

E2SHB 1727 - S COMM AMD
By Committee on Health Care

NOT CONSIDERED

1 Strike everything after the enacting clause and insert the
2 following:

3 "Sec. 1. RCW 18.20.330 and 2012 c 10 s 22 are each amended to read
4 as follows:

5 (1) Assisted living facilities are not required to provide
6 intermittent nursing services. The assisted living facility licensee
7 may choose to provide any of the following intermittent nursing
8 services through appropriately licensed and credentialed staff,
9 however, the facility may or may not need to provide additional
10 intermittent nursing services to comply with the reasonable
11 accommodation requirements in federal or state law:

- 12 (a) Medication administration;
13 (b) Administration of health care treatments;
14 (c) Diabetic management;
15 (d) Nonroutine ostomy care;
16 (e) Tube feeding; and
17 (f) Nurse delegation consistent with chapter 18.79 RCW.

18 (2) The licensee shall clarify on the disclosure form any
19 limitations, additional services, or conditions that may apply under
20 this section.

21 (3) In providing intermittent nursing services, the assisted living
22 facility shall observe the resident for changes in overall functioning
23 and respond appropriately when there are observable or reported changes
24 in the resident's physical, mental, or emotional functioning.

25 (4) The assisted living facility may provide intermittent nursing
26 services to ~~((the extent permitted by RCW 18.20.160))~~ residents who do
27 not require the frequent presence and supervision of a licensed
28 registered nurse.

1 NEW SECTION. **Sec. 2.** A new section is added to chapter 18.20 RCW
2 to read as follows:

3 (1) If an assisted living facility chooses to provide continuing
4 nursing services and admits a person who requires the frequent presence
5 and evaluation of a registered nurse, the facility must have a
6 registered nurse available to assure the safe delivery of the required
7 care and services in accordance with applicable rules developed by the
8 department.

9 (2) An assisted living facility that is unable to assure that a
10 registered nurse is available to provide or direct the safe delivery of
11 the required care and services may not admit or retain a person who
12 requires the frequent presence and evaluation of a registered nurse.
13 Persons who are receiving hospice care or have a short-term illness
14 that is expected to be resolved within fourteen days may remain or be
15 admitted in the facility provided that the facility is able to assure
16 that sufficient numbers and appropriately qualified and trained staff
17 or outside service providers under RCW 18.20.380 are available to meet
18 the needs of such persons.

19 (3) If the assisted living facility license has the designation
20 required under section 4 of this act, the facility may provide
21 continuing nursing services, as defined by the department in rule, to
22 meet the needs of residents whose needs could not be met through
23 intermittent nursing services under RCW 18.20.330.

24 (4) On the disclosure form, the assisted living facility shall
25 describe any limitations, additional services, or conditions that may
26 apply under this section.

27 (5) In providing continuing nursing services, the assisted living
28 facility shall observe the resident for changes in overall functioning
29 and respond appropriately when there are observable or reported changes
30 in the resident's physical, mental, or emotional functioning that
31 exceed the licensee's licensure limitations and any limitations
32 described in the disclosure form.

33 (6) If an assisted living facility with a continuing nursing
34 services designation determines, or has reason to believe, that a
35 resident needs continuing nursing services or rehabilitative therapy
36 services, then the facility must provide the resident, the resident's
37 legal representative, if any, and, if not, the resident representative,
38 with a department-approved written notice informing the client that he

1 or she may be eligible for complete or partial coverage of those
2 services through medicare, medicaid, veterans' benefits, long-term care
3 insurance, or other benefit programs. The department shall develop the
4 written notice with input from stakeholders. The notice must inform
5 residents of possible coverage under the benefit programs at reduced
6 fee or no cost to the resident, and provide contact information for
7 those programs. The notice must be signed and dated by the resident,
8 or his or her representative if the resident lacks capacity. The
9 facility must retain a copy of the signed notice. If the resident
10 chooses to use his or her benefits under medicare, medicaid, veterans'
11 benefits, long-term care insurance, or other programs, the resident may
12 elect to receive the nursing or rehabilitative therapy services offered
13 through an outside health care provider under RCW 18.20.380, or from
14 the assisted living facility if the facility is an authorized provider
15 under the relevant benefit program. An assisted living facility that
16 fails to give the notice required under this subsection and charges the
17 resident privately for the provision of continuing nursing or
18 rehabilitative services commits an act that constitutes financial
19 exploitation under chapter 74.34 RCW. The long-term care ombuds must
20 provide information to residents upon request on the notice required by
21 this section, financial exploitation of a vulnerable adult, and
22 remedies available to a person who believes that this section has been
23 violated.

24 (7) An assisted living facility that chooses to provide continuing
25 nursing services, and has residents whose care is paid for in whole or
26 in part by medicaid, may not use the continuing nursing services
27 designation, or any physical plant alterations or application process
28 necessary for such designation, as a basis for the permanent discharge
29 of any of the facility's current medicaid residents. An assisted
30 living facility that receives an initial continuing nursing services
31 designation may not, for one year following the initial designation,
32 reduce the number of medicaid residents that the facility accepts or
33 retains below the highest number of medicaid residents living at the
34 facility within one year prior to the application for an initial
35 continuing nursing services designation.

36 **Sec. 3.** RCW 18.20.160 and 2012 c 10 s 11 are each amended to read
37 as follows:

1 (~~No person operating an assisted living facility licensed under
2 this chapter shall admit to or retain in the assisted living facility
3 any aged person requiring nursing or medical care of a type provided by
4 institutions licensed under chapters 18.51, 70.41 or 71.12 RCW, except
5 that when registered nurses are available, and upon a doctor's order
6 that a supervised medication service is needed, it may be provided.
7 Supervised medication services, as defined by the department and
8 consistent with chapters 69.41 and 18.79 RCW, may include an approved
9 program of self-medication or self-directed medication. Such
10 medication service shall be provided only to residents who otherwise
11 meet all requirements for residency in an assisted living facility. No
12 assisted living facility shall admit or retain a person who requires
13 the frequent presence and frequent evaluation of a registered nurse,
14 excluding persons who are receiving hospice care or persons who have a
15 short term illness that is expected to be resolved within fourteen
16 days.)) The assisted living facility licensed under this chapter must
17 assume general responsibility for each resident and must promote each
18 resident's health, safety, and well-being consistent with the resident
19 negotiated care plan. In addition, the assisted living facility may
20 provide assistance with activities of daily living, health support
21 services, intermittent nursing services, and continuing nursing
22 services, as may be further defined by the department in rule, and
23 consistent with the care and services included in the disclosure form
24 required under RCW 18.20.300. To provide continuing nursing services,
25 the licensee shall obtain from the department a designation as required
26 by section 4 of this act. Without first obtaining the required
27 designation on its license, an assisted living facility may not admit
28 or retain a person who requires the frequent presence and frequent
29 evaluation of a licensed registered nurse, except for persons who are
30 receiving hospice care or persons who have a short-term illness that is
31 expected to be resolved within fourteen days. The assisted living
32 facility must assure that sufficient numbers and appropriately
33 qualified and trained staff are available to provide care and services
34 consistent with this chapter.~~

35 NEW SECTION. Sec. 4. A new section is added to chapter 18.20 RCW
36 to read as follows:

1 (1) An assisted living facility may provide continuing nursing
2 services if it secures a designation on its license from the
3 department.

4 (2) At least sixty days prior to the anticipated designation to
5 provide continuing nursing services, the applicant must submit to the
6 department a completed application on a form developed by the
7 department.

8 (3) Prior to granting an initial continuing nursing services
9 designation, the department shall make an inspection visit to the
10 assisted living facility applicant to determine the facility's
11 compliance with the continuing nursing services rules. At least once
12 every eighteen months, the department shall inspect the assisted living
13 facility to determine the facility's compliance with the applicable
14 rules to determine whether the designation may be continued.

15 (4) The department shall establish fees to be paid by assisted
16 living facilities prior to the issuance of an initial or renewal
17 designation under this section. The department shall establish the fee
18 at a level that covers the cost of the administration of the
19 designation program.

20 (5) For the purposes of this section, "continuing nursing services"
21 means the resident has been assessed with a condition or diagnosis that
22 is expected to require the frequent presence and supervision of a
23 licensed registered nurse.

24 **Sec. 5.** RCW 18.20.030 and 2012 c 10 s 3 are each amended to read
25 as follows:

26 (1) After January 1, 1958, no person shall operate or maintain an
27 assisted living facility as defined in this chapter within this state
28 without a license under this chapter.

29 (2) An assisted living facility license is not required for the
30 housing, or services, that are customarily provided under landlord
31 tenant agreements governed by the residential landlord-tenant act,
32 chapter 59.18 RCW, or when housing nonresident individuals who chose to
33 participate in programs or services under subsection (5) of this
34 section, when offered by the assisted living facility licensee or the
35 licensee's contractor. This subsection does not prohibit the licensee
36 from furnishing written information concerning available community

1 resources to the nonresident individual or the individual's family
2 members or legal representatives. The licensee may not require the use
3 of any particular service provider.

4 (3) Residents receiving domiciliary care, directly or indirectly by
5 the assisted living facility, are not considered nonresident
6 individuals for the purposes of this section.

7 (4) An assisted living facility license is required when any person
8 other than an outside service provider, under RCW 18.20.380, or family

16 (d) Provides intermittent nursing services, either directly or

18 (e) Provides continuing nursing services, either directly or
19 indirectly.

20 (5) An assisted living facility license is not required for one or
21 more of the following services that may, upon the request of the
22 nonresident, be provided to a nonresident individual: (a) Emergency
23 assistance provided on an intermittent or nonroutine basis; (b)
24 systems, including technology-based monitoring devices, employed by
25 independent senior housing, or independent living units in continuing
26 care retirement communities, to respond to the potential need for
27 emergency services; (c) scheduled and nonscheduled blood pressure
28 checks; (d) nursing assessment services to determine whether referral
29 to an outside health care provider is recommended; (e) making and
30 reminding the nonresident of health care appointments; (f) preadmission
31 assessment for the purposes of transitioning to a licensed care
32 setting; (g) medication assistance which may include reminding or

19 to six residents prior to or on July 1, 2000, may maintain its assisted
20 living facility license as long as it is continually licensed as an
21 assisted living facility. "Assisted living facility" shall not include
22 facilities certified as group training homes pursuant to RCW
