2 according to specified limitations, and the secretary may issue  
3 licenses restricted according to the limits of each classification.

4 (3) The secretary may impose license restrictions specific to the

6 "**Sec. 412.** RCW 43.88.090 and 2015 c 225 s 86 are each amended to  
7 read as follows:

8 (1) For purposes of developing budget proposals to the  
9 legislature, the governor shall have the power, and it shall be the  
10 governor's duty, to require from proper agency officials such  
11 detailed estimates and other information in such form and at such  
12 times as the governor shall direct. The governor shall communicate  
13 statewide priorities to agencies for use in developing biennial  
14 budget recommendations for their agency and shall seek public  
15 involvement and input on these priorities. The estimates for the  
16 legislature and the judiciary shall be transmitted to the governor  
17 and shall be included in the budget without revision. The estimates  
18 for state pension contributions shall be based on the rates provided  
19 in chapter 41.45 RCW. Copies of all such estimates shall be  
20 transmitted to the standing committees on ways and means of the house  
21 and senate at the same time as they are filed with the governor and  
22 the office of financial management.

23 The estimates shall include statements or tables which indicate,  
24 by agency, the state funds which are required for the receipt of  
25 federal matching revenues. The estimates shall be revised as  
26 necessary to reflect legislative enactments and adopted  
27 appropriations and shall be included with the initial biennial  
28 allotment submitted under RCW 43.88.110. The estimates must reflect  
29 that the agency considered any alternatives to reduce costs or  
30 improve service delivery identified in the findings of a performance  
31 audit of the agency by the joint legislative audit and review  
32 committee. Nothing in this subsection requires performance audit  
33 findings to be published as part of the budget.

34 (2) Each state agency shall define its mission and establish  
35 measurable goals for achieving desirable results for those who  
36 receive its services and the taxpayers who pay for those services.  
37 Each agency shall also develop clear strategies and timelines to

1 achieve its goals. This section does not require an agency to develop  
2 a new mission or goals in place of identifiable missions or goals  
3 that meet the intent of this section. The mission and goals of each  
4 agency must conform to statutory direction and limitations.

5 (3) For the purpose of assessing activity performance, each state  
6 agency shall establish quality and productivity objectives for each  
7 major activity in its budget. The objectives must be consistent with  
8 the missions and goals developed under this section. The objectives  
9 must be expressed to the extent practicable in outcome-based,  
10 objective, and measurable form unless an exception to adopt a  
11 different standard is granted by the office of financial management  
12 and approved by the legislative committee on performance review.  
13 Objectives must specifically address the statutory purpose or intent  
14 of the program or activity and focus on data that measure whether the  
15 agency is achieving or making progress toward the purpose of the  
16 activity and toward statewide priorities. The office of financial  
17 management shall provide necessary professional and technical  
18 assistance to assist state agencies in the development of strategic  
19 plans that include the mission of the agency and its programs,  
20 measurable goals, strategies, and performance measurement systems.

21 (4) Each state agency shall adopt procedures for and perform  
22 continuous self-assessment of each activity, using the mission,  
23 goals, objectives, and measurements required under subsections (2)  
24 and (3) of this section. The assessment of the activity must also  
25 include an evaluation of major information technology systems or  
26 projects that may assist the agency in achieving or making progress  
27 toward the activity purpose and statewide priorities. The evaluation  
28 of proposed major information technology systems or projects shall be  
29 in accordance with the standards and policies established by the  
30 (~~office of the chief information officer~~) technology services  
31 board. Agencies' progress toward the mission, goals, objectives, and  
32 measurements required by subsections (2) and (3) of this section is  
33 subject to review as set forth in this subsection.

34 (a) The office of financial management shall regularly conduct  
35 reviews of selected activities to analyze whether the objectives and  
36 measurements submitted by agencies demonstrate progress toward  
37 statewide results.

38 (b) The office of financial management shall consult with: (i)  
39 The four-year institutions of higher education in those reviews that  
40 involve four-year institutions of higher education; and (ii) the

1 state board for community and technical colleges in those reviews  
2 that involve two-year institutions of higher education.

3 (c) The goal is for all major activities to receive at least one  
4 review each year.

5 (d) The office of (~~the chief information officer shall review~~)  
6 financial management shall consult with the consolidated technology  
7 services agency when conducting reviews of major information  
8 technology systems in use by state agencies. The goal is that reviews  
9 of these information technology systems occur periodically.

10 (5) It is the policy of the legislature that each agency's budget  
11 recommendations must be directly linked to the agency's stated  
12 mission and program, quality, and productivity goals and objectives.  
13 Consistent with this policy, agency budget proposals must include  
14 integration of performance measures that allow objective  
15 determination of an activity's success in achieving its goals. When a  
16 review under subsection (4) of this section or other analysis  
17 determines that the agency's objectives demonstrate that the agency  
18 is making insufficient progress toward the goals of any particular  
19 program or is otherwise underachieving or inefficient, the agency's  
20 budget request shall contain proposals to remedy or improve the  
21 selected programs. The office of financial management shall develop a  
22 plan to merge the budget development process with agency performance  
23 assessment procedures. The plan must include a schedule to integrate  
24 agency strategic plans and performance measures into agency budget  
25 requests and the governor's budget proposal over three fiscal  
26 biennia. The plan must identify those agencies that will implement  
27 the revised budget process in the 1997-1999 biennium, the 1999-2001  
28 biennium, and the 2001-2003 biennium. In consultation with the  
29 legislative fiscal committees, the office of financial management  
30 shall recommend statutory and procedural modifications to the state's  
31 budget, accounting, and reporting systems to facilitate the  
32 performance assessment procedures and the merger of those procedures  
33 with the state budget process. The plan and recommended statutory and  
34 procedural modifications must be submitted to the legislative fiscal  
35 committees by September 30, 1996.

36 (6) In reviewing agency budget requests in order to prepare the  
37 governor's biennial budget request, the office of financial  
38 management shall consider the extent to which the agency's activities  
39 demonstrate progress toward the statewide budgeting priorities, along

1 with any specific review conducted under subsection (4) of this  
2 section.

3 (7) In the year of the gubernatorial election, the governor shall  
4 invite the governor-elect or the governor-elect's designee to attend  
5 all hearings provided in RCW 43.88.100; and the governor shall  
6 furnish the governor-elect or the governor-elect's designee with such  
7 information as will enable the governor-elect or the governor-elect's  
8 designee to gain an understanding of the state's budget requirements.  
9 The governor-elect or the governor-elect's designee may ask such  
10 questions during the hearings and require such information as the  
11 governor-elect or the governor-elect's designee deems necessary and  
12 may make recommendations in connection with any item of the budget  
13 which, with the governor-elect's reasons therefor, shall be presented  
14 to the legislature in writing with the budget document. Copies of all  
15 such estimates and other required information shall also be submitted  
16 to the standing committees on ways and means of the house and  
17 senate."
