

HB 1970 - DIGEST

Declares an intent of the legislature that the regulatory and inspection program authorized in this act shall include:
(1) A systematic pharmacy audit program for determining compliance with state and federal laws relating to payment for providing services to recipients under this act;

(2) A technical assistance program to identify pharmacies that could benefit from technical assistance from the department with regard to billing for payment, and to provide that assistance; and

(3) A systematic method to gather data for program improvement.
