Finds that airports of regional significance in both eastern and western Washington have underutilized property and facilities that could become substantial tools for economic development.

Declares an intent to examine and determine how untapped capacity at airports of regional significance can be used to expand manufacturing, research and development, education, and training for the aerospace industry.

Directs the task force to report its findings and recommendations to the appropriate committees of the legislature by June 30, 2008.
