Kilduff, and RossettiMuri, Bergquist, Hayes, Magendanz,

Read first time 01/20/16. Referred to Committee on Appropriations.

AN ACT Relating to modifying provisions applicable to library materials and associated costs in requirements governing allocations per annual average full-time equivalent student for educational materials, supplies, and operating costs; amending RCW 28A.150.260; reenacting and amending RCW 28A.150.260; and providing effective dates.

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

8 Sec. 1. RCW 28A.150.260 and 2014 c 217 s 206 are each amended to 9 read as follows:

10 The purpose of this section is to provide for the allocation of 11 state funding that the legislature deems necessary to support school 12 districts in offering the minimum instructional program of basic 13 education under RCW 28A.150.220. The allocation shall be determined 14 as follows:

15 (1) The governor shall and the superintendent of public 16 instruction may recommend to the legislature a formula for the 17 distribution of a basic education instructional allocation for each 18 common school district.

19 (2) The distribution formula under this section shall be for
 20 allocation purposes only. Except as may be required under chapter
 21 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and

1 regulations, nothing in this section requires school districts to use basic education instructional funds to 2 implement a particular instructional approach or service. Nothing in this section requires 3 school districts to maintain a particular classroom teacher-to-4 student ratio or other staff-to-student ratio or to use allocated 5 б funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a 7 particular teacher planning period. 8

(3)(a) To the extent the technical details of the formula have 9 been adopted by the legislature and except when specifically provided 10 as a school district allocation, the distribution formula for the 11 basic education instructional allocation shall be based on minimum 12 staffing and nonstaff costs the legislature deems necessary to 13 support instruction and operations in prototypical schools serving 14 high, middle, and elementary school students as provided in this 15 16 section. The use of prototypical schools for the distribution formula 17 does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. 18 19 Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade 20 21 levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school 22 staff. It is the intent that the funding allocations to school 23 districts be adjusted from the school prototypes based on the actual 24 25 number of annual average full-time equivalent students in each grade 26 level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The 27 allocations shall be further adjusted from the school prototypes with 28 minimum allocations for small schools and to reflect other factors 29 identified in the omnibus appropriations act. 30

31 (b) For the purposes of this section, prototypical schools are 32 defined as follows:

(i) A prototypical high school has six hundred average annualfull-time equivalent students in grades nine through twelve;

35 (ii) A prototypical middle school has four hundred thirty-two 36 average annual full-time equivalent students in grades seven and 37 eight; and

(iii) A prototypical elementary school has four hundred average
 annual full-time equivalent students in grades kindergarten through
 six.

1 (4)(a)(i) The minimum allocation for each level of prototypical 2 school shall be based on the number of full-time equivalent classroom 3 teachers needed to provide instruction over the minimum required 4 annual instructional hours under RCW 28A.150.220 and provide at least 5 one teacher planning period per school day, and based on the 6 following general education average class size of full-time 7 equivalent students per teacher:

8	General edu	cation
9	average class	s size
10	Grades K-3	25.23
11	Grade 4	27.00
12	Grades 5-6	27.00
13	Grades 7-8	28.53
14	Grades 9-12	28.74

(ii) The minimum class size allocation for each prototypical high 15 school shall also provide for enhanced funding for class size 16 17 reduction for two laboratory science classes within grades nine through twelve per full-time equivalent high school student 18 multiplied by a laboratory science course factor of 0.0833, based on 19 20 the number of full-time equivalent classroom teachers needed to 21 provide instruction over the minimum required annual instructional 22 hours in RCW 28A.150.220, and providing at least one teacher planning 23 period per school day:

24		Laboratory science
25		average class size
26	Grades 9-12.	

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reducedprice meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

33 (c) The minimum allocation for each prototypical middle and high 34 school shall also provide for full-time equivalent classroom teachers 35 based on the following number of full-time equivalent students per 36 teacher in career and technical education:

37 38 Career and technical education average

1 class size Approved career and technical education offered at 2 3 26.57 4 Skill center programs meeting the standards established by the office of the superintendent of public 5 6 instruction. 22.76 7 (d) In addition, the omnibus appropriations act shall at а minimum specify: 8 9 (i) A high-poverty average class size in schools where more than 10 fifty percent of the students are eligible for free and reduced-price meals; and 11 12 (ii) A specialty average class size for advanced placement and 13 international baccalaureate courses. 14 (5) The minimum allocation for each level of prototypical school shall include allocations for the following types of 15 staff in 16 addition to classroom teachers: 17 Elementary Middle High 18 School School School 19 Principals, assistant principals, and other certificated building-level 20 administrators..... 1.253 1.353 1.880 21 Teacher librarians, a function that includes information literacy, technology, 22 and media to support school library media programs. 0.663 0.519 0.523 23 Health and social services: 24 School nurses. 0.076 0.060 0.096 25 Social workers. 0.042 0.006 0.015 26 Psychologists. 0.017 0.002 0.007 27 Guidance counselors, a function that includes parent outreach and graduation 28 advising..... 0.493 1.116 2.539 29 Teaching assistance, including any aspect of educational instructional services 30 provided by classified employees. 0.936 0.700 0.652 31 Office support and other noninstructional aides. 2.012 2.325 3.269 32 Custodians. 1.657 1.942 2.965 33 Classified staff providing student and staff safety. 0.079 0.092 0.141 34 Parent involvement coordinators. 0.00 0.00 0.00

(10) In addition to the allocations otherwise provided under this
 section, amounts shall be provided to support the following programs
 and services:

To provide supplemental instruction and services for 4 (a) underachieving students through the learning assistance program under 5 6 RCW 28A.165.005 through 28A.165.065, allocations shall be based on 7 the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum 8 allocation for the program shall provide for each level 9 of prototypical school resources to provide, on a statewide average, 10 1.5156 hours per week in extra instruction with a class size of 11 12 fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students 13 14 whose primary language is other than English, allocations shall be based on the head count number of students in each school who are 15 16 eligible for and enrolled in the transitional bilingual instruction 17 program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide 18 19 resources to provide, on a statewide average, 4.7780 hours per week in extra instruction with fifteen transitional bilingual instruction 20 program students per teacher. Notwithstanding other provisions of 21 this subsection (10), the actual per-student allocation may be scaled 22 to provide a larger allocation for students needing more intensive 23 intervention and a commensurate reduced allocation for students 24 25 needing less intensive intervention, as detailed in the omnibus 26 appropriations act.

(c) To provide additional allocations to support programs for 27 highly capable students under RCW 28A.185.010 through 28A.185.030, 28 allocations shall be based on two and three hundred fourteen one-29 thousandths percent of each school district's full-time equivalent 30 31 basic education enrollment. The minimum allocation for the programs 32 shall provide resources to provide, on a statewide average, 2.1590 33 hours per week in extra instruction with fifteen highly capable program students per teacher. 34

(11) The allocations under subsections (4)(a) and (b), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

39 (12)(a) For the purposes of allocations for prototypical high 40 schools and middle schools under subsections (4) and (10) of this

section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

6 (b) Allocations or enhancements provided under subsections (4), 7 (7), and (9) of this section for exploratory and preparatory career 8 and technical education courses shall be provided only for courses 9 approved by the office of the superintendent of public instruction 10 under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average 19 number of full-time equivalent students and part-time students as 20 21 provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 22 28A.335.160 and 28A.225.250 who do not reside within the servicing 23 school district. The definition of full-time equivalent student shall 24 25 be determined by rules of the superintendent of public instruction 26 and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional 27 hour offerings required under RCW 28A.150.220. Any revision of the 28 29 present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee. 30

31 (d) The office of financial management shall make a monthly 32 review of the superintendent's reported full-time equivalent students 33 in the common schools in conjunction with RCW 43.62.050.

34 Sec. 2. RCW 28A.150.260 and 2015 c 2 s 2 (Initiative Measure No. 35 1351) and 2014 c 217 s 206 are each reenacted and amended to read as 36 follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic

1 education under RCW 28A.150.220. The allocation shall be determined 2 as follows:

3 (1) The governor shall and the superintendent of public 4 instruction may recommend to the legislature a formula for the 5 distribution of a basic education instructional allocation for each 6 common school district.

(2) The distribution formula under this section shall be for 7 allocation purposes only. Except as required for class size reduction 8 funding provided under subsection (4)(f) of this section and as may 9 be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, 10 or federal laws and regulations, nothing in this section requires 11 school districts to use basic education instructional funds to 12 implement a particular instructional approach or service. Nothing in 13 14 this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or 15 16 to use allocated funds to pay for particular types or classifications 17 of staff. Nothing in this section entitles an individual teacher to a 18 particular teacher planning period.

(3)(a) To the extent the technical details of the formula have 19 been adopted by the legislature and except when specifically provided 20 21 as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum 22 staffing and nonstaff costs the legislature deems necessary to 23 support instruction and operations in prototypical schools serving 24 25 high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula 26 does not constitute legislative intent that schools should be 27 28 operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to 29 operate a school of a particular size with particular types and grade 30 31 levels of students using commonly understood terms and inputs, such 32 as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school 33 districts be adjusted from the school prototypes based on the actual 34 number of annual average full-time equivalent students in each grade 35 level at each school in the district and not based on the grade-level 36 configuration of the school to the extent that data is available. The 37 allocations shall be further adjusted from the school prototypes with 38 39 minimum allocations for small schools and to reflect other factors 40 identified in the omnibus appropriations act.

1 (b) For the purposes of this section, prototypical schools are 2 defined as follows:

3 (i) A prototypical high school has six hundred average annual
4 full-time equivalent students in grades nine through twelve;

5 (ii) A prototypical middle school has four hundred thirty-two 6 average annual full-time equivalent students in grades seven and 7 eight; and

8 (iii) A prototypical elementary school has four hundred average 9 annual full-time equivalent students in grades kindergarten through 10 six.

(4)(a)(i) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

24	Grades 7-8	25.00
25	Grades 9-12	25.00

26 (ii) The minimum class size allocation for each prototypical high 27 school shall also provide for enhanced funding for class size reduction for two laboratory science classes within grades nine 28 through twelve per full-time equivalent high school student 29 multiplied by a laboratory science course factor of 0.0833, based on 30 the number of full-time equivalent classroom teachers needed to 31 provide instruction over the minimum required annual instructional 32 hours in RCW 28A.150.220, and providing at least one teacher planning 33 period per school day: 34

1 (ii) Districts that demonstrate capital facility needs that 2 prevent them from reducing actual class sizes to funded levels, may 3 use funding in this subsection (4) for school-based personnel who 4 provide direct services to students. Districts that use this funding 5 for purposes other than reducing actual class sizes must annually 6 report the number and dollar value for each type of personnel funded 7 by school and grade level.

8 (iii) The office of the superintendent of public instruction 9 shall develop rules to implement this subsection (4).

10 (5) The minimum allocation for each level of prototypical school 11 shall include allocations necessary for the safe and effective 12 operation of a school, to meet individual student needs, and to 13 ensure all required school functions can be performed by 14 appropriately trained personnel, for the following types of staff in 15 addition to classroom teachers:

 and services:

To provide supplemental instruction and services for 4 (a) underachieving students through the learning assistance program under 5 6 RCW 28A.165.005 through 28A.165.065, allocations shall be based on 7 the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum 8 allocation for the program shall provide for each level 9 of prototypical school resources to provide, on a statewide average, 10 1.5156 hours per week in extra instruction with a class size of 11 12 fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students 13 14 whose primary language is other than English, allocations shall be based on the head count number of students in each school who are 15 16 eligible for and enrolled in the transitional bilingual instruction 17 program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide 18 19 resources to provide, on a statewide average, 4.7780 hours per week in extra instruction with fifteen transitional bilingual instruction 20 program students per teacher. Notwithstanding other provisions of 21 this subsection (10), the actual per-student allocation may be scaled 22 to provide a larger allocation for students needing more intensive 23 intervention and a commensurate reduced allocation for students 24 25 needing less intensive intervention, as detailed in the omnibus 26 appropriations act.

(c) To provide additional allocations to support programs for 27 highly capable students under RCW 28A.185.010 through 28A.185.030, 28 allocations shall be based on two and three hundred fourteen one-29 thousandths percent of each school district's full-time equivalent 30 31 basic education enrollment.
