

**HB 1740 - DIGEST**

Requires the agencies to evaluate its activities and their effect on the climate in terms of the total amount of greenhouse gases produced.

Requires the agencies to report to the legislature every two years, beginning in 2008. The report must include, but is not limited to: (1) The total amount of greenhouse gases produced, measured in units of carbon dioxide;

(2) How the agency is incorporating the effects of climate changes into its programs and activities;

(3) The interest groups involved with aiding the agency in climate change issues; and

(4) The adaptations, activities, and technology used to reduce the effects on climate.
