

SB 6953 - DIGEST

Creates the one Washington road account in the motor vehicle fund. Expenditures from the account shall be used only for highway purposes identified in the omnibus transportation budget and to pay the principal and interest on the bonds authorized for one Washington road account projects or improvements.

Declares that because state route number 2 between Everett and Stevens pass continues to experience a disproportionate number of fatality and serious injury accidents and has been designated as a safety corridor by the governor, the corridor must receive priority consideration for any expenditures from this account.

Requires specified revenues to be deposited in the account.
