EFFECT: Adds language stating Legislative intent that the private-public partnership match rate for state funds in the Home Visiting Services Account be fifty percent. However, state funds in

the account may be accessed by the private-public partnership without a fifty percent match. If the private-public partnership does not meet the fifty percent match by the conclusion of the fiscal year ending June 30, the Department of Early Learning and the private-public partnership, shall jointly submit a report to the relevant Legislative committees detailing the reason why the fifty percent match was not met, and a plan to achieve the fifty percent match in the subsequent fiscal year. The report shall be submitted as promptly as practicable, but lack of receipt of this report shall not prevent state funds in the account from being accessed. Adds language limiting the Department of Early Learning's administrative costs to an average of four percent in any two consecutive fiscal years. Removes proposed language directing the private-public partnership and the Department of Early Learning to determine the match rate for public funds in the Home Visiting Services Account each fiscal year.
