

SHB 2836 - H AMD TO H AMD (H-5598.8/10) 1698  
By Representative Orcutt

NOT ADOPTED 03/19/2010

1 Beginning on page 104, line 29 of the amendment, strike all  
2 material through "statute" on page 105, line 4 and insert the  
3 following:

4 "It is the intent of the legislature to allow small forest  
5 landowners, as defined in RCW 76.13.120, to compensate for the lack of  
6 funding in the forestry riparian easement program by increasing the  
7 number of trees that can be harvested from riparian zones on their  
8 property. The department of natural resources shall develop a process  
9 that will allow small forest landowners currently enrolled in the  
10 forestry riparian easement program to harvest timber from their  
11 riparian zones with a value that closely approximates the value that is  
12 currently owed to them under the forestry riparian easement program"

EFFECT: Eliminates proviso language requiring the Department of Natural Resources (DNR) to develop a prioritization process for purchasing easements eligible under the Forest Riparian Easement Program (FREP). Requires the DNR to develop a process for small forest landowners participating in the FREP to harvest timber from riparian zones on their property in an amount that approximates the value currently owed to them under the FREP.
