

HB 2628-S - DIGEST

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the department of fish and wildlife to identify acceptable stabilization projects for landowners.

Requires the department of fish and wildlife to identify appropriate bank protection technologies from the integrated streambank protection guidelines among which riparian landowners may choose from in order to protect their property from flood damage.

Provides that each bank protection technique identified must include general engineering and design criteria as to its proper use.

Provides that integrated streambank protection guidelines are intended to be an evolving document based on best available science and must be updated on a regular basis.
