2 chapter; and to do any and all lawful acts required and expedient to

15 (5) Nothing contained in this chapter gives a board of joint
16 control the authority to abridge the existing rights,
17 responsibilities, and authorities of an individual irrigation entity
18 or others within the area of jurisdiction; nor in a case where the
19 board of joint control consists of representatives of two or more
20 divisions of a federal reclamation project shall the board of joint
21 control abridge any powers of an existing board of control created
22 through federal contract; nor shall a board of joint control have any
23 authority to abridge or modify a water right benefiting lands within
24 its area of jurisdiction without consent of the party holding the
25 ownership interest in the water right.
