The appropriations in this section are subject to the following conditions and limitations:

(1) All expenditures from the state taxable building construction account—state appropriation in this section must be used for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions or otherwise increase energy independence for the state. All expenditures must be used for projects that develop and acquire

1 assets that have a useful life of at least thirteen years. These  
2 requirements must be specified in funding agreements issued by the  
3 department.

4 (2) For any project funded from the state taxable building  
5 construction account—state appropriation in this section, state funds  
6 must not exceed fifty percent of the estimated cost of a project, and  
7 funding preference must be provided to projects that offer a higher  
8 percentage of nonstate match funds.

9 (3)(a) \$15,000,000 of the state taxable building construction  
10 account—state appropriation in this section is provided solely to  
11 create a revolving loan fund to support the widespread use of proven  
12 building energy efficiency and renewable energy technologies now  
13 inhibited by lack of access to capital.

14 (b) To create the loan fund, the department shall provide grant  
15 funds to a competitively selected nonprofit lender that will provide  
16 matching private capital and will administer the loan fund. The  
17 department must select the loan fund administrator through a  
18 competitive process, with scoring conducted by a group of qualified  
19 experts, applying criteria specified by the department.

20 (c) The department must establish guidelines for the lender  
21 related to applicant eligibility, the screening process, and  
22 evaluation and selection criteria. The criteria must include  
23 requiring evidence of support for the proposed project from the  
24 impacted community and consistency with economic growth strategies  
25 and plans of the affected local governments. Applications for loans

27 to be provided for a project. The nonprofit lender must use the  
28 revolving loan fund to make affordable loans for projects including,  
29 but not limited to: Residential and commercial energy retrofits,  
30 residential and community-scale solar installations, anaerobic  
31 digesters to treat dairy and organic waste, and combined heat and  
32 power projects using woody biomass as a fuel source.

33 (d) The department must conduct due diligence activities  
34 associated with the use of public funds, including oversight of the  
35 project selection process and project monitoring.

7 shall develop a grant application process to competitively select  
8 projects for grant awards, to include scoring conducted by a group of  
9 qualified experts with application of criteria specified by the  
10 department. Applications for grants must disclose all sources of  
11 public funding to be provided for a project. The grant funds must be  
12 used to fund projects that demonstrate how to: Integrate intermittent  
13 renewables through energy storage and information technology,  
14 dispatch energy storage resources from utility control rooms, use the  
15 thermal properties and electric load of commercial buildings and  
16 district energy systems to store energy, or otherwise improve the  
17 reliability and reduce the costs of intermittent or distributed  
18 renewable energy.

19       (5) \$6,000,000 of the state taxable building construction account  
20 —state appropriation in this section is provided solely for grants to

14 high hazard ranking for which there is an approved remedial action  
15 work plan or an equivalent document under federal cleanup law;

16 (B) Brownfield properties within a redevelopment opportunity zone

28 cleanup activities in fresh or marine waters; and

29 (vii) Appropriations to the state toxics control account or the  
30 environmental legacy stewardship account created in RCW 70.105D.170,  
31 if the legislature determines that priorities for spending exceed  
32 available funds in those accounts.

33 (b) Funds for plans and programs must be allocated consistent  
34 with the priorities and matching requirements established in chapters  
35 70.105, 70.95C, 70.95I, and 70.95 RCW.

37 control account may also be used for local government storm water  
38 planning and implementation activities.

1 (d) During the 2013-2015 fiscal biennium, the legislature may  
2 transfer from the local toxics control account to the state general  
3 fund, such amounts as reflect the excess fund balance in the account.

4 (e) To expedite cleanups throughout the state, the department may  
5 use the following strategies when providing grants to local  
6 governments under this subsection:

7 (i) Enter into an extended grant agreement with a local  
8 government conducting remedial actions at a facility where those  
9 actions extend over multiple biennia and the total eligible cost of  
10 those actions exceeds twenty million dollars. The agreement is  
11 subject to the following limitations:

12 (A) The initial duration of such an agreement may not exceed ten  
13 years. The department may extend the duration of such an agreement  
14 upon finding substantial progress has been made on remedial actions  
15 at the facility;

16 (B) Extended grant agreements may not exceed fifty percent of the  
17 total eligible remedial action costs at the facility; and

18 (C) The department may not allocate future funding to an extended  
19 grant agreement unless the local government has demonstrated to the  
20 department that funds awarded under the agreement during the previous  
21 biennium have been substantially expended or contracts have been  
22 entered into to substantially expend the funds;

23 (ii) Enter into a grant agreement with a local government  
24 conducting a remedial action that provides for periodic reimbursement  
25 of remedial action costs as they are incurred as established in the  
26 agreement;

27 (iii) Enter into a grant agreement with a local government prior  
28 to it acquiring a property or obtaining necessary access to conduct  
29 remedial actions, provided the agreement is conditioned upon the  
30 local government acquiring the property or obtaining the access in  
31 accordance with a schedule specified in the agreement;

32 (iv) Provide integrated planning grants to local governments to  
33 fund studies necessary to facilitate remedial actions at brownfield  
34 properties and adaptive reuse of properties following remediation.  
35 Eligible activities include, but are not limited to: Environmental  
36 site assessments; remedial investigations; health assessments;  
37 feasibility studies; site planning; community involvement; land use  
38 and regulatory analyses; building and infrastructure assessments;  
39 economic and fiscal analyses; and any environmental analyses under  
40 chapter 43.21C RCW;

1 (v) Provide grants to local governments for remedial actions  
2 related to areawide groundwater contamination. To receive the  
3 funding, the local government does not need to be a potentially  
4 liable person or be required to seek reimbursement of grant funds  
5 from a potentially liable person;

6 (vi) The director may alter grant matching requirements to create  
7 incentives for local governments to expedite cleanups when one of the  
8 following conditions exists:

9 (A) Funding would prevent or mitigate unfair economic hardship  
10 imposed by the clean-up liability;

11 (B) Funding would create new substantial economic development,  
12 public recreational opportunities, or habitat restoration  
13 opportunities that would not otherwise occur; or

14 (C) Funding would create an opportunity for acquisition and  
15 redevelopment of brownfield property under RCW 70.105D.040(5) that  
16 would not otherwise occur;

17 (vii) When pending grant applications under ~~((e)-(f))~~ (e)(iv)  
18 and (v) of this subsection (4) exceed the amount of funds available,  
19 designated redevelopment opportunity zones must receive priority for  
20 distribution of available funds.

21 ~~((d)-(f))~~ (f) To expedite multiparty clean-up efforts, the  
22 department may purchase remedial action cost-cap insurance. For the  
23 2013-2015 fiscal biennium, moneys in the local toxics control account  
24 may be spent on projects in sections 3024, 3035, 3036, and 3059,  
25 chapter 19, Laws of 2013 2nd sp. sess.

26 (5) Except for unanticipated receipts under RCW 43.79.260 through  
27 43.79.282, moneys in the state and local toxics control accounts may  
28 be spent only after appropriation by statute.

29 (6) No moneys deposited into either the state or local toxics  
30 control account may be used for: Natural disasters where there is no  
31 hazardous substance contamination; high performance buildings; solid  
32 waste incinerator facility feasibility studies, construction,  
33 maintenance, or operation; or after January 1, 2010, for projects  
34 designed to address the restoration of Puget Sound, funded in a  
35 competitive grant process, that are in conflict with the action  
36 agenda developed by the Puget Sound partnership under RCW 90.71.310.  
37 However, this subsection does not prevent an appropriation from the  
38 state toxics control account to the department of revenue to enforce  
39 compliance with the hazardous substance tax imposed in chapter 82.21  
40 RCW.

1 (7) Except during the 2011-2013 fiscal biennium, one percent of  
2 the moneys collected under RCW 82.21.030 shall be allocated only for  
3 public participation grants to persons who may be adversely affected  
4 by a release or threatened release of a hazardous substance and to  
5 not-for-profit public interest organizations. The primary purpose of  
6 these grants is to facilitate the participation by persons and  
7 organizations in the investigation and remedying of releases or  
8 threatened releases of hazardous substances and to implement the  
9 state's solid and hazardous waste management priorities. No grant may  
10 exceed sixty thousand dollars. Grants may be renewed annually. Moneys  
11 appropriated for public participation that are not expended at the  
12 close of any biennium revert to the state toxics control account.

13 (8) The department shall adopt rules for grant or loan issuance  
14 and performance. To accelerate both remedial action and economic  
15 recovery, the department may expedite the adoption of rules necessary  
16 to implement chapter 1, Laws of 2013 2nd sp. sess. using the  
17 expedited procedures in RCW 34.05.353. The department shall initiate  
18 the award of financial assistance by August 1, 2013. To ensure the  
19 adoption of rules will not delay financial assistance, the department  
20 may administer the award of financial assistance through interpretive  
21 guidance pending the adoption of rules through July 1, 2014.

22 (9) Except as provided under subsection (3)(k) and (q) of this  
23 section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects  
24 [affects] the ability of a potentially liable person to receive  
25 public funding.

26 (10) During the 2013-2015 fiscal biennium the local toxics  
27 control account may also be used for the centennial clean water  
28 program and for storm water grants.

29 **Sec. 5003.** RCW 43.160.080 and 2010 1st sp.s. c 36 s 6011 are

32 facilities construction loan revolving account, which shall consist  
33 of all moneys collected under this chapter and any moneys  
34 appropriated to it by law. Disbursements from the revolving account  
35 shall be on authorization of the board. In order to maintain an  
36 effective expenditure and revenue control, the public facilities  
37 construction loan revolving account shall be subject in all respects
