

SB 5828-S - DIGEST

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that education is the single most effective investment that can be made in children, the state, the economy, and the future. A well-educated citizenry is essential both for the preservation of democracy and for enhancing the state's ability to compete in the knowledge-based global economy.

Declares that the overarching goal for education in the state is to have a world-class, learner-focused, seamless education system that educates more Washingtonians to the highest levels of educational attainment.

Requires that, in conjunction with child care providers and other early learning leaders, the department shall review and revise child care provider rules in order to emphasize the need for mutual respect among parents, providers, and state staff who enforce rules. Revised rules shall clearly focus on keeping children safe and improving early learning outcomes for children. The department shall develop a plan by July 2007 that outlines the process and timelines to complete the rules review. Nothing in this act changes the department's responsibility to collectively bargain over mandatory subjects.
