

SB 5880-S - DIGEST

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires student results on the federally mandated statewide administered reading or language arts and mathematics assessments to be used as one of the multiple measures of student growth for the teachers who teach the relevant subjects in the grades in which the assessments are administered and for the principals who are assigned to schools in which at least one of the relevant subjects are taught in at least one of the grades in which the assessments are administered.

Makes an appropriation.
