**Summary of Bill:** Every state agency and state institution of higher education must report to the Office of Financial Management (OFM) an inventory of all fees charged by the agency or institution. The inventory must include the purpose of the fee, the amount of the fee, the statutory authority for the fee, and the amount of the fee over the previous five years. The agency must update the information at least once every two years.

OFM must compile a statewide inventory of all of the fee information submitted by state agencies and institutions. The inventory must be made available to the public on the website of state expenditure information maintained by the Legislative Evaluation and Accountability Program (LEAP).
