AS AMENDED BY THE HOUSE

Passed Legislature - 2015 Regular Session

**State of Washington                      64th Legislature                      2015 Regular Session**

**By** Senate Health Care (originally sponsored by Senators Parlette, Cleveland, Rivers, Keiser, Angel, Chase, and Bailey)

READ FIRST TIME 02/10/15.

1            AN ACT Relating to pharmacy services in hospital emergency rooms  
2 and hospital clinics; amending RCW 18.64.043; reenacting and amending  
3 RCW 18.64.011; adding new sections to chapter 70.41 RCW; and  
4 declaring an emergency.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6            NEW SECTION.    **Sec. 1.**    A new section is added to chapter 70.41  
7 RCW to read as follows:

8            (1) The legislature finds that high quality, safe, and  
9 compassionate health care services for patients of Washington state  
10 must be available at all times. The legislature further finds that  
11 there is a need for patients being released from hospital emergency  
12 departments to maintain access to emergency medications when  
13 community or hospital pharmacy services are not available. It is the  
14 intent of the legislature to accomplish this objective by allowing  
15 practitioners with prescriptive authority to prescribe limited  
16 amounts of prepackaged emergency medications to patients being  
17 discharged from hospital emergency departments when access to  
18 community or outpatient hospital pharmacy services is not otherwise  
19 available.

20            (2) A hospital may allow a practitioner to prescribe prepackaged  
21 emergency medications and allow a practitioner or a registered nurse

1 licensed under chapter 18.79 RCW to distribute prepackaged emergency  
2 medications to patients being discharged from a hospital emergency  
3 department during times when community or outpatient hospital  
4 pharmacy services are not available within fifteen miles by road or  
5 when, in the judgment of the practitioner and consistent with  
6 hospital policies and procedures, a patient has no reasonable ability  
7 to reach the local community or outpatient pharmacy. A hospital may  
8 only allow this practice if: The director of the hospital pharmacy,  
9 in collaboration with appropriate hospital medical staff, develops  
10 policies and procedures regarding the following:

11 (a) Development of a list, preapproved by the pharmacy director,  
12 of the types of emergency medications to be prepackaged and  
13 distributed;

14 (b) Assurances that emergency medications to be prepackaged  
15 pursuant to this section are prepared by a pharmacist or under the  
16 supervision of a pharmacist licensed under chapter 18.64 RCW;

17 (c) Development of specific criteria under which emergency  
18 prepackaged medications may be prescribed and distributed consistent  
19 with the limitations of this section;

20 (d) Assurances that any practitioner authorized to prescribe  
21 prepackaged emergency medication or any nurse authorized to  
22 distribute prepackaged emergency medication is trained on the types  
23 of medications available and the circumstances under which they may  
24 be distributed;

25 (e) Procedures to require practitioners intending to prescribe  
26 prepackaged emergency medications pursuant to this section to  
27 maintain a valid prescription either in writing or electronically in  
28 the patient's records prior to a medication being distributed to a  
29 patient;

30 (f) Establishment of a limit of no more than a forty-eight hour  
31 supply of emergency medication as the maximum to be dispensed to a  
32 patient, except when community or hospital pharmacy services will not  
33 be available within forty-eight hours. In no case may the policy  
34 allow a supply exceeding ninety-six hours be dispensed;

35 (g) Assurances that prepackaged emergency medications will be  
36 kept in a secure location in or near the emergency department in such  
37 a manner as to preclude the necessity for entry into the pharmacy;  
38 and

1 (h) Assurances that nurses or practitioners will distribute  
2 prepackaged emergency medications to patients only after a  
3 practitioner has counseled the patient on the medication.

4 (3) The delivery of a single dose of medication for immediate  
5 administration to the patient is not subject to the requirements of  
6 this section.

7 (4) For purposes of this section:

8 (a) "Emergency medication" means any medication commonly  
9 prescribed to emergency room patients, including those drugs,  
10 substances or immediate precursors listed in schedules II through V  
11 of the uniform controlled substances act, chapter 69.50 RCW, as now  
12 or hereafter amended.

13 (b) "Distribute" means the delivery of a drug or device other  
14 than by administering or dispensing.

19 NEW SECTION. **Sec. 2.** A new section is added to chapter 70.41  
20 RCW to read as follows:

21 (1) The legislature recognizes that in order for hospitals to  
22 ensure drugs are accessible to patients and the public to meet  
23 hospital and community health care needs, certain transfers of drugs  
24 must be authorized between hospitals and their affiliated or related  
25 companies under common ownership and control of the corporate entity  
26 and for emergency medical reasons.

27 (2) A licensed hospital pharmacy is permitted, without a  
28 wholesaler license, to:

29 (a) Engage in intracompany sales, being defined as any  
30 transaction or transfer between any division, subsidiary, parent  
31 company, affiliated company, or related company under common  
32 ownership and control of the corporate entity, unless the transfer  
33 occurs between a wholesale distributor and a health care entity or  
34 practitioner; and

35 (b) Sell, purchase, or trade a drug or offer to sell, purchase,  
36 or trade a drug for emergency medical reasons. For the purposes of  
37 this subsection, "emergency medical reasons" includes transfers of  
38 prescription drugs to alleviate a temporary shortage, except that the  
39 gross dollar value of the transfers may not exceed five percent of

1 the total prescription drug sale revenue of either the transferor or  
2 transferee pharmacy during any twelve consecutive month period.
