

2SSB 5213 - H COMM AMD

By Committee on Appropriations

ADOPTED AND ENGROSSED 4/16/13

1 Strike everything after the enacting clause and insert the  
2 following:

3 "NEW SECTION. **Sec. 1.** A new section is added to chapter 74.09 RCW  
4 to read as follows:

5 The legislature finds that chronic care management, including  
6 comprehensive medication management services, provided by licensed  
7 pharmacists and qualified providers is a critical component of a  
8 collaborative, multidisciplinary, inter-professional approach to the  
9 treatment of chronic diseases for targeted individuals, to improve the  
10 quality of care and reduce overall cost in the treatment of such  
11 diseases.

12 **Sec. 2.** RCW 74.09.522 and 2011 1st sp.s. c 15 s 29, 2011 1st sp.s.  
13 c 9 s 2, and 2011 c 316 s 4 are each reenacted and amended to read as  
14 follows:

15 (1) For the purposes of this section:

16 (a) "Managed health care system" means any health care  
17 organization, including health care providers, insurers, health care  
18 service contractors, health maintenance organizations, health insuring  
19 organizations, or any combination thereof, that provides directly or by  
20 contract health care services covered under this chapter and rendered  
21 by licensed providers, on a prepaid capitated basis and that meets the  
22 requirements of section 1903(m)(1)(A) of Title XIX of the federal  
23 social security act or federal demonstration waivers granted under  
24 section 1115(a) of Title XI of the federal social security act;

25 (b) "Nonparticipating provider" means a person, health care  
26 provider, practitioner, facility, or entity, acting within their scope  
27 of practice, that does not have a written contract to participate in a  
28 managed health care system's provider network, but provides health care

1 services to enrollees of programs authorized under this chapter whose  
2 health care services are provided by the managed health care system.

3 (2) The authority shall enter into agreements with managed health  
4 care systems to provide health care services to recipients of temporary  
5 assistance for needy families under the following conditions:

6 (a) Agreements shall be made for at least thirty thousand  
7 recipients statewide;

8 (b) Agreements in at least one county shall include enrollment of  
9 all recipients of temporary assistance for needy families;

10 (c) To the extent that this provision is consistent with section  
11 1903(m) of Title XIX of the federal social security act or federal  
12 demonstration waivers granted under section 1115(a) of Title XI of the  
13 federal social security act, recipients shall have a choice of systems  
14 in which to enroll and shall have the right to terminate their  
15 enrollment in a system: PROVIDED, That the authority may limit  
16 recipient termination of enrollment without cause to the first month of  
17 a period of enrollment, which period shall not exceed twelve months:  
18 AND PROVIDED FURTHER, That the authority shall not restrict a  
19 recipient's right to terminate enrollment in a system for good cause as  
20 established by the authority by rule;

21 (d) To the extent that this provision is consistent with section  
22 1903(m) of Title XIX of the federal social security act, participating  
23 managed health care systems shall not enroll a disproportionate number  
24 of medical assistance recipients within the total numbers of persons  
25 served by the managed health care systems, except as authorized by the  
26 authority under federal demonstration waivers granted under section  
27 1115(a) of Title XI of the federal social security act;

28 (e)(i) In negotiating with managed health care systems the  
29 authority shall adopt a uniform procedure to enter into contractual  
30 arrangements, to be included in contracts issued or renewed on or after  
31 January 1, (~~2012~~) 2015, including:

32 (A) Standards regarding the quality of services to be provided;

33 (B) The financial integrity of the responding system;

34 (C) Provider reimbursement methods that incentivize chronic care  
35 management within health homes, including comprehensive medication  
36 management services for patients with multiple chronic conditions in  
37 alignment with medication management services as described in section  
38 3503(c) and (d) of P.L. 111-148 of 2010, as amended;

1 (D) Provider reimbursement methods that reward health homes that,  
2 by using chronic care management, reduce emergency department and  
3 inpatient use; (~~and~~)

4 (E) Promoting provider participation in the program of training and  
5 technical assistance regarding care of people with chronic conditions  
6 described in RCW 43.70.533, including allocation of funds to support  
7 provider participation in the training, unless the managed care system  
8 is an integrated health delivery system that has programs in place for  
9 chronic care management;

10 (F) Provider reimbursement methods within the medical billing  
11 processes that incentivize pharmacists or other qualified providers  
12 licensed in Washington state to provide comprehensive medication  
13 management services consistent with the findings and goals established  
14 in section 1 of this act and in alignment with section 3503(c) and (d)  
15 of P.L. 111-148 of 2010, as amended;

16 (G) Evaluation and reporting on the impact of comprehensive  
17 medication management services on patient clinical outcomes and total  
18 health care costs, including reductions in emergency department  
19 utilization, hospitalization, and drug costs.

20 (ii)(A) Health home services contracted for under this subsection  
21 may be prioritized to enrollees with complex, high cost, or multiple  
22 chronic conditions.

23 (B) Contracts that include the items in (e)(i)(C) through (~~(E)~~)  
24 (G) of this subsection must not exceed the rates that would be paid in  
25 the absence of these provisions;

26 (f) The authority shall seek waivers from federal requirements as  
27 necessary to implement this chapter;

28 (g) The authority shall, wherever possible, enter into prepaid  
29 capitation contracts that include inpatient care. However, if this is  
30 not possible or feasible, the authority may enter into prepaid  
31 capitation contracts that do not include inpatient care;

32 (h) The authority shall define those circumstances under which a  
33 managed health care system is responsible for out-of-plan services and  
34 assure that recipients shall not be charged for such services;

35 (i) Nothing in this section prevents the authority from entering  
36 into similar agreements for other groups of people eligible to receive  
37 services under this chapter; and

1 (j) The ((department)) authority must consult with the federal  
2 center for medicare and medicaid innovation and seek funding  
3 opportunities to support health homes.

4 (3) The authority shall ensure that publicly supported community  
5 health centers and providers in rural areas, who show serious intent  
6 and apparent capability to participate as managed health care systems  
7 are seriously considered as contractors. The authority shall  
8 coordinate its managed care activities with activities under chapter  
9 70.47 RCW.

10 (4) The authority shall work jointly with the state of Oregon and  
11 other states in this geographical region in order to develop  
12 recommendations to be presented to the appropriate federal agencies and  
13 the United States congress for improving health care of the poor, while  
14 controlling related costs.

15 (5) The legislature finds that competition in the managed health  
16 care marketplace is enhanced, in the long term, by the existence of a  
17 large number of managed health care system options for medicaid  
18 clients. In a managed care delivery system, whose goal is to focus on  
19 prevention, primary care, and improved enrollee health status,  
20 continuity in care relationships is of substantial importance, and  
21 disruption to clients and health care providers should be minimized.  
22 To help ensure these goals are met, the following principles shall  
23 guide the authority in its healthy options managed health care  
24 purchasing efforts:

25 (a) All managed health care systems should have an opportunity to  
26 contract with the authority to the extent that minimum contracting  
27 requirements defined by the authority are met, at payment rates that  
28 enable the authority to operate as far below appropriated spending  
29 levels as possible, consistent with the principles established in this  
30 section.

31 (b) Managed health care systems should compete for the award of  
32 contracts and assignment of medicaid beneficiaries who do not  
33 voluntarily select a contracting system, based upon:

34 (i) Demonstrated commitment to or experience in serving low-income  
35 populations;

36 (ii) Quality of services provided to enrollees;

37 (iii) Accessibility, including appropriate utilization, of services  
38 offered to enrollees;

1 (iv) Demonstrated capability to perform contracted services,  
2 including ability to supply an adequate provider network;

3 (v) Payment rates; and

4 (vi) The ability to meet other specifically defined contract  
5 requirements established by the authority, including consideration of  
6 past and current performance and participation in other state or  
7 federal health programs as a contractor.

8 (c) Consideration should be given to using multiple year  
9 contracting periods.

10 (d) Quality, accessibility, and demonstrated commitment to serving  
11 low-income populations shall be given significant weight in the  
12 contracting, evaluation, and assignment process.

13 (e) All contractors that are regulated health carriers must meet  
14 state minimum net worth requirements as defined in applicable state  
15 laws. The authority shall adopt rules establishing the minimum net  
16 worth requirements for contractors that are not regulated health  
17 carriers. This subsection does not limit the authority of the  
18 Washington state health care authority to take action under a contract  
19 upon finding that a contractor's financial status seriously jeopardizes  
20 the contractor's ability to meet its contract obligations.

21 (f) Procedures for resolution of disputes between the authority and  
22 contract bidders or the authority and contracting carriers related to  
23 the award of, or failure to award, a managed care contract must be  
24 clearly set out in the procurement document.

25 (6) The authority may apply the principles set forth in subsection  
26 (5) of this section to its managed health care purchasing efforts on  
27 behalf of clients receiving supplemental security income benefits to  
28 the extent appropriate.

29 (7) A managed health care system shall pay a nonparticipating  
30 provider that provides a service covered under this chapter to the  
31 system's enrollee no more than the lowest amount paid for that service  
32 under the managed health care system's contracts with similar providers  
33 in the state.

34 (8) For services covered under this chapter to medical assistance  
35 or medical care services enrollees and provided on or after August 24,  
36 2011, nonparticipating providers must accept as payment in full the  
37 amount paid by the managed health care system under subsection (7) of  
38 this section in addition to any deductible, coinsurance, or copayment

1 that is due from the enrollee for the service provided. An enrollee is  
2 not liable to any nonparticipating provider for covered services,  
3 except for amounts due for any deductible, coinsurance, or copayment  
4 under the terms and conditions set forth in the managed health care  
5 system contract to provide services under this section.

6 (9) Pursuant to federal managed care access standards, 42 C.F.R.  
7 Sec. 438, managed health care systems must maintain a network of  
8 appropriate providers that is supported by written agreements  
9 sufficient to provide adequate access to all services covered under the  
10 contract with the ((department)) authority, including hospital-based  
11 physician services. The ((department)) authority will monitor and  
12 periodically report on the proportion of services provided by  
13 contracted providers and nonparticipating providers, by county, for  
14 each managed health care system to ensure that managed health care  
15 systems are meeting network adequacy requirements. No later than  
16 January 1st of each year, the ((department)) authority will review and  
17 report its findings to the appropriate policy and fiscal committees of  
18 the legislature for the preceding state fiscal year.

19 (10) Subsections (7) through (9) of this section expire July 1,  
20 2016."

21 Correct the title.

--- END ---
